

February 19, 2019

We sure got LOTS of snow in the past couple of days; 20 – 24 inches! A second storm is forecast for late Wednesday and continuing through Friday that will bring up to 50 MORE inches of snow. Due to the high snow accumulation, hazardous road conditions, and impassable roads within the subdivision, all county and local officials are requesting that you not travel to Forest Lakes for the next several days. There will be plenty of snow to enjoy and play in it when it will be safe to make the trip.

All owners who live in Forest Lakes full time or who are at their cabins for the next several days should have packed in a generous food supply of food, be prepared for possible power outages, closed roads, and do all it takes to keep yourself safe and secure. Let's keep our emergency services from getting overwhelmed with their duties. They serve us so well and we commend them for being trained to help in all kinds of weather and situations. Please be patient and understanding that road clearing will take time, but it will get done.

HERE IS AN UPDATE ABOUT THE VERIZON INFORMATION MEETING scheduled for this coming Saturday, February 23rd. If conditions and resources allow, there will be information available at the Fire Station from 12 PM to 2 PM regarding the temporary and permanent Verizon wireless communications sites being proposed on Fire District property. Residents who are already in Forest Lakes, plan to stop by.

An **additional** meeting has been scheduled for **Saturday, March 9th from 12 PM to 2 PM, at the Fire Station** for the benefit of residents who had planned to drive up for this Saturday's meeting, but due to the weather, won't be making the trip.

If you have questions or comments about this project, you are encouraged to contact the project representatives directly. They are as follows:

Temporary Site Contact:

Reg Destree

Destreedevlopment@gmail.com

(602) 349-6930

Long-term Site Contact:

Ken Jacobs

kjacobs@northlandresearch.com

(928) 606-7255

Even the Phoenix area will be experiencing colder than normal conditions.

Where ever you are ----Stay safe, stay warm and stay put!

Judy, Editor
