PRODUCT CATALOG

M1 EZ-Peel

- Smooth, instant peel in **any condition** – **hot** or **cold**
- Consistent matte finish after pressing/peeling
- Residue-free shake, no watermarks left behind
- Pinhole-free printing with strong wash resistance
- True-to-life patterns with precise color output
- Compatible with major inks, optimized for **cost-efficiency**

M2 Super InstaPeel

- **Ultra-instant peel** with smooth release
- Consistent matte finish after pressing/peeling
- Residue-free shake, no watermarks left behind
- Pinhole-free printing with strong wash resistance
- Vibrant, accurate color reproduction with fine detail
- Compatible with major inks, optimized for **consistent quality**

U1 UV

- Smooth surface with crystal-clear adhesive layer
- Sharp printed patterns without adhesive dragging
- Easy B-film peel with no sticky residue
- Anti-yellowing, strong bonding, or no edge curling
- Durable pattern hold, scratch and shift resistant

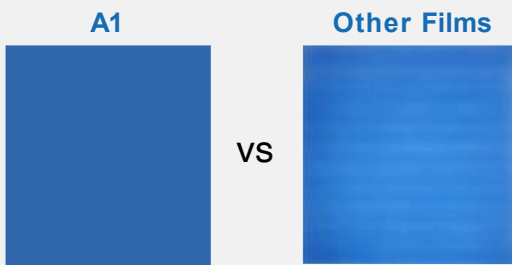

U2 UV

- Smooth surface with crystal-clear adhesive layer
- Sharp pattern output, no adhesive smudging
- Easy B-film peel with no sticky residue
- Fade-resistant, long-lasting bond with no lifting edges
- Strong adhesion, resists scratches and shifting
- **Excellent water resistance, no bubbling under pressure**

OUR SOLUTION TO THE PROBLEM

A1 InstaPeel

- **Significantly reduces color inconsistency (uneven solid colors), banding (pass lines), and stringing issues in DTF printing**
- Multi-layer tech guarantees smooth, consistent coating throughout
- Peel your way – **instant, hot, or cold** options supported
- Consistent matte finish after pressing/peeling
- Residue-free shake, no watermarks left behind
- Pinhole-free printing with excellent wash durability
- Delivers vivid, accurate patterns with **excellent color clarity**

BESIDES FILMS

INK

- **Vibrant Colors & Matte Finish**

Experience bold, vivid color output with a smooth matte finish for a premium, high-end print appearance

- **Exceptional Durability & Reliability**

Built to last with excellent wash resistance, flexibility, and adhesion—maintaining print integrity through repeated wear and washing

- **Optimized Viscosity for Smooth Flow**

Designed with ideal viscosity for smooth, uninterrupted ink flow.

Reduces clogs and keeps your printing process consistent

- **Superior Transfer Performance**

Delivers sharp, detailed images with strong adhesion and rich color saturation.

Ensures durable, high-quality transfers on DTF film

- **Reliable Shelf Life**

CMYK inks offer a 12-month shelf life from the date of manufacture for dependable performance and storage stability

CMYKW

100 mL / 3.3 fl oz

500 mL / 16.9 fl oz

250 mL / 8.4 fl oz

1000 mL / 33.8 fl oz

POWDER

- **Superior Fabric Adhesion**

Ensures strong bonding on a wide range of fabrics, including polyester, nylon, rayon, cotton, and blends

- **Soft, Flexible Finish**

Delivers smooth, soft, and flexible prints—ideal for apparel and textiles requiring comfort and wearability

- **Glossy Finish & Anti-Static Effect**

Produces a clean, glossy surface while minimizing static for enhanced visual quality.

- **High Stretchability & Durability**

Maintains elasticity and print integrity, even on stretch fabrics—offering long-lasting, crack-resistant results

1 kg / 22 lbs

2 kg / 11.0 lbs

20 kg / 44.1 lbs

AND MORE

Your needs come first

We're here to listen, support, and customize the best solution for you

Looking for more than just quality DTF products?

At AFT, we offer customizable bundles tailored to fit your printing needs—whether you're just getting started or running full-scale production.

We understand that every business is different, and our team is here to guide you in selecting the right combination of products and sizes. We're flexible because your success is our priority.

Come talk to us—we're ready to build the perfect bundle for you.

But beyond the products, what we value most—and what we're truly proud of—is our service

At AFT, **we listen, we care, and we're here to help.**

Our mission is to make your day-to-day printing easier, more efficient, and more successful.

Whether you're facing technical challenges, searching for a better solution, or simply need a partner who understands your business, we're here to support you every step of the way.

Because when you succeed, we succeed.

ABOUT US

At Advanced Film Technology (AFT), we're all about helping your prints stand out.

We specialize in top-quality Direct-to-Film (DTF) transfer films made for today's digital printing and textile pros.

Our products are designed for vibrant color reproduction, lasting durability, and unmatched consistency—helping you push print quality further while keeping costs efficient. With our office and warehouse in Los Angeles, California, a responsive team that understands your business, and scalable solutions for small shops to high-volume producers, we're here to support your growth every step of the way.

WHAT WE STAND FOR

- **Consistency** – Reliable film quality from the first batch to the last
- **Integrity** – Honest, dependable service with long-term client support
- **Flexibility** – Custom film solutions designed around your production demands
- **Innovation** – Always improving, always future-focused
