

FOOTBALL
AS ART

Soccer has always been more than just a game to me, it's an art form, a canvas painted with the passion, precision, and intensity of each moment on the field. Before I fully dedicated myself to the sport, I found joy in another form of expression: art. As a young artist, I poured myself into drawings and creations, but overtime, soccer became my primary canvas.

Now, as an entrepreneur, I have come full circle by blending my two passions – soccer and art. In partnership with Alex, the creative talent behind the company Field of Vision, this book is a reflection of that journey. Together, we've crafted a celebration of the artistry found within the beautiful game, captured through still imagery that tells stories without words. Every image in this collection is a reminder that the pitch, much like a canvas, can evoke emotions, inspire dreams, and immortalize fleeting moments of beauty.

Through this book, I hope to share with you the art of soccer as I see it: a powerful blend of skill, emotion, and movement, all captured in a single frame. These images are more than just pictures; they are a tribute to the game that has shaped me and a nod to the artist I have always been at heart.
