Scoring and Interpretation

Tally your responses by letter (A, B, C, D, E). The dominant letter indicates a primary imbalance. Refer to the historical Nahualli perspective for insights, rooted in Aztec codices like the Florentine Codex (Sahagún, 1577, Book 10) and Ruiz de Alarcón's *Treatise on the Heathen Superstitions* (1629/1984, Ch. 5). For full resolution, schedule a consultation.

- **Mostly A's:** Residual Energy Echo (Ihiyotl Imprint) – A non-sentient leftover of life-force energy, like an emotional footprint on the environment. Historical resolution: Neutralisation through copal smoke and river water to dissolve the echo at its root (Florentine Codex, Book 10, Ch. 4). Next step: Contact for cleansing protocol.
- **Mostly B's:** Conscious Guardian Presence (Nahualli Double) – A shadow-self or personal spirit enforcer tied to your destiny energy (Tonalli). Historical resolution: Discernment via obsidian mirror to align or sever if intrusive (Ruiz de Alarcón, Ch. 5, p. 62). Next step: Schedule to interpret its purpose.

- **Mostly C's:** Karmic Fate Disruption (Tonallique Force) – Disruptive energy from fate merchants causing poltergeist-like chaos. Historical resolution: 7-bean line to appease and restore balance (Florentine Codex, Book 10, Ch. 4). Next step: Book for targeted appeasement ritual.
- **Mostly D's:** Predatory Non-Human (Tzitzimime Scout) – Star or eclipse demons luring or oppressing. Historical resolution: Chili crossroads to repel and seal (Ruiz de Alarcón, Ch. 4, p. 55). Next step: Consultation for banishment.
- **Mostly E's:** Deceptive Lure (Chalchihuitotolin Mimic) – Trickster illusions in voices or tech. Historical resolution: Copal smoke demand for unified message (Florentine Codex, Book 10, Ch. 3). Next step: Diagnostic to verify and sever.

Mixed Results: Likely a layered imbalance; prioritise the dominant letter. This quiz is interpretive based on Nahua traditions and not a substitute for professional assessment. For personalised resolution, contact Black Dog Investigations at blackdoginvestigations.com.

Historical Basis and Next Steps

This quiz is grounded in the Florentine Codex (Sahagún, 1577, Book 10, Ch. 4–7) for symptom classification and Ruiz de Alarcón's *Treatise on the Heathen Superstitions* (1629/1984, Ch. 5) for diagnostic methods. It reflects the Nahualli tradition's emphasis on Teotl balance. To proceed, book a diagnostic consultation for codex-aligned resolution.
