Fake News or Total Truth

One is worrisome, deceitful; nothing but lies, costly and destructive.

One is liberating, satisfying, fulfilling, uplifting, and life-changing.

A friend gave me a book he thought I'd enjoy reading. When I looked at how thick it was I dreaded opening it up as I have so many books I'm reading. I'm always reading lots of different books at the same time. I'd much prefer the skinny ones I can read through at one setting. Not this one.

I knew he'd be asking me about the book soon so I finally forced myself to open the book. It has a great title, "**Total Truth**" by Nancy Pearcey. Did you get that? **Total Truth**.

Nancy is an agnostic. I should say, was an agnostic. **Agnostic:** A person who believes that nothing is known or can be know of the existence or nature of God or of anything beyond material; a person who claims to have no faith.

Nancy is a Francis A. Schaeffer Scholar. I could fill up two pages of her degrees, books, accomplishments and awards. And since I have limited space available, I'll get at the facts.

Once an agnostic, she became a Christian while on her search for scientific prove that there is no God and religion is nothing more than FAKE NEWS. So she now spends her life writing, lecturing, proving scientifically that there is a God and the creation of the world and life itself can now be proven by science. She calls this Total Truth. I can't summarize all the scientific facts she presents in the 512 pages in her book. But I will simply share this. The most powerful evidence for design from her view is the DNA Code. When scientist decoded the human genome, they never expected it to unlock the truth about the Creation of the world by God...a real God...the one you and I and Nancy

worships. To add to Nancy's discovery, physicist Heinz Pagels said that scientist seem reluctant to draw the most straightforward inference from the evidence hat the reason the universe seems tailor-made for our existence is that it was tailor-made.

All my life I've known God created the world, sent His son Jesus to die for my sins, rose from the grave and lived again so I can live. Now, after reading Nancy's book, she presents 512 pages of scientific facts based on test and discovery...yes DNA. Chance processes do not produce complex information. Nancy writes, "Today, virtually all origin-of-life researchers have abandoned theories based on chance".

I didn't need to read the 512 pages of Nancy's scientific research but it sure did make me feel good to know that even God orchestrated the discovery of DNA to add proof to His Creation and that He is alive and well and continues doing what only God can do. Love, heal, forgive, gift, comfort, lift up, inspire, hold together, battle, save, resurrect the dead, welcome us to our eternal homes in heaven and yes...He is still creating life. It's everywhere. It's amazingly wonderful. It's the Total Truth.

Thank you Nancy.

Total Truth...Christian

Have a wonderful day. God made you and He loves you. So do I.

Pastor Steve

P.S. Total Truth: We Christians don't need the scientific evidence. We have God's word. In the days of the early church, the thing that most impressed the folks in the Roman Empire was the community of love Christians witnessed among believers. "Behold how they love one another," it was said, In every age, the most persuasive evidence for the gospel is not words or arguments but a living demonstration of God's character through Christians.

PSS This is all I really needed to say but now science supports what we already knew. That's simply amazing. That's God!!!
