

GU Pathology Services

An Experienced, Insightful, and Innovative Pathology Partner

Experience Guides Our Genitourinary (GU) Pathology

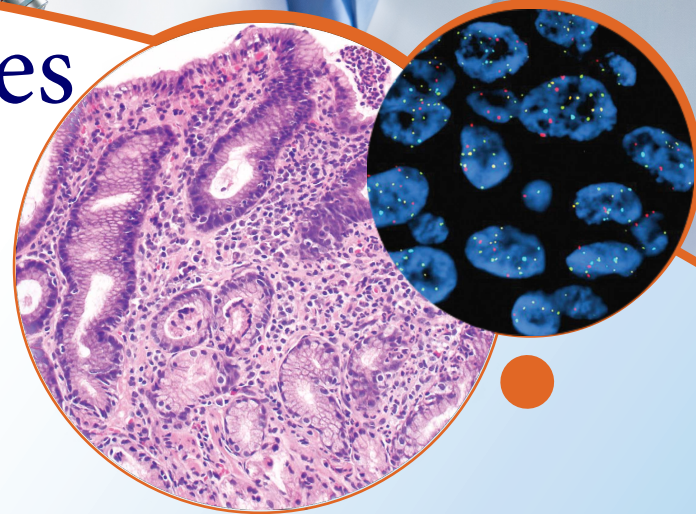

A comprehensive menu of industry-leading diagnostics for prostate and bladder cancer, performed by our qualified technicians and Board Certified pathology staff.

Innovation Drives Our Express Prostate Biopsy Processing and Comprehensive Bladder Analysis

Patient-focused development of new assays, advanced algorithms and the refinement of existing diagnostic tests. Our broad testing menu provides clinically actionable results.

Insight Directs Our Unsurpassed Business Solutions

EmeritusDX offers many partnership models designed to maximize practitioners' unique goals and expectations. Ask us how you can maximize significant clinical and financial benefits when you add TC services to your practice.

Advanced GU Diagnostics

- At-a-glance Reporting for Quick Diagnosis
- Comprehensive Bladder Analysis
- Express Prostate Biopsy Processing

We Provide Industry Leading Diagnostics

Together, We Save Lives

At EmeritusDX,

we believe patient care comes first. Just as each individual case is unique, so are the solutions we provide. Our qualified laboratory staff work hard to process every case, from the routine to the most complicated. We look forward to partnering with you to make patient care a priority and save lives.
