### **PASSING OF BEVERLY DAVENPORT**

It is with great sadness that we report the recent passing of one of our longtime residents, Beverly Davenport. She will be greatly missed. Please keep her family in your thoughts and prayers. If you wish to send words of sympathy or thoughts to Bob and the family, please click [here](#).

**Beverly Eckles Simms Davenport** of Tempe, AZ was a caring wife, mother, grandmother, great-grandmother and friend. She left this world for her next journey on February 20th, 2021 at the age of 85. Beverly fought hard against an aggressive cancer for the year leading to her passing.

Surviving Beverly are husband Bob, sons and daughters-in-law Michael (Marlene), Stephen (Ellen), David (Mara), former daughter-in-law Annetta, 7 grandchildren and 3 great-grandchildren who always held a warm place in her heart.

Beverly was born to W. LeRoy and Doris Simms on March 31, 1935, in Bastrop, LA. After graduating from high school in Longview, WA, she attended the University of Idaho where she met her husband of 64 years, Bob Davenport. Beverly was an avid reader and that passion led to a Masters degree in Library Science and an enjoyable career as a librarian and teacher at the All Saints Episcopal Day School in Phoenix. She and Bob loved spending summers at their family cabin in Forest Lakes, AZ, where she took great pleasure in caring for their garden. Beverly and Bob travelled extensively and managed to set foot on all seven continents. Beverly was blessed with strong convictions and boundless love for her

family and always met the challenge of doing what needed to be done. She loved to scour recipe magazines to find the next delicious creation, and she treated many lucky folks to wonderful meals over the years. Beverly always enjoyed a bucket of coins to feed the slots while she and Bob spent time in the Nevada casinos. Beverly found great strength and peace in the Lord; she and Bob attended the Arizona Community Church in Tempe. Her greatest joy was spending time with people and family that she loved. Those visits and her southern traditions will last long in our memories.

We will miss Beverly (Mom) tremendously, but we are comforted by our belief that she is reunited with her parents and her other loved ones in heaven.

A memorial service will be held at a later date to celebrate her long and happy life.

---

## SNOW PICTURES

Thank you to those who shared some snow pictures from the week of January 24th's big 36" snowfall. It seems that most activities were enjoyed indoors by the fireplace. Most of the pictures shared were found on the Forest Lakes Bulletin Board page.

*We took our snow creation indoors and made some snow ice cream using chocolate milk, sugar, vanilla, and some of our favorite toppings. Super simple and yummy/only had to worry about brain freeze as opposed to actually freezing outside*

*Bernie visited Forest Lakes!*

*How much higher can we go??*

*We're in there somewhere!*

*Even our wild horses love playing in the snow!*

## **IMPORTANT INFORMATION ABOUT EMERGENCY AIR TRANSPORT**

Readers, if you are signed up with **AIR METHODS** ([www.airmethods.com](http://www.airmethods.com)), you'll want to read this new and updated information.

Air Methods is the leading air medical service, delivering lifesaving care to more than 70,000 people every year. With nearly 40 years of air medical experience, Air Methods is the preferred partner for hospitals and one of the largest community-based providers of air medical services. United Rotorcraft is the Company's products division, specializing in the design and manufacture of aeromedical and aerospace technology. Air Methods' fleet of owned, leased or maintained aircraft features more than 450 helicopters and fixed wing aircraft.

Native Air/ Air Methods' changes to our membership program

Air Methods Eliminates Memberships, Billing Concerns for Coconino County Residents Who Require Air Medical Services

Native Air, a subsidiary of Air Methods that serves Coconino County, Arizona, has launched several initiatives to ensure its patients are not caught in the middle of the billing process.

In 2019, the company launched its "No Membership Required" program so that patients no longer needed to pay for unnecessary air ambulance memberships. Medicaid and Medicare beneficiaries have never needed these memberships and, for all other patients, Air Methods has focused on reaching in-network agreements with insurance companies throughout the country. The company has also created a patient advocacy program that assists patients and works with their insurance companies.

In Arizona, commercial in-network agreements include Blue Cross Blue Shield, Centurion LLC, Global Excel Management (Travel Ins), Humana, Plotkin Health, Summit Healthcare Regional Medical Center, Three Rivers Provider Network (TRPN) and United Mine Workers

of America (UMWA).

Medicaid patients have a zero balance for all air medical transports, and Medicare beneficiaries are already covered for the services without a membership. After a transport, the Air Methods patient advocacy team works with all Medicare beneficiaries to ensure their co-pays and deductibles are affordable.

The combination of these efforts has resulted in an average out-of-pocket cost of just \$45 for Air Methods' patients in Coconino County, Arizona, including copays and deductibles. Air Methods adheres to a patient-centric philosophy and has made significant investments to maintain that standard.
