

Digital Consulting Services Inc.

"Help bridge the gap between now and mission success for all our clients."

Digital Consulting Services Inc. (DCS) is a dynamic, minority-owned small business based in Chantilly, Virginia, dedicated to helping organizations navigate their most complex IT and digital transformation challenges. We partner with federal, state, local, and commercial clients to deliver tailored solutions that drive measurable results. At DCS, we blend client-focused design, scalable technical expertise, and disciplined project execution to consistently deliver IT excellence. Our leadership team brings extensive executive-level experience, enabling us to anticipate client needs and execute with precision. We are proud to be certified under GSA MAS and multiple DBE/MBE/SWaM programs, demonstrating both our compliance and our commitment to diversity and inclusion. More importantly, we bring a proven track record of success, guided by a deep commitment to our clients' missions and long-term goals.

Our Core Focus Areas:

- **IT Staff Augmentation** - Providing on-demand access to highly skilled, cleared, and vetted professionals in project management, software development, cybersecurity, quality assurance, and enterprise IT operations.

- **Cloud Services** - Delivering full lifecycle cloud support, including strategy, migration, and modernization for Microsoft 365, Azure, and AWS environments. Expertise includes hybrid cloud solutions that enhance agility, security, and scalability.

- **Identity & Access Management (IAM)** - Designing and implementing enterprise-grade IAM solutions, such as multi-factor authentication (MFA), single sign-on (SSO), DMARC compliance, and role-based access controls, ensuring secure and seamless user experiences across thousands of users and applications.

- **Program Strategy & Governance** - Enabling mission success through agile program and project delivery aligned with PMBOK and federal frameworks. Services include program management office (PMO) support for organizations operating in highly regulated industries.

Our Success Stories:

Washington Metropolitan Area Transit Authority (WMATA)

- Currently supporting multiple prime contracts by delivering QA engineering, system administration, and software development expertise across 15 mission-critical web applications.
- Providing transition support for Oracle Fusion Cloud, enabling modernization and improved operational efficiency.
- Successfully migrated 14,000 Exchange mailboxes to the cloud and facilitated 15 application migrations to Microsoft Azure.

National Institutes of Health (NIH)

- Provided Tier 3 support and 24/7 administration for Microsoft Exchange and Cisco IronPort environments serving 50,000+ users across 27 institutes.
- Managed enterprise security patching and updates for 50+ servers, ensuring continuous compliance and system resilience.

UMass Chan Medical School

- Deployed Azure multi-factor authentication (MFA) and single sign-on (SSO) for 14,000 users.
- Secured over 300 enterprise applications and implemented DMARC policies across 15 domains.
- Established identity governance and access controls across three Azure tenants, leveraging a Zero Trust security model.

New York State Office of General Services (NYS OGS) - HBITS (Subcontractor)

- Provided hourly IT staff augmentation (Java, OBIEE, COBOL, Software Development).
- Supported state agencies with application development and modernization.

Texas Department of Information Resources (DIR) - ITSAC (Subcontractor)

- Delivered IT staff augmentation for Texas agencies.
- Supplied expertise in software development, system administration, and IT support.
