

## ALLIANCE TO PRESERVE THE FINGER LAKES

The purpose of this petition is to get people to reconsider their decision to have wind turbines on their property.

While we respect individual property rights, the size and scope of this project will affect us all.

### About Alliance to Preserve the Finger Lakes

The Alliance to Preserve the Finger Lakes (APFL) is a citizen-based organization dedicated to safeguarding our landscapes, communities, and wildlife from the potential hazards of wind turbine, solar, and other industrial energy projects and the irresponsible development of our communities that may be contrary to towns' comprehensive plans based on citizen's input.

Through education, community engagement, and policy advocacy, we strive to ensure that energy and land development respects the stability of the environment and the local economy and the wishes of the community, that it preserves the natural beauty and ecological integrity of our surroundings and promotes the rights and health of those who live and work in these areas.

### Why Now?

The Alliance to Preserve the Finger Lakes (APFL) exists to advocate for the protection and conservation of the rich natural and cultural resources of the historic Finger Lakes region. We are a citizen-based, 501(c)4 not for-profit organization founded in 2024.

APFL is concerned about the potential adverse impacts of the proposed Agricola Wind project on both local and regional residents. APFL is concerned about turbine noise, environmental impacts such as storm water runoff, and the anticipated major impact on both the local and regional Finger Lakes viewshed.

One way you can join us in our mission is by signing our petition:
