PLANT POT RULES

LE&DHS RULES

Our rule 13 states that Exhibits will be judged in accordance with The Royal Society's Handbook and the rules or regulations of the various National Societies.

R.H.S.

The diameter of a pot or pan is the inside measurement made as close to the top as possible. Where the manufacturer's stamp is embossed on the pot this should be accepted by the Judges. It is recommended that a maximum pot size is specified in the schedule. Please refer to our schedules.

THE BRITISH FUCHSIA SOCIETY

All exhibits must be exhibited in terracotta coloured pots with matching saucers. Our schedule states maximum plant pot sizes of 3½"/90mm., 6½"/165mm. or 8"/203mm. measured internally as close to the top as possible.

THE ALPINE SOCIETY

The Alpine Society recommended plant pot sizes are not relevant to us, as we do not specify plant pot sizes in our schedules. In all cases, the term 'pan' shall be interpreted to mean pan or pot. However out of interest, the Alpine Society measures their pots externally at the rim and use callipers for this purpose.

Helpful Hints for Exhibiting Daffodils

1. **Feeding** - Give all daffodils a good soaking with a fertilizer two weeks before the show. Tomato feed is ideal.
2. **Collecting flowers** - Collect any promising flower buds 4-5 days before the show. Keep the most forward buds in a cool place and the ones at bud stage in a warmer place in the light but out of direct sunlight.
3. **Selection of flowers for the show** - Look at them from the back and select the ones with nice clear petals and smooth edges. Then look at the flower from the front and choose the flowers which look you in the eye.
4. **Staging** - Put the flowers in a vase with some support to hold them in place. Moss, kitchen paper, newspaper or oasis may be used.
 - A. Single Bloom
Place in a vase and pack with support material.
 - B. Three Blooms
Place the tallest flower at the back and two shorter ones at either side forming a nicely balanced triangle of similar blooms. Pack with support material to hold them in place.
 - C. Two Blooms
Place side by side and pack with support material.
5. **Naming your Bloom** - If you know the variety of your Daffodil write it on your exhibitor card for the benefit of other exhibitors and the viewing public.

HELPFUL INFORMATION

The Classifications given for the various types of Daffodil are given to enable you to decide the class in which to place your exhibit. We are **all learning** about daffodils so please don't be put off by the descriptions!! Bring your flowers to the show and don't be frightened to ask for advice. If the Show Secretary or who ever you ask doesn't know, we will ask the judge. We cannot be fairer than that. This way we all learn!

This year we have put the description of the Division alongside the appropriate classes together with some examples which are available on the high street. We have chosen varieties which you may have in your garden and which could be in bloom at the time of our Spring Show.
