**Update Your Bath with a  
Stylish & Functional Vanity**

# JEFFREY ALEXANDER®

by Hardware Resources

---

## **Maximized storage**

Large cabinets with shelves and drawers fitted around plumbing provide ample storage in each vanity.

## **Solid furniture-style construction**

High quality wood materials and furniture-style construction for a long-lasting vanity. All materials used in Jeffrey Alexander vanities meet the strict CARB2 certifications.

## **Full extension, soft-close slides**

All Jeffrey Alexander vanities are equipped with full extension soft-close slides to maximize the usability of the drawer and minimize its sound.

## **Hardwood dovetail drawer boxes**

9/16" thick solid hardwood material and dovetail joints make a box strong enough to hold any bathroom essential. Drawer box and slides have a 100 lb dynamic load rating.

## **Variety of styles & sizes**

From 18" single to 60" double, there is an array of sizes and styles to fit any need.

# Update Your Bath with a Stylish & Functional Vanity

Complete your bath with a furniture-style vanity—solid wood construction, ample storage, Soft-close drawers, and a trendy finish.

---

## **Solid countertop**

Each countertop is solid granite, quartz, marble or porcelain. Granite and Quartz tops are 2.5 cm thick; Marble tops are 2 cm thick.

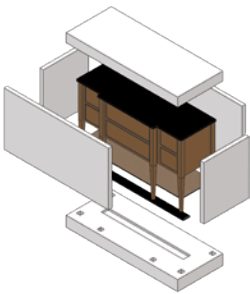

## **Options for tops**

Most Jeffrey Alexander vanities are available with a top and bowl preassembled or without a top so that you can customize the look of the vanity.

## **Easy installation**

All Jeffrey Alexander vanities come completely assembled. The back panel is precut for plumbing. For top and bowl preassembled models, installation is as easy as removing the box, placing the vanity and hooking up plumbing.

## **Upgraded packaging**

Extra padding helps protect against damage in shipment.

## **Rich finishes**

Multi-layer hand finishing process. Finish swatch kits are available from your sales representative.

## **Limited Lifetime Warranty**

Lifetime warranty for defects in materials and craftsmanship for the original purchaser.

## **Generous storage**

Large open cabinets and drawers fitted around plumbing provide ample storage in each vanity. Models 48" and larger offer additional drawer storage.

## **Full extension slides**

All Elements vanities are equipped with full extension slides to maximize the usability of the drawer.

## **Designed for 8" widespread faucet**

Each countertop is precut for use with an 8" widespread faucet.

## **Solid countertop**

Each countertop is solid granite, marble or porcelain. No composite or fillers are used.

## **Options for tops**

The most popular Elements styles are also available without a top so that you can customize the look of the vanity.

## **Variety of styles & sizes**

From 24" single to 60" double, there is an array of sizes and styles to fit any need.

# Update Your Bath with a Stylish & Functional Vanity

Complete your bath with a furniture-style vanity—solid MDF construction, generous storage, and trendy finishes

## **Easy installation**

Most Elements vanities come completely assembled with the top and bowl preinstalled and the holes for plumbing precut in the back panel. Installation is as easy as removing the box, placing the vanity and hooking up plumbing.

## **Limited Lifetime Warranty**

Lifetime warranty for defects in materials and craftsmanship for the original purchaser.

## **Finishes created by hand**

Wood grain, highlights and shading are all created by hand in the multi-layer finishing process. Finishes are designed to coordinate with multiple design schemes. Finish swatch kits are available from your sales representative.

## **What is MDF?**

MDF is an engineered lumber combining wax, resin and wood fibers. The wax provides moisture resistance, while the resin keeps the mixture uniformly dense. This mixture is then pressed in a machine using high-heat and high-pressure to harden and cut into perfectly flat, knot-free sheets.

- Since the wood fibers are broken up into such small parts, they no longer expand and contract like solid wood or particleboard and MDF tends not to split
- MDF is much denser than particleboard and therefore is a stronger material and is commonly used as a replacement for plywood
- MDF is commonly used in decorative mouldings, doors, furniture and as a component of kitchen cabinets
- Much of MDF comes from recycled content making it more friendly to the environment

## **What is special about the MDF used in Elements Vanities?**

- MDF meets strict California CARB 2 requirements
- MDF is sealed to protect against moisture damage
- The finish is applied in multiple layers to add extra protection against moisture damage

## **So, what does this mean to you?**

It means the Elements vanity you purchase is not only beautiful, but is also made of a strong, durable, sealed material that will last for years.
