

PRIVATE OUTPATIENT TREATMENT FOR A FRACTION OF THE PRICE

Our mandate is to deliver the same effective programs, services and knowledge as expensive private inpatient programs.

Our experienced diverse staff and therapists include cowriters of private inpatient treatment programs, private treatment facility managers, professional group facilitators, and collectively dozens of years of experience working in every facet of the addiction treatment world.

Our primary program facilitator offers extensive experience on both sides of the world of alcoholism and addiction. His group sessions and experiential counselling skills are well known for their power and effectiveness.

CONVENIENT FLEXIBLE SCHEDULE OPTIONS

We understand that inpatient programs and conventional Monday-Friday schedules do not work for everyone.

Amongst the offerings we are excited to offer are our flexible schedule and completion options. Our programs are offered both as intense schedule versions as well as convenient flex-schedule options during our 7 day a week 12 + hour per day accessibility. *Clients also have 24/7 emergency options.
