

Hello, my name is Matt Carter. I was hired as the Boone County Library's IT person in September of 2019. I have been working in the IT field since 1993. I have also been an Instructor in the North Arkansas College's CIT Department.

I am seeking donations for two projects that I am working on at the Library:

### **Security Camera System**

I am in the process of replacing our security camera system with a higher capacity and higher resolution system made by Ubiquiti. We have acquired E-Rate discounts from the USAC division of the FCC that allows us to replace our network infrastructure with Ubiquiti hardware. Unfortunately, E-Rate does not cover security system hardware.

We have had several incidents with patrons in the upstairs children's area, downstairs computer area, and parking lot since I started. We either had no video footage or low resolution footage to show the police.

The most recent incident, a man took our cigarette receptacle that is located at our side door. He broke it apart, threw it across the parking lot, and used the top part to break the windows of our outdoor community food pantry.

The second most recent incident, a lady shot up with drugs in the upstairs bathroom (next to the children's department) and left the syringe in the trash. She then proceeded to harass the parents, children, and employees in the children's department until the police were able to remove her from the building.

The number of book shelves that we have require a larger number of cameras to provide good coverage. I am also going to expand the system to cover the outside walkways, doors, and parking lot that are not currently covered.

The security system consists of:

- 1 – Ubiquiti Network Video Recorder: \$299.00
- 4 – Western Digital 10tb Hard Drives for the NVR: \$1013.92
- 16 – Ubiquiti G4-Bullet Cameras (outdoor): \$3149.00
- 36 – Ubiquiti G3-Dome Cameras (indoor): \$5268.00
- 5 – Ubiquiti G3-Flex Cameras (indoor): \$457.00
- 6 – Ubiquiti G3-Flex Camera Ceiling Mounts (indoor): \$100.00

The new system will cost \$10286.92 (plus taxes and shipping) (priced on 7-8-20). Following pages have detailed info.

### **UPS Battery Backups**

I would like to purchase UPS battery backups for all of our computers, both patron and employee. This will eliminate the damage caused by brownouts and power failures which shorten the life of the computer hardware.

- 55 – APC 600VA UPS Battery backups (\$62.23 each plus taxes and shipping): \$3422.65

Thank you for your consideration. Donations of any size are greatly appreciated! We will post everyone who donates on our bulletin boards, website, newsletter, newspaper article, and radio ad. My email address is [IT@boonecountylibrary.org](mailto:IT@boonecountylibrary.org)

# UniFi Protect Network Video Recorder In-Stock

SKU: UNVR

[Specifications](#) [Installation Guide](#)

Enterprise network video recorder, can provide up to 30 days of 4K video storage for 15 cameras or Full HD video storage for 50 cameras

The UniFi® NVR is an enterprise network video recorder that integrates an NVR, the UniFi Protect software, and a 4-drive bay. UNVR unifies enterprise-class data protection and scalable storage with simple Plug and Play integration using the intuitive UniFi Protect software. From a desktop computer or mobile device, you can access your surveillance recordings from virtually anywhere using the intuitive graphical user interface. The mobile app is available for iOS and Android-based devices. The drive bays are easily accessed from the front panel, so hard drive mounting and maintenance are simple. Using four 8 TB drives in a RAID 5 configuration, the UNVR can provide up to 30 days of 4k video storage for 15 cameras or Full HD video storage for 50 cameras.

## Features:

- (4) 2.5"/3.5" Drive bays
- (1) 10G SFP+ port
- (1) Gigabit RJ45 port
- 1U rackmountable (kit included)
- Plug and Play UniFi Protect system with NVR
- Automated secure RAID 1 or RAID 5 configuration
- Supports [USP-RPS](#) for PSU failover

## Works with UniFi Protect Software

- Add 50 cameras to your system to cover every angle
- Free remote access for streaming and viewing your recordings
- Your video is stored on your own secure hardware, not a cloud server

Note: stackable support for multiplying capacity is coming soon
