

# KISLEV

## T R U S T   A N D   R E S T

- Benjamin tribe - develop your strategies to overcome in the next season.
- Constellation: Sagittarius (the archer) - a time to fight against empires and cultures.
- Color/Stone: Multicolor/opal or Rainbow Jasper
- 9th Month - Nine means: Holy Spirit, or end/conclusion.
- Full Circle - We should be coming full circle in our trust and confidence. How are you advancing since last year? Are you coming to the end of the issues or circling once again?
- Examine your heart and your motives this month. How are your trust "issues" hindering your walk with God and the relationships in your circle of influence?
- Benjamin was the only child born in the Promised Land. Watch Israel this month.
- This is the month to shoot straight and move quickly. Think of the archer. Cut your losses and move on.
- Review your support system. Who is supporting you and who are you supporting? Consider who your friends and associates are, and why you are connected with them.
- You have come through the flood and it did not overtake you. What is the covenant that God wants to make with you now? Genesis 9:13-17.
- God wants to give you a greater understanding of peace and rest. You can have peace in the midst of conflict. Keep your eyes on God. When you get out of peace, your fear and anxiety increase. If you have lost your peace, track back to when you last had it. What happened?
- In this month, God wants to increase your understanding and revelation during night dreams or visions. Review your sleep patterns for optimal health. Set yourself up to encounter God in the night. Have a pen/recorder next to your bed so you can journal. You may not understand it, find someone who can help you. The goal is to deal with what He shows you.
- Out of our innermost being flows rivers of living water (John 7:38). With our three brains, the stomach represents our being or behaviors. You should be gaining greater understanding and control over your behaviors. Are you becoming the healed version of yourself?
