

FABRIC PROTECTION

Fabric Protection – Convertible Top Protection & other Textile Materials

A spray-on fabric protection that coats fabric tops, carpet, upholstery, head-liners and much more delivering a invisible shield that repels water and stains while extending the life of fibres increasing durability and life expectancy. A single application last up to 24 months and keeps your vehicle protected from the elements.

HEADLIGHT RESTORATION & PROTECTION

Did you know that 99% of the time the fading and oxidation of your headlight can be repaired like new without removing any parts. The exterior of the headlight plastic fades and oxidises and in bad cases it yellows and fine cracks appear an effect known as “crazing”

Leather Protection

Sealing & water proofing

Let us apply an ultra durable stain resistant and significant abrasion resistant leather protection product. It prevents dye transfer onto pale leather, typically preventing blue jeans marking cream leather. The glaze is 100% invisible, and can be applied to leather, vinyl, and plastic. It should be applied once a year for a daily driven vehicle or every couple years for low traffic areas.

DETAILING

How Our Car Detailing Stands Out

You will find only the highest standards of car detailing services throughout Perth (and WA) here at AutoFX WA. We are deeply passionate about car detailing, combining old school workmanship with a keen attention to detail. In fact, we care for our customer service as much as we care for

GUARD ROLLING

Guard Rolling, Fender Rolling

Fitting wide, large-diameter wheels and tyres is a great way to enhance the look of your car. But it can lead to excessive tyre wear and tear without adequate tyre clearance. One simple way to create more room for the wheels and prevent tyre damage is to have the guards rolled / lipped.
