Lady Musance

Communal Play Space | Design Concept

A concept named, Lady Musance (a fusion of Music + Dance), serves as a majestic art installation that would stand out as a masterpiece on any piece of land. The lady resembles a guitar, incorporating controls in her mind to evoke a sense of peacefulness. The concept envisions a space that encourages the formation of community heritage, facilitating interactions and hosting small scale singing, dancing and jamming-akin to casual performances in the seating area provided, alongside a playful environment for kids.

Halves Seating

The innovative seating concept creates a communal hub for relaxation, music and dance, fostering social gatherings. Its dual functionality includes a sloped design for comfortable ground level chilling and an Arc shaped formation, providing a playful space for kids.

Sonic Climbers

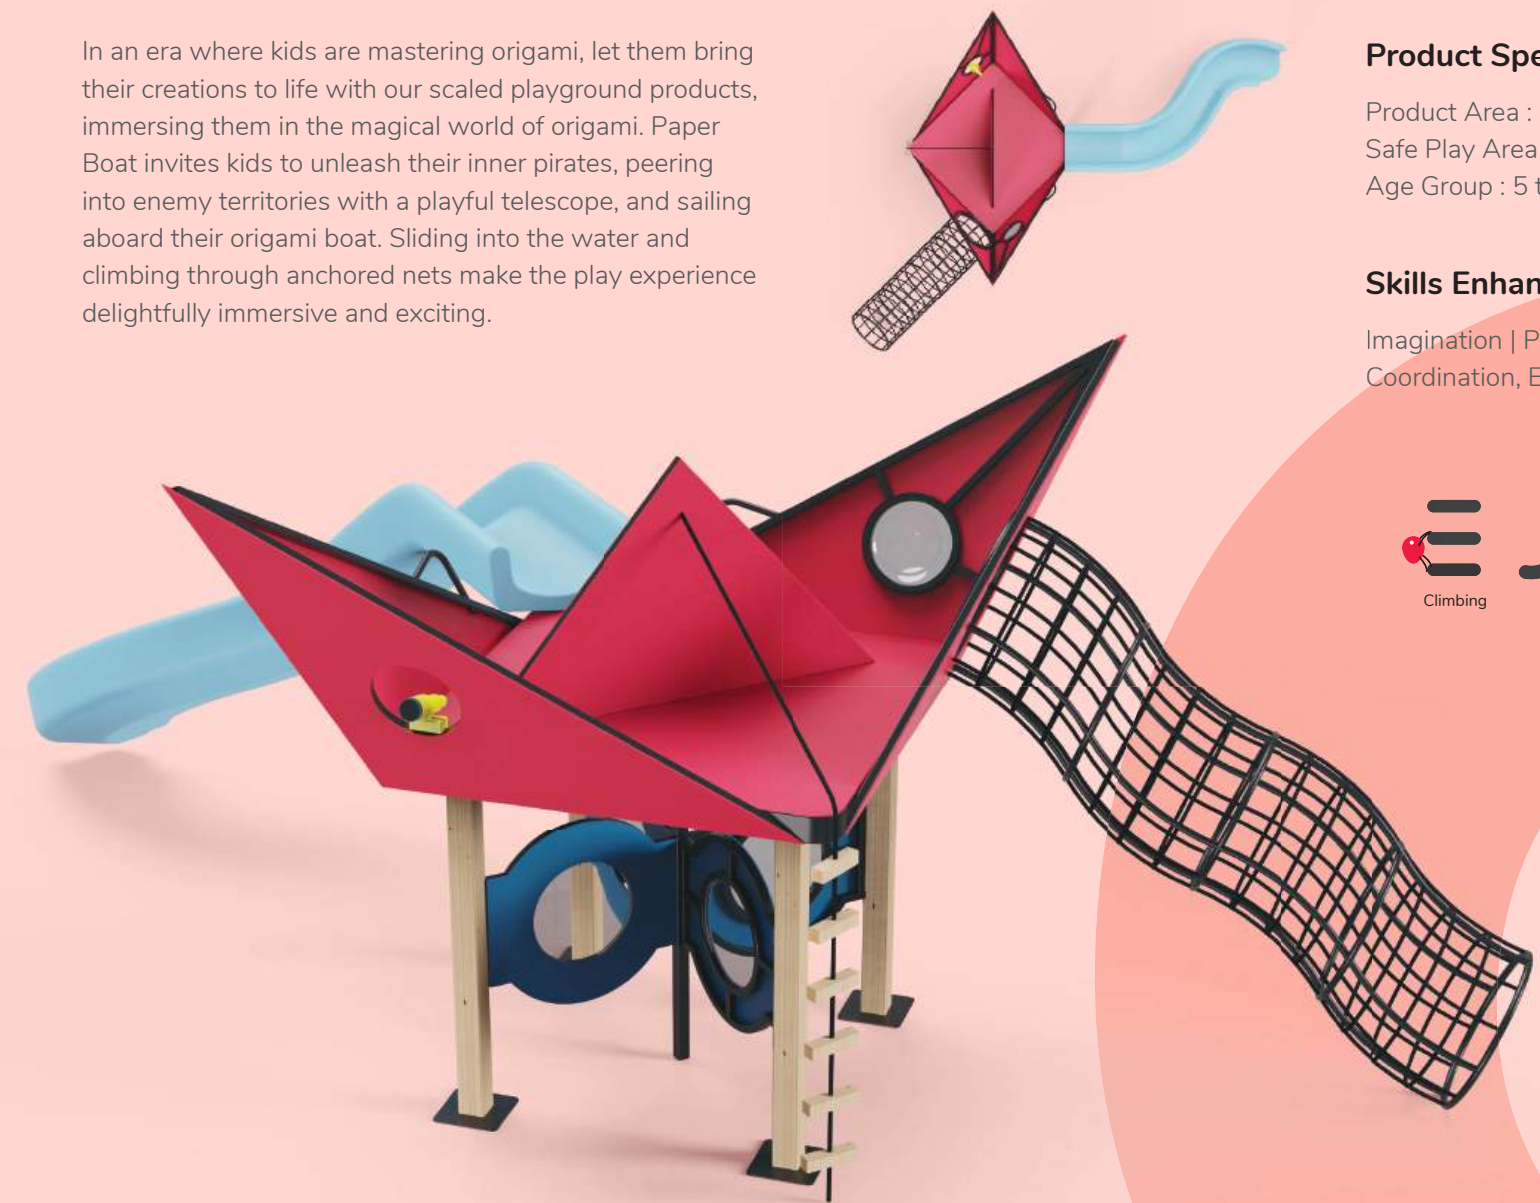

These music notes shaped supporting equipment combine rock climbing and gliding activities. Another unique piece "The harp" allows kids to sit, stand, balance and bounce on string adding an element of fun and relaxation.

Kagazi

// Play into the world of Origami

Paper Boat

In an era where kids are mastering origami, let them bring their creations to life with our scaled playground products, immersing them in the magical world of origami. Paper Boat invites kids to unleash their inner pirates, peering into enemy territories with a playful telescope, and sailing aboard their origami boat. Sliding into the water and climbing through anchored nets make the play experience delightfully immersive and exciting.

Product Specification

Product Area : 16'10" x 15'1"
Safe Play Area : 22'4" x 19'7"
Age Group : 5 to 12 years

Ground Hogs

A vibrant and interactive public seating space crafted with keeping guardians and kids both in mind! Here, parents can unwind and relax while their little ones explore and play within a safe distance. Imaginatively designed as cozy ground hog dens, children can peek out into the outside world through window holes and even journey beneath the ground for exciting adventures. This unique setup sparks curiosity, fosters exploration, and adds an element of whimsical fun as kids exchange playful interactions.

Ground hogs not only encourages children to engage with their surroundings but also promotes meaningful interaction with their parents and other adults present. It's the perfect blend of relaxation and entertainment, creating moments of joy and connection for families to cherish. Join us at Ground Hog Den, where every visit promises delightful discoveries and shared experiences!

City Strange

Communal Play Structure | Design Concept

City Strange, a multi-level play equipment extravaganza that transforms ordinary playtime into an urban adventure! As the name suggests, City Strange is a bustling metropolis of play, brimming with a myriad of activities designed to inspire young imaginations and encourage exploration.

This whimsical play city invites children to embark on thrilling journeys through its winding streets and towering structures, discovering new surprises at every turn. From climbing walls to slides, each element is thoughtfully crafted to offer endless opportunities for fun and adventure.

At the heart of City Strange lies a unique combination of characters and features that will leave everyone marveling at the city's delightful strangeness. With varying elevations adding an extra dimension of excitement, children will delight in navigating their way through this captivating urban landscape.

Join us in City Strange, where every corner holds a new discovery and every adventure is sure to ignite the imagination. Let's explore the wonders of the city together!

Organic Play Series

Ghogalo

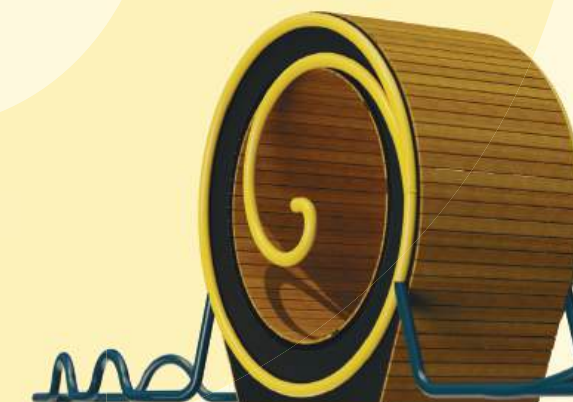

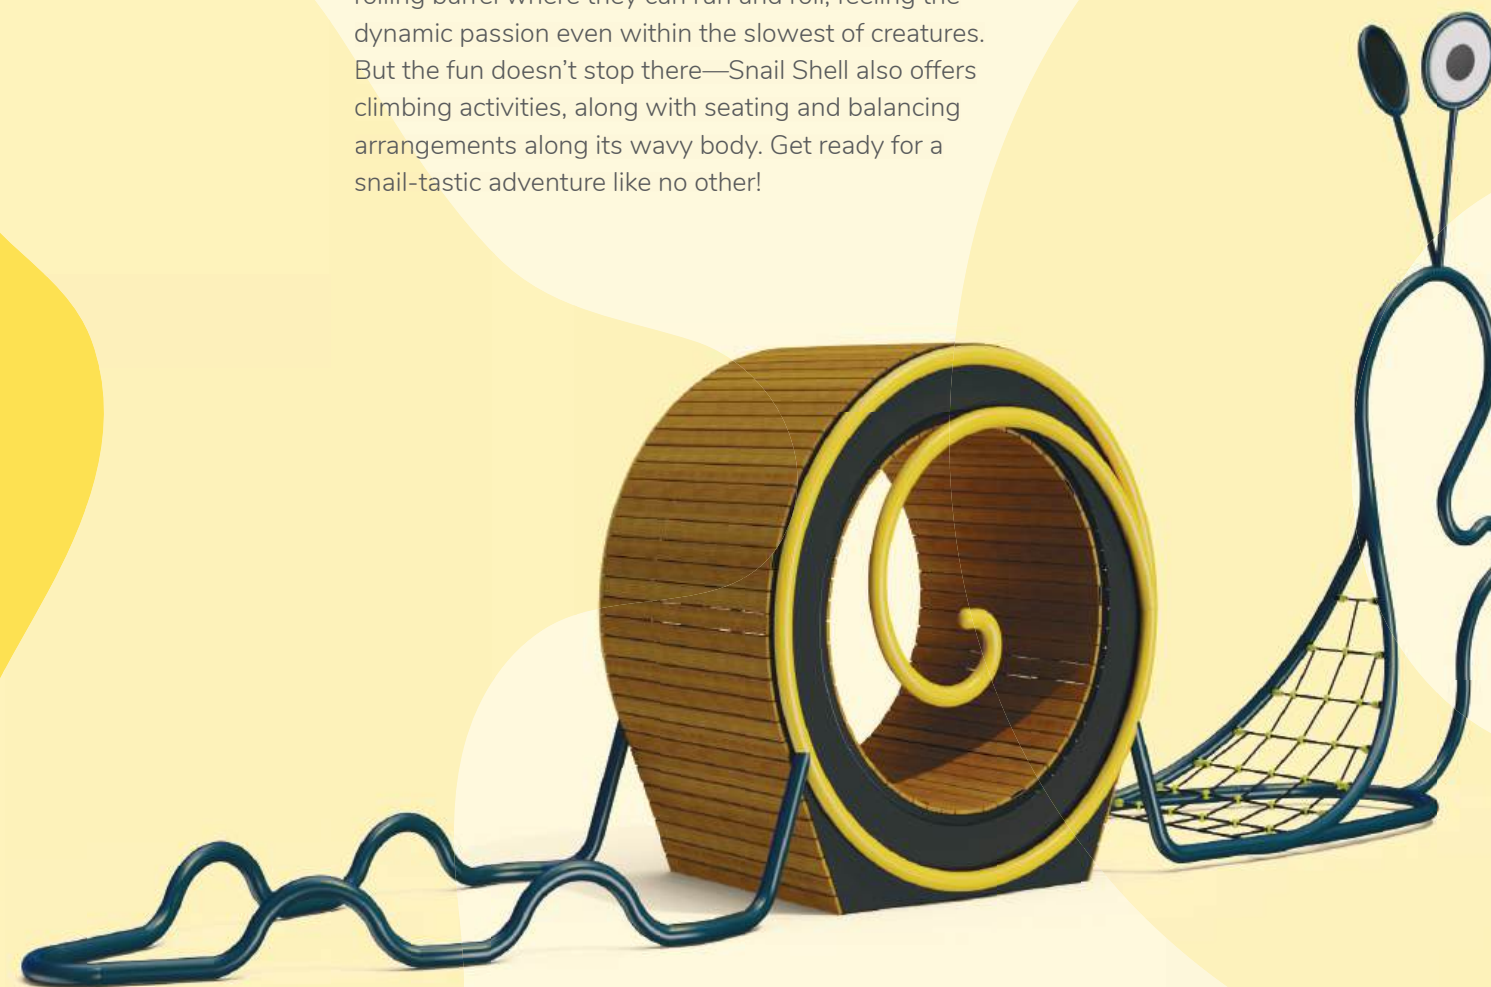

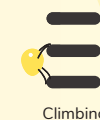

With its quirky expression and captivating design, this snail grabs everyone's attention right away. Inside, kids will discover a world of excitement, including a rolling barrel where they can run and roll, feeling the dynamic passion even within the slowest of creatures. But the fun doesn't stop there—Snail Shell also offers climbing activities, along with seating and balancing arrangements along its wavy body. Get ready for a snail-tastic adventure like no other!

Defying Ages...

Junk Park

Theme Play Area | Design Concept

A revolutionary concept designed to raise kids' awareness about the detrimental effects of junk food on their health. Our innovative park transforms traditional junk food items like ice cream, fries, and Coke into playful forms, educating children about the importance of making healthy choices.

Instead of consuming these treats, children can engage with them in a whole new way, exploring their textures, shapes, and characteristics. Step into a world where learning meets fun, and join us in reshaping the narrative around junk food. At Junk Park, health-conscious playtime has never been more exciting!

Wall Play

Udanchu

Imagine a giant, scaled-up fly where you can get up close and personal with the patterns on its wings and climb over them. This equipment isn't just informative and educational—it also lets kids experience what it might be like to fly. The colorful fly sends a powerful message: to notice, observe, and love insects, inspiring today's generation to find beauty in everything. Get ready to soar into adventure with Udanchu!
