USAID Ghana Resilience in Northern Ghana (RING) 2

USAID | GHANA
FROM THE AMERICAN PEOPLE

Subcontracting plan Far 19.702 w/Prime

Contract Opportunity Type: Sources Sought (Original)

All Dates/Times are: (UTC-04:00) EASTERN STANDARD TIME, NEW YORK, USA

Original Published Date: Sep 25, 2020 02:25 pm EDT

Original Response Date: Oct 15, 2020 11:59 pm EDT

Inactive Policy: Manual

Original Inactive Date: Oct 16, 2020

Sustained improvements in delivery of local services to achieve measurable improvements in nutrition and resilience of 85k women and children over 5 years.

Systemic issues to nutritional delivery have been left unaddressed.

Partnering with Ministry of Local Government and Rural Development, USAID will strengthen service delivery, in a measured way, and implement programs to benefit the 17 districts outlined in the RFI.

Identify and strengthen NGO and private sector entities to expand their capabilities.

Energy Related RFI for Air Force Office of Energy Assurance

Opportunity for logistics, energy, and energy generation disruption technology.

Contract Opportunity Type: Sources Sought (Updated)

\$21 million overall budget to 358 islands that make up Maldives and Sri Lanka (65,610 km²) are vulnerable to sea rising and increase in extreme weather events.

- Integrate climate risk management into decision-making processes on the islands, communicate to stakeholders an understanding of risk/benefits for both public/private sector.
- Require possible risk intervention strategies with measurable benchmarks, capability to enrich opportunities to work with governments to support their climate change policies.
- Help planning for long-term natural resource management.
- Use of analytics and data-driven information and tools for decisionmakers.

RFI: WE4F-A Mid-Term Review and Final Evaluation

Opportunities for: Program managers, energy, water, and food sustainability innovators.

Contract Opportunity Type: Sources Sought (Original)

All Dates/Times are: (UTC-04:00) EASTERN STANDARD TIME, NEW YORK, USA

Original Published Date: Sep 22, 2020 12:24 pm EDT

Original Response Date: Oct 06, 2020 02:00 pm EDT

Inactive Policy: 15 days after response date

Original Inactive Date: Oct 21, 2020

Expand sustainable scale of small and growing enterprises that impact the sectors of food and water, food and energy, or all three at the nexus (food, water, energy.)

Expected results:

- Have 8 proposals/innovations that improve water and/or energy efficiency including the use of renewable energy in the food chain.
- Increase in demand for these innovations.
- 25% increase in resource efficiency from these innovations.
- 12.% resource efficiency in food production.
