Insurance Workshop:

Bryan Wilson from A.S.K. Insurance Services presented two options for supplemental health insurance. He explained the difference in employee benefits and the cost differences for the town. These supplemental plans are not new, and used by many other groups.

Treasurer Cummings discussed the differences in PEIA plans A, B and C, explaining costs, benefits, and deductibles on their own, and using the plans in conjunction with the supplemental insurance. She also explained the increased costs to the Town in keeping our current plan due to the 12% PEIA premium increase for 2025/2026. With our current employees, this adds approximately \$5000 to the Town's monthly cost. The cost savings switching to Plan C, plus Premium Saver, Option 1 (supplemental plan) provides the same or better coverage. This will keep the Town's cost close to \$20,000 per month, which is our approximate cost now.

Different scenarios were discussed, and all questions answered, so the best decision could be made to save the Town money and provide adequate coverage for employees.

The meeting adjourned by acclamation at approximately 6:12pm.
