

OEM Truck Upgrades

Dangerous Goods Specification

Air & Gas Industries has been building dangerous goods vehicles for over 40 years.

- We specialise in OEM truck upgrades for Dangerous Goods Specification in accordance with the legislative requirements of the **Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG), 7th Edition.**
- All upgrades comply with Australian Standard AS2809.1 and applicable parts of AS2809.2, AS2809.3 and AS2809.4.
- Standard upgrades are provided for Dangerous Goods Classes 2, 3, 5.1, 6.1 and 8. Other classes of dangerous goods can be provided for on request.
- Optional Safe Load Program (SLP) authorised inspection provided on request.
