Dr. Randy: M: 9-1
W: 9-3
T & Th: 3-8
F: 9-1

****Due to the recent setback in Dr. Gerry's cancer treatment, her return to the office is uncertain. At this time, we encourage you to stay regular with your care with either Dr. Judy or Dr. Randy. Please know that she is extremely grateful for your loving thoughts, prayers, and generous financial support. Information about how to donate is available at the office. Feel free to call or ask about it on your next visit.**

Tell Someone You **Love** About Chiropractic!

Why is the Strauss Chiropractic Center running what appears to be a promotional event?

It's true, we have plenty of room, time, energy, and love to grow. Seeing fewer people overall, coupled with a challenging economy and our unusual fee system makes it important to continually attempt to encourage growth in our practice. However, the biggest reason to run a promotional event is that there are still lots and lots of people in our community who are not realizing the benefits of chiropractic. Many have never tried chiropractic at all and plenty of others have not tried the one-of-a-kind Strauss Chiropractic Center.

What's in it for me? After all, if more people come here, I'll have trouble finding parking and I'll have to wait.

First, the Strauss Chiropractic Center has more than ample resources to care for nearly twice the number of people we are currently seeing. Many of you remember the 80's and 90's when we were seeing 900-1100 people a week in this office. Even then, there was plenty of parking, almost never a wait, and still room to grow. We are at about half that volume today so there should be no worry about accommodations. Secondly, when you introduce someone to chiropractic you offer them the grandest of gifts, a gift of renewal, a gift of potential, a gift of health and well-being. You give them the opportunity to realize greater potential in every area of their lives. We can't know how many lives have been changed or in how many different ways the changes have occurred because people took the few minutes to ensure that their nerve systems were working as well as they possibly could with chiropractic. Why wouldn't you want to give that to the people you love? The greatest gift is knowing that you have helped a fellow human being and in so doing made the world a better place to be.

So, whom should I tell?

It seems most people think to refer others who have back pain or headaches. Some even refer those who suffer from a variety of ailments to see if eliminating interference in their nerve systems can allow them to adapt enough to overcome whatever symptoms they might have. The truth is you should refer anyone who has a spine. We take regular care of our eyes and our teeth, it only makes sense to take regular care of your spine, the most important organ you have. Your spine houses and protects your spinal cord and suffers the abuse of a variety of stresses EVERY SINGLE DAY. So absolutely any living person and definitely those you love are potential candidates for chiropractic.

What should I say to someone that I would like to refer?

It's sometimes as easy as asking them "So, who is your chiropractor?" You may also opt for a more conversational route like, "Oh, my chiropractor was just telling me..." This is often met with, "You see a chiropractor?" At which point you can say, "Sure, they keep me well adjusted" or "They keep my spine from getting on my nerves" or something similar. Of course, you need not feel like you have to give anyone a full dissertation on chiropractic. Remember you can always invite them to the office with you on one of your visits. This is a very non-threatening way for people to meet us and learn about the Strauss Chiropractic Center.

Referrals are the greatest compliment you can give us.

Thank you so much for sharing Strauss Chiropractic with your friends and loved ones.
