FEE PROPOSAL # [REDACTED]
DATE 11/27/2024

DATE	ACTIVITY	AMOUNT
	Engineering	5,000.00
	[REDACTED] - HVAC Evaluation: Mechanical Site Investigation and Recommendations Report, 1 @ \$5,000.00	

Project Description:	TOTAL	\$5,000.00
----------------------	-------	------------

This project consists of the heating, ventilation and air conditioning evaluation for [REDACTED] in Anchorage, AK.

A site visit will be conducted to ascertain existing conditions of the HVAC system, followed by a mechanical engineering recommendations report based on the findings. This recommendations report will include a concept sketch and/or narrative for any new equipment layouts and sizing. Further design and permit documents will be additional services.

- Two options will be presented:
- 1) Direct-replacement with a AHU or RTU and/or refurbishment of the existing unit.
 - 2) Abandonment of the existing system and replacement of multiple, self-contained furnaces complete with outside ventilation air and DX cooling.

Coordination with building maintenance and mechanical contractors will be conducted for prioritization and requirements of the new systems.
