Executive Summary

Bridging the gap between today's challenges and mission success—Digital Consulting Services Inc delivers scalable, compliant, and forward-thinking IT staffing and consulting solutions for public and private sector clients nationwide.

Competencies

Tailored Solutions: Not one-size-fits-all, but designed around real client needs
Future-Ready Tech: We build systems that scale and adapt

Differentiators

Quality Focus: DCS has a rigorous screening and qualifying process before we chose a consultant to offer our clients. Multiple interviews, technology tests (if needed), soft skills analysis, communication evaluation, experience review etc. are all part of our standard consultant evaluation. Our clients can count on us for quality consultants to help them achieve their mission.
Best Value: Competitive pricing, high quality resources, well trained and team players is what you can count on DCS to deliver you. We can bring a full team to staff your project or a partial team or individual consultants. We can work directly with an end user client, or we can provide consultants through Prime subcontractors.
Tailored Solutions: Staffing solutions are tailored for your needs. We gather your requirements and design a staffing solution accordingly. We can deliver an individual consultant or a set of consultants or a complete team which has a history of working together harmoniously in a highly productive manner. We can deliver staff on site, near site, off site or at a remote site. We can also provide a hybrid team. For Commercial clients, we can offer global staffing and if needed we can follow the sun model.
Markets & Industries: We serve Federal, State and Local government as well as the Commercial Sector. We are on Government Wide Agency Acquisition Contracts (GWACS) like GSA MAS, Local Government certifications like DBE and other relevant certifications which agencies require to serve them.
Geographical Coverage: DCS operates primarily in the VA/DC/MD but has the ability to serve other geographies as our client's may require.

Core Focus Area

- **IT Staff Augmentation:** On-demand access to cleared and vetted professionals across project management, software development, cybersecurity, quality assurance, and enterprise operations.
- **Cloud Services:** Full lifecycle support for migrations to Microsoft 365, Azure, and AWS environments, including hybrid cloud strategy and infrastructure modernization.
- **Identity & Access Management (IAM):** Implementation of MFA, SSO, DMARC policies, and role-based access systems across thousands of users and hundreds of enterprise applications.
- **Program Strategy & Governance:** Agile program and project delivery aligned to PMBOK and federal frameworks, with PMO support across highly regulated industries.

Select Past Performance

- **National Institutes of Health (NIH):** Delivered Tier 3 support and 24/7 Exchange and Cisco IronPort administration for 50,000+ users across 27 institutes; managed security patching for 50+ servers.
- **Washington Metro Area Transit Authority (WMATA):**
  - Migrated 14,000 Exchange mailboxes to the cloud and supported 15 application migrations to Azure.
  - Currently delivering QA engineering, System Administration and Software Developers across 15 mission critical Web Technology Applications, and Oracle Fusion Cloud transition services under multiple prime contracts.
- **UMass Chan Medical School:** Implemented Azure MFA and SSO for 14,000 users, secured 300+ applications, Implemented DMARC policy for 15 domains, Implemented Identity and Governance controls for three Azure tenants using Zero Trust Model.

Certifications

GSA MAS Schedule - 47QTCA24D009X,
Virginia SWAM Certified, MBE, SBE, DBE, SDB from various states/agencies

"Help bridge the gap between now and mission success for all our clients."
