The numbers say it all. Spayed and Aid of Kentucky experienced significant client growth in 2025. Due to a lagging economy, increased unemployment and skyrocketing inflation more of our neighbors experienced economic hardships.

Through the kindness of others, we were able to meet the needs of our Logan County neighbors by providing food and spay/neuter services in an effort to keep additional animals out of local animal shelters. Thanks for helping make our dream a reality!

Hoping for continued success in 2026,

Karen and Amanda
