TREATMENTS

Our Quantum Magnetic Resonance Analyser is coming back for you to book in. Quantum Magnetic Resonance Analysis can give you an understanding of what is going on within your body and indicate areas where your health is not doing well.

The machine analyses the magnetic field of human cells and can be used to tell the state of health a person is in.

We also have our tarot readings which you can have either in person in our centre or if you are further away or simply cant get in then we also offer them online.

We offer online tarot readings to help make them more convenient. They take place over a video call so you can get the full experience from the comfort of your own home!
