

Advanced Security Services

Get it all with the Total Security Suite

The Total Security Suite includes all services offered with the Basic Security Suite plus AI-powered malware protection, enhanced network visibility, endpoint protection, Cloud sandboxing, DNS filtering, and the ability to take action against threats right from WatchGuard Cloud, our network visibility platform.

250 Network Attacks

1,300 Malicious Files

*Average number of threats blocked per Firebox in 2019

Cloud Sandboxing

Detect and stop the most sophisticated attacks including ransomware, zero day threats, and other advanced malware designed to evade traditional network security defenses, with APT Blocker.

AI-Powered Anti-Malware

Automate malware discovery, and classify current and future threats in mere seconds with AI-powered IntelligentAV.

[*Learn More About IntelligentAV >*](#)

DNS Filtering

Prevent phishing and reduce malware infections by detecting and blocking malicious DNS requests, redirecting users to a safe page with information to reinforce security best practices.
