

# The Worlds First Divinely Inspired Magnetic Healing Device!

The DEEMS Device; a hand held electromagnetic therapeutic healing and energy balancing device by Divine Evolution!

fig. 1. Pictured: the DEEMS Device with optional crystal attachment. Device comes with ring magnet only. \*See fig. 3 for more details.

The DEEMS Device is a highly powerful rare earth, or neodymium magnetic device intended for use in:

- Pain relief
- The easing of inflammation
- Natural healing
- Increasing the energy flow and the balancing of the energy centers/ chakras/meridians.
- Very useful for practitioners of acupuncture, reiki and other shamanic and energy work.

## How it works

Much in the same way that acupuncture uses small needles to adjust the flow of energy in the body, the DEEMS Device uses 14 powerful rare earth magnets, or neodymium magnets to create a flow of electromagnetic and piezoelectric energies which then combine with the ambient universal and Earth energies that naturally flow all around us. The DEEMS Device uses and amplifies this energy and focuses it to a single point either in the center of the ring magnet, or it's moved to the tip of the optional pyramidal shaped crystals, (fig. 2).

*Rachel from San Diego*

*Over a year ago I got a pretty severe wrist injury at the gym that made normal activities involving my right hand extremely painful. Sadly, I was forced to give up my handstand practice, which I had loved doing every day.*

*I rested my wrist for over a year and there were some improvements, but the pain never subsided completely. The few times I attempted a handstand, I immediately felt a shooting pain through the top of my wrist and I would give up again. Then several weeks ago I was introduced to the DEEMS device. After some time using the device on the achy parts of my wrist, I noticed that the pain had subsided. Feeling hopeful, I tried another handstand and it didn't hurt at all! There was no more shooting pain through my wrist.*

*I didn't try any other interventions for my wrist pain. I believe I have the DEEMS device to thank for the improvement in my wrist. After over a year of pain and missing out on my favorite activities, I am so excited that now I can get back to my handstand practice!*

*Best,  
Rachel*

fig. 2. Simply wave the DEEMS Device over an injury site for several minutes to encourage the mobilization of pooled electricity, old blood and inflammatory mediators.

The DEEMS Device also works to clear and balance the chakras,

This point of energy can then interact with the meridians or neural clusters in the body to relieve pain, help to stimulate cellular growth for healing and balance the energy centers, or chakras.

The optional 7 Healing Crystal Heads can be used to focus these energies and work more deeply and directly with the body and meridians/energy centers to bring a greater healing, balancing and awakening to the user as well as the practitioner of energy work.

### WARNING!

Each complete set (device and 7 Healing Crystals), comes in a storage box and it's **HIGHLY RECOMMENDED** that all components be kept in the storage box except when in use. **NEVER REMOVE MORE THAN ONE RING MAGNET FROM THE BOX AT A TIME!**

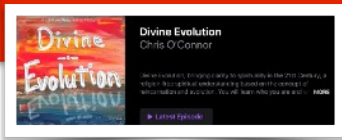

The DEEMS Device is **HIGHLY MAGNETIC** and **WILL ATTRACT ALL FERROUS METALS** and possibly even magnetize them. If allowed near electronics especially cellular phones, computers and monitors it can permanently damage them! Credit cards, ID cards, flash drives and other magnetic media and storage devices may also be permanently damaged.

Powerful attraction forces **CAN CAUSE SERIOUS INJURY** to those not familiar with their strength! **STAY AWARE OF YOUR SURROUNDINGS AND POSSIBLE INTERACTIONS WITH OTHER NEAR BY OBJECTS!**

**NEODYMIUM MAGNETS CAN BREAK!** Neodymium magnets are made of a hard, brittle metal and can peel, chip, crack and even shatter if allowed to slam together! **STAY ALERT!**

The DEEMS Device is not intended to replace current or future medical therapies and is intended for supplemental holistic treatments only. **CONSULT YOUR DOCTOR** prior to using the DEEMS Device.

#### DO NOT USE the DEEMS Device if you're wearing any jewelry or if you have:

- ANY MECHANICAL/MEDICAL IMPLANTS, ICD's (Implantable Cardioverter Defibrillator) or PACEMAKER. Many of these devices are designed to deactivate in a magnetic field. Care must be taken to avoid deactivating these devices.
- ANY METALLIC PIERCINGS, (removing them prior to use is recommended).
- ANY HEART CONDITION WHICH MAY BE WORSENER BY ELECTROMAGNETIC ENERGY WAVES.

Each DEEMS Device is hand made in the USA. Each device is numbered and comes with a certificate of authenticity.
