Coconino County Moves Back to Stage 2 Fire Restrictions

FLAGSTAFF, Ariz. — As of 6:00 a.m., July 6, Coconino County has moved back to Stage 2 Fire Restrictions in coordination with the Coconino and Kaibab National Forests.

This decision was made due to the cooler temperatures and recent rainfall which has reduced the risk of wildfire.

Even with the rain and lower temperatures, Coconino County remains in a drought and therefore fire danger remains. The following restrictions apply on County public lands, as well as private lands in the unincorporated areas of the County:

1. Campfires and open fires
2. Fireworks
3. Activities likely to result in combustion outdoors, such as using charcoal grills, fire rings, pellet smokers, tracer rounds, incendiary rounds/targets, welding, and smoking (except within an enclosed vehicle).

The use of propane grills and heaters is permitted in Stage 2 Fire Restrictions.

The Apache-Sitgreaves National Forests has rescinded the full forest closure, effective at 8:00AM, July 7th

Stage II Fire Restrictions will remain in place. Under Stage II restrictions, fires (including charcoal and briquettes) are prohibited on all National Forest lands. Smoking is also prohibited forest-wide except within an enclosed vehicle or building, a developed recreation site, or while stopped in an area at least 3 feet in diameter that is barren or cleared of any flammable material.

Stoves or grills that are solely fueled by pressurized liquid petroleum or pressurized liquid petroleum gas (LPG) fuels are allowable. Generators with approved spark arresting devices are also permitted in areas that are barren or cleared of any flammable material at least 3 feet around the generator.
