**Job Title** : IT Consultant  
**Location** : Manchester, UK  
**Employment type** : Fulltime, permanent  
**Salary** : £38,064.00 per year

**Job Summary:**

We are seeking a skilled and experienced IT Consultant to join our dynamic team. The ideal candidate will be responsible for advising, planning, and executing IT solutions. This role requires a blend of technical expertise, business acumen, and excellent communication skills to help our clients enhance their IT infrastructure and achieve their strategic goals.

**Key Responsibilities:**

- Design and deliver Oracle ERP cloud solutions for government and private organisations.
- Be independently accountable for work-streams within Oracle ERP cloud transformation programs.
- Develop credibility and relationships with client stakeholders.
- Design client specific solutions based on Oracle products.
- Communicate the impact of emerging technologies to clients and advise upon the potential use.
- Analyse clients' business needs and provide tailored IT solutions.
- Design, configure, and implement IT systems and solutions.
- Ensure seamless integration of new technologies with existing systems.
- Develop and maintain strong relationships with clients.
- Provide on-going support and troubleshooting for client IT issues.
- Conduct training sessions and workshops to educate clients on new systems and technologies.
- Create detailed documentation for IT projects, including project plans, status reports, and user manuals.
- Prepare and present technical reports and proposals to clients and stakeholders.

**Person specification:**

- **Education:**
  - Atleast bachelor's degree in information technology, Computer Science, or a related field, a master's degree is advantageous.
- **Professional Experience:**
  - A minimum of 5 years of experience in IT consulting, with a focus on Oracle ERP cloud solutions.
  - Proven track record of designing and delivering Oracle ERP cloud solutions for both government and private organizations.
  - Experience in leading work-streams within Oracle ERP cloud transformation programs.
- **Technical Skills:**
  - In-depth knowledge of Oracle ERP cloud products and solutions.
  - Strong understanding of IT systems design, configuration, and implementation.

- Proficiency in analysing clients' business needs and translating them into tailored IT solutions.
- Familiarity with integrating new technologies with existing systems.
- Competence in developing and presenting technical reports and proposals.
- **Communication skills:**
  - Excellent verbal and written communication skills.
  - Ability to clearly explain the impact of emerging technologies to clients.
  - Proven ability to develop and maintain strong relationships with clients and stakeholders.
  - Experience in conducting training sessions and workshops.
  - Strong organizational skills with the ability to manage multiple projects simultaneously.
  - Experience in creating detailed project documentation, including plans, status reports, and user manuals.
  - Problem-Solving: Strong analytical and problem-solving skills with a proactive approach to addressing client issues.
  - Customer Focus: A client-oriented mindset with a commitment to delivering high-quality solutions and support.
  - Adaptability: Ability to adapt to changing client needs and industry trends.
  - Team Player: Willingness to collaborate with colleagues and contribute to a positive team environment.
  - Initiative: Demonstrated ability to take initiative and be independently accountable for specific work-streams and tasks.
