

Air VAXX Tipper Tankers & Vacuum Trailers

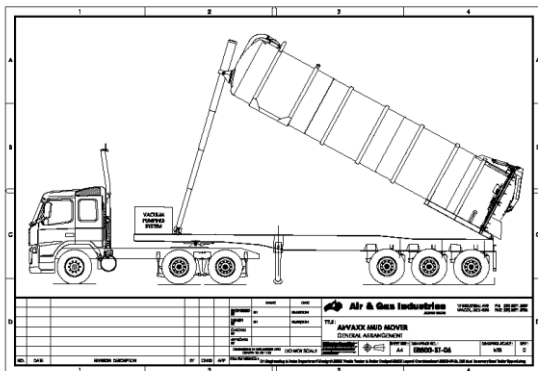

Air & Gas Industries has developed its range of vacuum tankers to include the new **Air VAXX Tipper Tankers and Vacuum Trailers**.

Air VAXX Tipper Tankers and Vacuum Trailers are designed to comply with all required ADRs and utilise spoils tanks designed and certified to AS1210, Hazard Level B. The **Air VAXX Tipper Tanker** is capable of carrying high density sludge liquid waste products that contain detectable quantities of lubricants and combustible liquids. Spoils tanks are third-party design verified and have Plant Design Registration (Approval) as required by the *Work Health and Safety Act 2011*.

- **Rugged**
- **Dependable**
- **Versatile**
- **Built to AS1210**
- **Hazard Level B, AS4343**
- **Customised Options**

The **Air VAXX Tipper Tanker**
