

Case Painting will beautify your home's exterior with Professional Aluminum Siding Refinishing.

Refinishing Your Aluminum Siding Can Save You Thousands Compared to the Cost of Replacing It!

Aluminum Siding is a very high quality and protective product, but as it ages, the factory finish often begins to fade, and the siding loses its appeal. The appearance of your siding plays an important role in your home's overall look and value! refinishing your aluminum siding with fresh paint or a new color will beautify and add value to your home! We specialize in professional aluminum siding refinishing, and our skilled painters can make your home look new again!

Our Refinishing Process

We take pride in our comprehensive cleaning before re-painting which include pressure washing to remove built up dirt and chalky paint. After the house is dry, we apply two full coats of premium Sherwin Williams paint made for aluminum siding. This acrylic paint is professionally sprayed to provide a smooth durable finish and will beautify and protect your home for years to come.
