## MISSION

To provide sustainable solutions for better performance, matching your grit while keeping you safe. An endless pursuit of innovation.

## VISION

To equip you with more confidence. Holistic development of all. An SA 8000 audited company.

## BRAND

Fifth generation family run business supported by a great team of Craftsmen, Distributors & our valued Customers.

## PREAMBLE

### OBSTACLES. LIMITS. FAILURES.

They make us uncertain of our abilities.

They underestimate our true potential.

They want a fatal defeat for us.

Only such resistance would compel the fire of desire to rise again in our soul like forgotten wings stimulated.

So WE TRAIN, WE SWEAT, WE BLEED.

We never fear of getting shattered, we do fail sometimes.

Then we manage to drag our rug from under the tons of mass

and so we finally transcend to be

## THE UNBEATABLE

### Shell Materials:

#### Ultimate shell material:

Leather is the strongest, most durable shell material.

#### Economy shell:

The looks of leather & durable next to leather.

#### Hybrid shell:

Scientific placement of materials after studying the stress zones. Enables us to give a superior product yet value for money.

#### Superior hold:

A combination of textured surface & engineered materials secures the hold & strengthens the grip.

#### Flexibility:

Mostly used for protective equipment. Thick technical textile fabrics infused with rubber yarn or rubber foam, promotes snug fit with flexibility. Also gives a degree of protection.

### Padding / Foams

#### Moulded foam:

The most modern padding system. Anatomic shapes have been developed and continually improved. The best and most durable protection.

#### Scientific protection:

Gel has proven to be the best absorber of shock on impact. An ultimate protection and cushioning source for key parts of our body.

#### Next generation protection:

Everything a fighter could dream of for protection. Fabric shell covered thermofoam. An ideal layer of lightweight yet strong durable protection.

#### Optimal wrist protection:

Stable wrist improves comfort and reduces the risk of injury, even in those long strenuous training sessions.

#### Extra layered impact protection technology:

It consists of different layers of foam combined to create a shock absorbing composite. Each layer has a specific purpose complementing the other to provide maximum shock absorption.

#### Superaircell layer technology:

This is a lightweight padding constructed with a combination of foams.

A soft compound which has some properties of rubber yet lightweight and resilient, textured surface for grip.

#### A select padding structure:

This is our best engineered padding structure for the Elite Professionals. Handcrafted in detail combining different foams.

#### XPE foam:

High density expandable foam. Highly durable and resilient even after rigorous use.

#### Air foam:

Open cell foam, soft grade yet dense, gives a dampening effect on high drops

### Linings/Inserts:

#### Superior moisture management:

Wick dry fabric helps in a sweat free workout. Letting you focus on your performance.

#### Ventilation system:

Our air mesh fabrics and perforations help in cool body temperature. Breathability is the key.

### Technical Features

#### Mental/physical safety:

Customer safety is paramount, this is achieved through a combination of superior design, engineered materials & latest production methods.

Products with this feature are anatomical shaped to give support while you perform various exercises & lifts.

#### Safety + stability = control:

The combination of safety & stability features puts you in full control of your movements.

#### Optimal temperature:

The warmth is generated due to thickness or the brushing on the inner layer. Helps maintain ideal body temperature for optimal performance.

#### Rehabilitation:

Products help with recovery from injury & post operation rehabilitation.

#### Super finish:

Softness leads to comfort. Specific density foams, speciality yarns & washes ensure softness in end product.

### Technical Apparel:

#### Engineered textiles:

Special count yarns of polyester blended cotton have been developed to add strength to the fabric. It maintains fabric structure, finish & reduces shrinkage.

#### Your second skin:

A technical layer which becomes a part of your body. Adds strength to your muscles while keeping you dry. The snug fit wrap promotes blood flow which decreases lactic acid. Enables reduction of muscle fatigue.

#### A performance fabric:

It has the properties of a mesh without being see through at all. Soft wick dry finish.

#### Elasticity:

Elastane yarn is used in the fabrics, predominant for performance/ training apparel. Adds comfort & improves fit.

### Hardware

#### Anti rust coating: Heat treated paint

Powder coated metal products baked at a set temperature for a long life & smooth finish. This paint is tough to stand against rusting for a long time.

#### Ceramic coating:

A thin ceramic layer is formed on the metal surface which improves the life of the product. Ceramic coating also improves corrosion resistance & improves hardness.

#### J Fit:

A 3 way hold system which secures the accessory in its place without any nuts & bolts. This design enables quick change & height adjustment.

#### Engineered product:

Complex hardware products made with specialized alloys using high precision manufacturing & finishing process. Built to perform at the highest level of your sport.

USI Universal's DNA embodies all aspect of our brand's mission, vision & preamble. Our Customers know that anything produced by USI Universal has embedded quality and functionality that they can trust to perform, complimenting their DNA in order to achieve the most difficult goals. We always remain open to new ideas & concepts to design products accordingly.

## PERFORMANCE D.N.A.

### Installation Features

#### UFEELease

#### Userfriendly :

Products have been designed for easy installation & removal.

#### Professional installation :

For products which require certain technical knowledge, experience, skills for installation. Installation charges might be inclusive in MRP or extra, depending on product & location of installation.

#### Do it yourself - Installation :

USI Universal believes in making things simple for our customers. Many of our products which require assembly come with easy to understand installation manuals & videos.

### Quality Measures:

#### X-Ray :

USI Universal has set standards in the combative sports products industry by introducing X-Ray scanning for our Punch bag lines. This is a stringent quality control measure for prevention of sharp objects.

#### Eco friendly :

An environment friendly endeavour where we have used recycled materials as a strategic part of our products.

### Foam Hardness

USI Universal's hardness rating system is based upon a foam's resistance to pressure. Customers can choose depending on the intensity or comfort required. Different levels available for beginners to experts.

#### Soft hardness :

The best possible value for your money.

#### Medium soft hardness :

The best possible value for your money.

#### Firm hardness :

The best possible value for your money.

#### Hard hardness :

The best possible value for your money.

### Our Brands

(Registered trademarks of Universal Legguard Works)

**Safety Warning:** All Products must be used under expert supervision. Do not use in case of any injuries.

\*The specifications of our products are subject to change without prior notice because of our continuous efforts to improve the quality.

\*\* Some specific items in this catalogue may not be available in a country due to our prior business commitments.

### Proven Features

#### Jig Saw fit:

Interlocking system which is very easy to install. It holds its place very well. No need of pasting to the floor.

#### Grid stitching :

Sewing lines form a grid structure enabling the users to gauge the correct distance for placing feet and hands in correct posture.

#### Limited edition :

This range would consist of products introduced on popular demand. Limited edition products will have special attributes like design concept, colours etc.

#### Custommade:

If time is on your side, we will customise select products at an extra cost. From Martial Arts Belts, Pro Boxing Shorts, Gowns, Flooring, Cross train metal structure, Outdoor gyms, Boxing rings to MMA cages, wall structures, etc.

#### Reversible:

USI Universal being a value for money brand, we have developed many products where customer gets the value of two products by spending for one.

#### While stocks last :

End of line products where we have introduced better products in comparison.

#### Super value :

The best possible value for your money.

### Customer Friendly Level Meters

Help you to understand & choose products depending on your requirement.

#### Top grade :

Best for high level performance for Elite athletes & those who want an edge above others.

#### Hybrid :

Innovative products with regards to materials & design.

#### Superior :

Suitable for Root/Pivot Training.

#### Standard :

Useful for Entry Level/Beginners.

### 6261S SINGLE STATION

#### TECH-SPEC.

- Portable heavy duty metal tube structure
- Ideal for hanging bag up to 20-25kg/3' long
- Need to put weight plates on vertical rods to make the stand stable

Code	Size: (in meters)	MRP
6261S	L: 1.1, W: 1.2, H: 2.3 (43"x48"x90")	12999/-

\* per set

## PUNCH BAG HANGER

Over a period of time, we see that the top portion of the punch bag sags inwards because of gravitational pull. The bottom of the punch bag also forms a dome shape due to the gravitational pull. This increases the constant stress on the seams of the punch bag. This also gives a very bad look to the bag. USI Universal's punch bag hanger keeps the handles straight. It helps to maintain the bag shape over the lifetime of the bag. This helps improve the overall life of the product.

#### TECH-SPEC.

- Heavy duty metal construction
- Mig welded
- Anti rust powder coated
- Ideal for bags with 4 hanging handles

Code	MRP
PBH	2999/-

\* per pc

### 790TT TUMMY TRIMMER BELT

USI Universal's tummy trimmer belt is a unisex product ideal for fitness enthusiasts & those with post operative medical need. It is made of a soft & flexible neoprene material which is washable. It helps reduce & shape the waistline. Body builders can use this product to flatten the abdomen & control the gut size. Our tummy trimmer can help define the curves. The thermogenic effect due to sweat helps to accelerate the metabolism. This belt helps to improve your posture & supports the lower back. USI Universal's tummy trimmer helps in compressing the abdominal muscles in post operative cases like pregnancy & hernia.

### 790TTN SUPER SWEAT TUMMY TRIMMER BELT

USI Universal's Super Sweat belt will become your best training aid if you are looking to improve your waistline. The magic is in the neoprene material used for this product, makes it much superior to our regular tummy trimmer. The neoprene is thicker and softer which forbids it from folding. USI Universal's super sweat belt has a massive size adjustment because of the plush outer surface, it is used for sticking on to the hook tab closure. The textured inner surface which touches the skin gives a very firm grip. It helps produce more sweat during workout. USI Universal's belt helps maintain a good hygiene by enabling you to wash your belt with a mild detergent(hand wash with cold water).

#### TECH -SPEC.

uFEELflex uFEELgrip uFEELwarm+

- Thick Neoprene construction with zig zag stitching
- Large tab hook closure which sticks with the plush surface of the belt
- Textured ufeelgrip inner surface for firm grip around the tummy
- Available in different lengths and widths as per user requirement
- Superior thermogenic activity due to excessive sweat during workout
- Reduces waistline & improves posture

## FORCE TPU DUMBBELLS

USI Universal's force TPU dumbbells are the most innovative product on the market. Our poly urethane dumbbells are a mark above the rubber dumbbells because of their excellent tear resistance, hardness, no odor & bright colours. USI Universal's polyurethane dumbbells have a much longer life than rubber dumbbells as they stand better against sunlight & outdoor environment.

### PUDB FORCE TPU DUMBBELL

#### TECH-SPEC.

- PU & alloy steel construction
- Extra fine knurled grip
- Weight tolerance 1-2%

Code	Color	Weight	MRP

## RUBBER OLYMPIC WEIGHT PLATES

USI Universal currently offers 2 styles in rubber weight plates. Both our plates come with a thick rubber coating which absorbs impact while protecting the floor & equipment. The stainless steel bush hole is able to withstand the heavy drops. It protects the plates & barbell from damage. The design of the plates make them very easy to handle & enable quick change in between sets. Ideal product for commercial & home use.

### RWP1 CROSS GRIP OLYMPIC WEIGHT PLATE RUBBER

Rubber coated olympic plates with steel insert, very attractive honey comb design. Grip hold design for easy handle & quick change between sets. Color coded for easy identification.

#### TECH-SPEC.

Hole size: 51mm/2"

## TPU OLYMPIC WEIGHT PLATES

USI Universal's TPU plates come with a thick coating of PU over a steel insert. Our TPU plates are impact resistant to the floor & non abrasive to the surrounding equipment. USI Universal's heavy duty PU coating does not crack peel or rust. Neither does it turn white like rubber upon reaction with the environment. Our TPU plates are the most noise & vibration free product on the market. The quad grip designs makes them very easy to use & enables quick change in between sets. The stainless steel bush hole in the middle adds to the life of this product. Our colour coded plates are easy to identify. Ideal product for commercial & home use.

### TWP Quad Grip Olympic Weight Plate TPU

Rubber coated olympic plates with steel insert, very attractive honey comb design. Grip hold design for easy handle & quick change between sets. Color coded for easy identification.

#### TECH-SPEC.

- Steel & TPU construction
- Steel bush olympic hole (51mm/2")

## BUMPER PLATES (WITHOUT HUB)

USI Universal's bumper plates are a solid piece of equipment. Smooth finish and attractive colours of these bumpers will add to the beauty of your gym, box, garage gym or home gym. The tapered edge design helps avoid chipping with constant use. It also helps in holding the bumpers for exercises other than loading on to the barbells. The stainless steel collar insert is much more durable than the regular aluminium inserts. Moreover, it is bonded with the rubber plate. This increases the life of the plate tremendously. Our bumper plates have a medium bounce. The low impact rubber coating also makes them less noisy compared to other olympic plates. Our bumper plates are colour coded as per weight for easy identification.

### BP BUMPER PLATES (WITHOUT HUB)

#### TECH-SPEC.

- Virgin rubber construction
- Stainless steel collar insert (51mm/2")
- Thick plates with medium bounce
- As per IWF specification
- Ideal for cross training, racks, plate loaded machines
- Coloured plates for easy identification
- Durometer rating : 85-93SHA
- Drop test: 2m x 5000 repetitions
- Diameter: 450mm
- Weight tolerance: 1-2 %

Set Rate: 60139/-

Code	Color	Weight	MRP

## SUPER CURL BAR

USI Universal's super curl bar has that extra angle which is more comfortable. It gives you a parallel/neutral grip. Ideal for performing hammer curls, etc.

### SCB SUPER CURL/TRICEP BAR

#### TECH-SPEC.

- Alloy steel construction
- Brass bushing
- Fine knurling
- Bright zinc coating
- Accommodates 50mm/2" olympic hole plates
- Weight capacity: 150kg/330 Lbs

Code	Length	Weight	Capacity	MRP
SCB	122cm/4'	10.5 Kg	150 Kg (330 Lbs)	10,499/-

\* per pc

USI Universal's multi grip bar is a rugged piece of equipment. The vertical neutral grips allow users to switch between close to wide grip depending on the muscles being worked on. The bar can be used both ways to reverse the angled grips. USI Universal's bar is very well balanced. It reduces the stress on wrist & shoulders during bench press. A thick powder coat finish makes it corrosion resistant & easy to clean. You can use it for arm curls & seated rows.

### MGBR KNURLED MULTIGRIP BARBELL / SWISSBAR

#### TECH-SPEC.

- Alloy steel
- Sharp knurling
- Anti rust powder coated
- Accommodates 50mm/2" olympic hole plates

## DEAD LIFT PLATFORM

USI Universal's dead lift platform has been developed to make your lifting environment safer. Our lifting platform will absorb the force when you drop or lower the weight. Hence, preventing the damage to the floor, the barbells & the plates. Wood surface under the feet gives a firm & levelled standing area. The rubber on the sides absorbs the weight drops. The metal frame keeps all elements intact. Ideal for commercial & home use.

### DEAD LIFT PLATFORM

#### TECH-SPEC.

- Metal, rubber and wood construction
- 40mm thickness
- Pegs for tying latex loop bands
- 'S' holders for bolting to ground
- Anti rust powder coated
- Dimensions: 122cm x 244cm (4'x8') apx.

### DEADLIFT PLATFORM SET INCLUDES:

Code	Weight	MRP
DLP	Deadlift platform metal frame	13499/-
DLPR	Wood plank for Deadlift platform	17999/-
WT20	Rubber tiles for sides 13 pcs@860	11180/-

## SQUAT / YOKE STAND

### SQR SQUAT STAND

Ideal for home and commercial use. A sturdy structure for your flat, incline shoulder bench press, squats, curls, rows, etc.

- 3mm (11 gauge construction)
- Precision holes for stand and bench adjustment
- 72 x 72 mm (3") uprights
- Dimensions 120x125x180cm (48x49x72")
- Comes flat packed
- 10 sets 14mm precision nuts, bolts and washers
- 25mm spacing for bench and 50mm for standard squats
- Weight capacity: 450 Kg/1000 Lbs

Code	MRP
SQR	20499/-

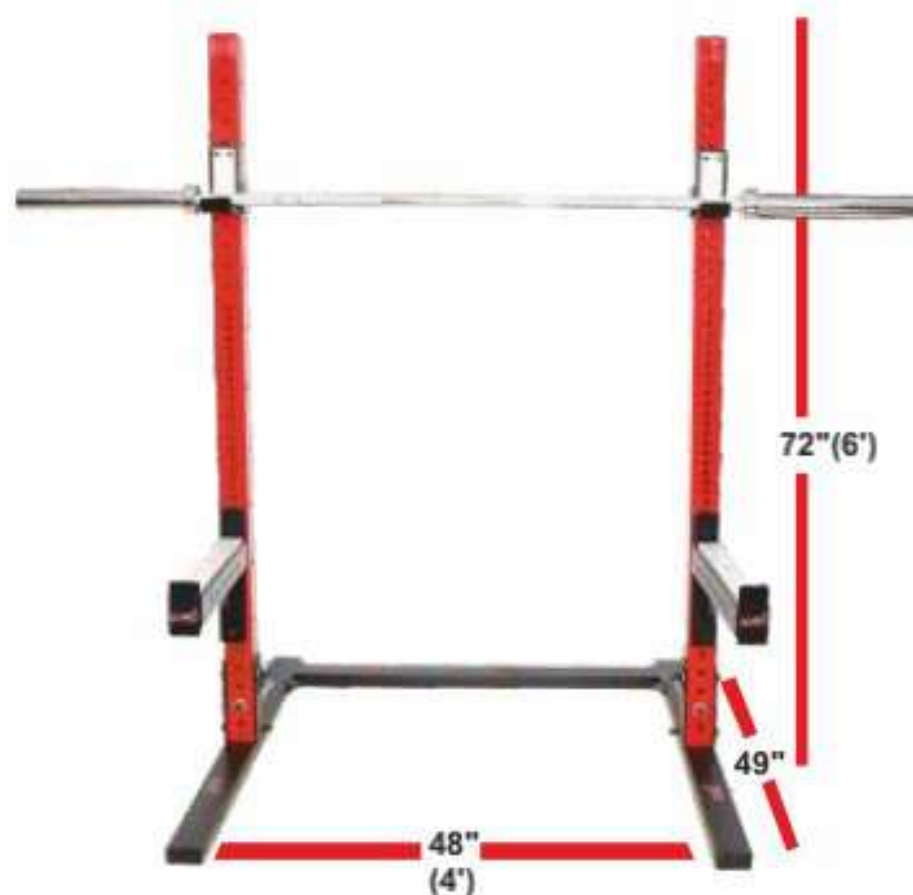

Optional equipments (not included in MRP):

RSA Safety Spotter arms

JCP J cups

Choice of barbell :

OB750, OB500, OB350

### YK YOKE STAND

Ideal for yoke carry can be converted for squats, incline shoulder, bench press & dead lift.

- Heavy gauge metal construction
- Adjustable crossbar as per required height
- Precision holes for squat & bench adjustment
- 14 sets 14mm precision nuts, bolts and washers
- 72 x 72 mm (3") uprights
- Dimensions: 122x127x182cm (48"x50"x72")
- Comes flat packed
- Anti rust powder coated
- Weight capacity as yoke carry: 225 kg/500lbs
- Weight capacity as squat stand: 450 kg/1000lbs

Code	MRP
YK	25999/-

Optional equipments (not included in MRP):

JCP J cup x 1, RBP Bumper plate Pin x 2

Ideal for home and commercial use.

Additional weight capacity: 100 Kg/220Kg

## SQUAT STAND

### ISQ SQUAT STAD

The individual squat pillars are easy to move around & set up. They take much less space in storage. Ideal for commercial & home use.

- 3mm (11 gauge) construction
- 72 x 72 mm (3") uprights
- 14 sets precision nuts, bolts & washers
- Comes flat packed
- 25mm spacing for bench & 50mm for standard squats
- Anti rust powder coated
- Weight Capacity: 320Kg/700Lbs

Code	MRP
ISQ	22999/-

Optional equipments (not included in MRP):

JCP J cups , Bumper Plates

Choice of barbell :

OB750, OB500, OB350

Ideal for home and commercial use. A sturdy structure for your flat, incline shoulder bench press, squats, curls, rows etc.

### SQB SQUAT STAND

(With Monkey Bar, SNB)

Ideal for pull ups, squats, bench , floor press etc.

- 3mm (11 gauge) construction
- 72 x 72 mm (3") uprights
- 14 sets precision nuts, bolts & washers
- Comes flat packed
- 25mm spacing for bench & 50mm for standard squats
- Anti rust powder coated
- Weight Capacity: 320Kg/700Lbs
- Monkey bar weight capacity: 135Kg/300Lbs
- Squat Stand weight capacity: 450Kg/1000Lbs

Code	MRP
SQB	25999/-

Optional equipments (not included in MRP):

JCP, BUMPER PLATES

Choice of barbell :

OB750, OB500, OB350

Ideal for home and commercial use.

## POWER RACK

## WHEEL SLED

When you think of wheel sled you think of a muscular man sweating it out in the gym. But wait, here's some good news! Anyone and everyone can use USI Universal's wheel Sled, be it a beginner or pro, and reap its benefits. Pushing and pulling sled develops glutes, calves, hamstrings, quads and the core. Sleds are versatile, but they are a great training tool, especially for runners, sprinters, or any athlete looking to improve their leg power.

### WS WHEEL SLED

#### TECH-SPEC

- Heavy gauge metal construction
- Solid rubber tyres
- Black powder coated
- Adjustable resistance
- Weight capacity: 120 Kg/260Lbs

TANK dimensions apx: L: 125cm (49") x W: 81cm (32") x H: 95cm (37.3") Weight 75 Kg/165 Lbs

Basket dimensions apx: L: 109cm (43") x W: 55.5cm (22") x H: 30.5cm (12") Weight 12.5 Kg/27 Lbs

**Braking system:** Frictionless and adjustable magnetic braking system increases resistance with speed giving you a good workout.

**Bi-Directional Power:** With two weight posts for plates, the USI Universal's wheel sled uses resistance to enhance functional training.

**Workout zones:** There are three workout zones and each power curve position is just the starting point. The level of intensity of workout goes up with the speed with which the sled is either pushed or pulled.

a. The lowest zone is for speed power through length of your stride and endurance.

b. The middle zone helps build acceleration power by increasing launching power and frequency of the stride.

c. In the top zone, the lower body is challenged to its maximum and it builds explosive power and quickness in the body of the athlete.

**Indoors and outdoors:** The durable solid rubber wheels of the sled can move easily on hardwood floors or carpeted area and as easily on the rugged outdoor surfaces like grass, turf, concrete or other hard pavement.

Adjustable resistance

## FLOORINGS (MULTIPURPOSE)

**The Evolution:** As we test the limits of our body by constantly evolving in our sport, we expose ourselves to the inherent risks in going to the threshold. Our constant efforts to improve the safety standards in combat sports & fitness led to the development of our commercial and home flooring range. Flooring takes the most constant beating every day, protecting the equipment and the users who feel secure in using our tried and tested products.

From yoga mats to interlocking mats for taekwondo, karate, judo, brazilian jiu-jitsu, kravmaga, police training, kids activity areas, rubber floor solutions for the weight rooms, functional training zones & cross training boxes. Our mats range is used for multiple purposes where safety cushion is required in order to prevent injuries.

Our floorings also add aesthetically to the whole ambience, giving greater value for money.

### EM12C EVA FLOOR MAT

Light weight floor padding, which is easy to move around. Keep it around your bench areas & cardio zone. For those short outdoor training sessions on the terrace or home gym.

## APPAREL MENS PHYSIQUE BOARD SHORTS

This product is a result of US! Universal's efforts to offer professional clothing for fitness competitions. Unlike any baggy beach wear surf/board shorts, US! Universal's shorts have a tailored fit for aesthetic athletes who have a thin waistline and muscular thighs. We have used a lightweight stretch fabric which gives a snug & comfortable fit. US! Universal's selection of vibrant colours and cuts will always keep you in fashion. Overall, a great piece of apparel to further boost your confidence on stage.
