

Raymond Giles to Participate in the Born to Risk Beach Mastermind

VIRGINIA BEACH, Virginia – Raymond Giles, founder of Regal Luxury Travel with Raymond, will participate in the Born to Risk Beach Mastermind, joining entrepreneurs, veterans, business leaders, and authors from around the world for several days of collaboration, leadership development, and professional growth.

The event brings together accomplished professionals to exchange ideas, build meaningful relationships, and explore strategies for leadership, business development, personal branding, and creating lasting impact through entrepreneurship.

As part of the event, Raymond will celebrate the release of **Born to Risk: Veteran's Edition** and **Born to Risk: Signature Edition**, both collaborative books featuring his contributions alongside those of fellow leaders, entrepreneurs, and veterans. The books highlight stories of resilience, calculated risk, leadership, and the experiences that shape successful individuals.

"The opportunity to learn from accomplished leaders across multiple industries is invaluable," said Giles. "Events like this challenge you to think differently, strengthen your network, and ultimately return home with ideas that benefit both your business and the people you serve."

In addition to participating in leadership sessions, Raymond will connect with internationally recognized speakers, authors, and branding experts to continue developing his personal brand while expanding opportunities to educate others through travel, leadership, and entrepreneurship.

Participation in the Born to Risk Beach Mastermind reflects Raymond's ongoing commitment to professional development, lifelong learning, and building relationships that create greater value for his clients and the communities he serves.
