

Emeritrak™

Introducing Emeritrak™ from Emeritus Medical Technology

Are you tired of constantly wondering if your patient samples arrived at the laboratory? Fret no more, as Emeritrak™ has the perfect solution for you! Our cutting-edge package tracking device ensures that we stay in the loop about where your samples are at all times. Say goodbye to the anxiety of "did my samples arrive" and say hello to a seamless tracking experience.

How Emeritrak™ Works:

Emeritrak™ is a state-of-the-art tracking device that fits right inside your sample package. From the moment your parcel is dispatched until it arrives at one of our laboratories, Emeritrak™ tracks it every step of the way. No more guessing or waiting in the dark. We've got this!

Key Features:

- **Real-Time Tracking:** Emeritrak™, monitors your package's journey in real-time. We know exactly where your samples are at any given moment.
- **Easy Integration:** Emeritrak® is designed to be easily inserted into any package.
- **Seamless Integration:** Emeritrak™ works seamlessly with major shipping carriers, providing comprehensive tracking updates from start to finish.
- **Secure & Reliable:** Your patient's sample's our top priority. Rest assured that your patient's sample will arrive at the laboratory securely.
- **Peace of Mind:** Never worry about lost, delayed, or misrouted samples again. Emeritrak® gives you peace of mind by knowing your samples are tracked until they arrive.
