

## Air VAXX GT Series Liquid Waste Pressure & Vacuum Tankers

Air & Gas Industries has developed its range of road tankers to include the **Air VAXX GT Series Liquid Waste Pressure & Vacuum Tanker**.

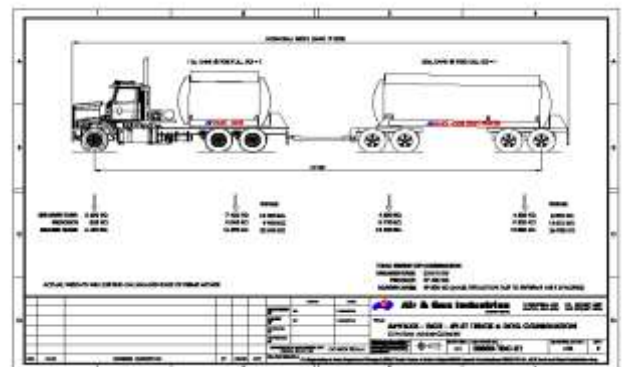

**Air VAXX GT Series Liquid Waste Pressure & Vacuum Tankers** are designed to comply with all required ADRs and utilise spoils tanks that are designed and constructed to Australian Standard, AS1210. These **Air VAXX** units are capable of carrying grease-trap, septic, sludge, oily water and other non-harmful waste liquids.

Spoils tanks are available in rugged steel construction or light-weight aluminium.

- *Rugged*
