# 128 Signups

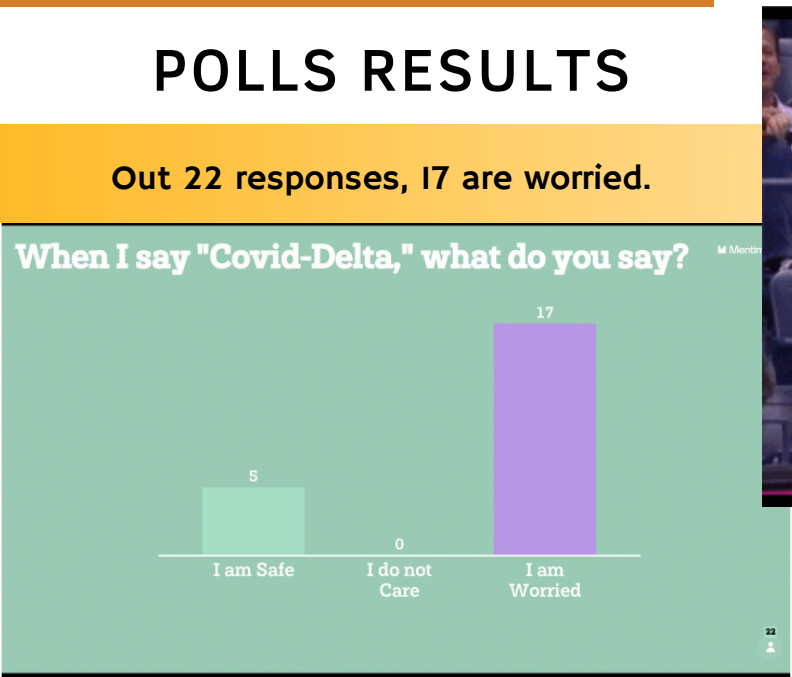

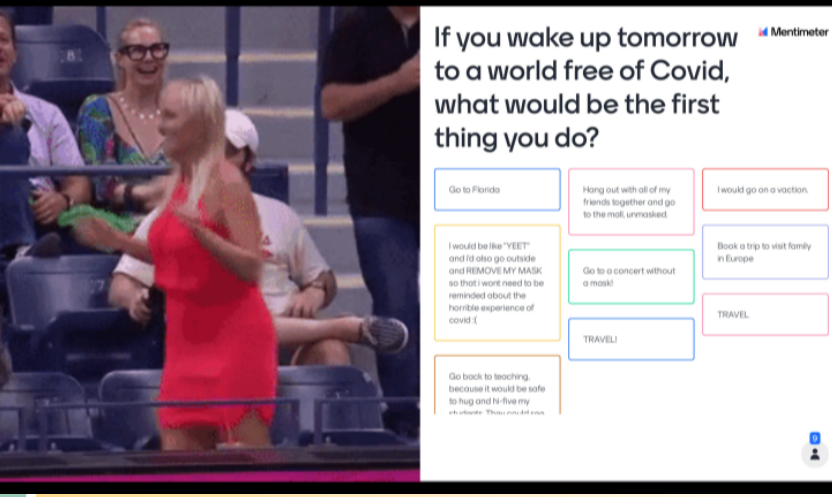

# 55 Attendees

# 100% Survey Responses Are Positive

Source: Eventbrite and Mobilize Analytics

If you wake up tomorrow to a world free of Covid, what would be the first thing you do?

Most used keywords:  
Travel, Hug, Hangout.

## HOW DID WE ARRIVE AT A 100% POSITIVE SURVEY RESPONSES? LET'S BREAK IT DOWN FOR YOU!

100%

- Warm up
- Teen Stories
- Breakout rooms

This was something of a *Labor of Love* by all co-organizers, speakers, and volunteers that came together to manifest a true model of Relational Organizing and Empowerment Model (Source: Made To Save, Field Committee).

100%

- 100% engagement among audience, Teen and Physician Moderators in breakout rooms

Easy to follow flow and high level of comfort in a multi-generational dialogue. (Source: Co-Creation Nation Team)

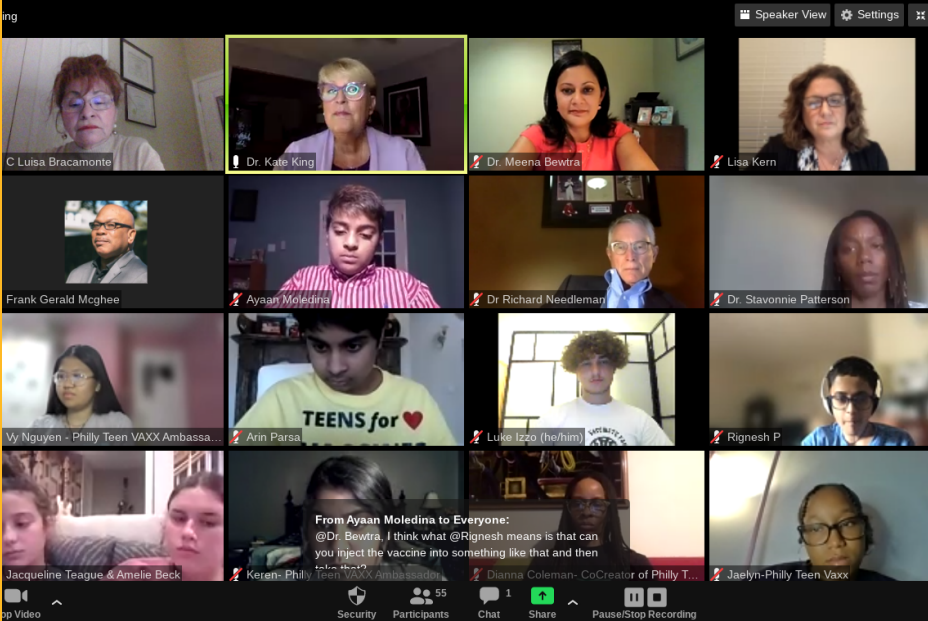

95%

- 95% audience engagement in the chat room

Some experienced technical difficulties with audio (Source: Zoom Analytics, Attendees Feedback)

"We've achieved so much in only a couple of weeks, but as we always say in Co-Creation Nation, we're only 1% done with what's possible. There's more to do and a ton of opportunities more to explore. More than ever, we need to work together to reach a 85% immunization rate collectively." We can do this: #CrushCovid.

From Ayaan Moledina to Everyone:  
@Dr. Bewtra, I think what @Rignesh means is that can you inject the vaccine into something like that and then
