"The maturity of songwriting shown by Devon based 3 Days of Wonder is so impressive for such a young band. There's plenty of 80's/90's big rock influences at play in a sound you could easily imagine filling the air of even the biggest venues." Unsigned & Unsung, 2024.

"A fresh take on the U2 style stadium rock sound, the band have created songs that have captured the hearts of many people around the south west and have gone on to become new rising stars in the festival scene." Whisper Magazine, 2025

"Powerful, heartfelt vocals are buoyed by a barrage of guitars and punchy drums to create a sound that suggest they have raided their parents' record collections." Roland Monger, 2024

"Everything is coming up Planet 3 Days of Wonder which is a wonderful thing... You have been everywhere and seen your name pop up at different festivals." Dan Pascoe, Little Orchard Festival BBC Radio, 2024
