PerCo Inc. takes yet another new direction with Career Discovery!

Career Discovery is a person-centered assessment and planning process that determines a job seekers preference, interest, support needs/accommodations and skills resulting in a Career Discovery Profile. The person developing this profile is **Alyssa Randolph, our Career Discovery Specialist**. She will use the profile to assist in identifying a person's place on the path to employment and their desired employment outcome. The profile assists team members to develop services, supports and the action steps needed to gain community employment that is aligned with the job seeker's preferences, interests, support needs/accommodations and skills.
