

CREATIVE PORTFOLIO

COLLECTION OF
CURATED WORKS

FEBRUARY 2025

OffTheWall Spaces

HELLO!

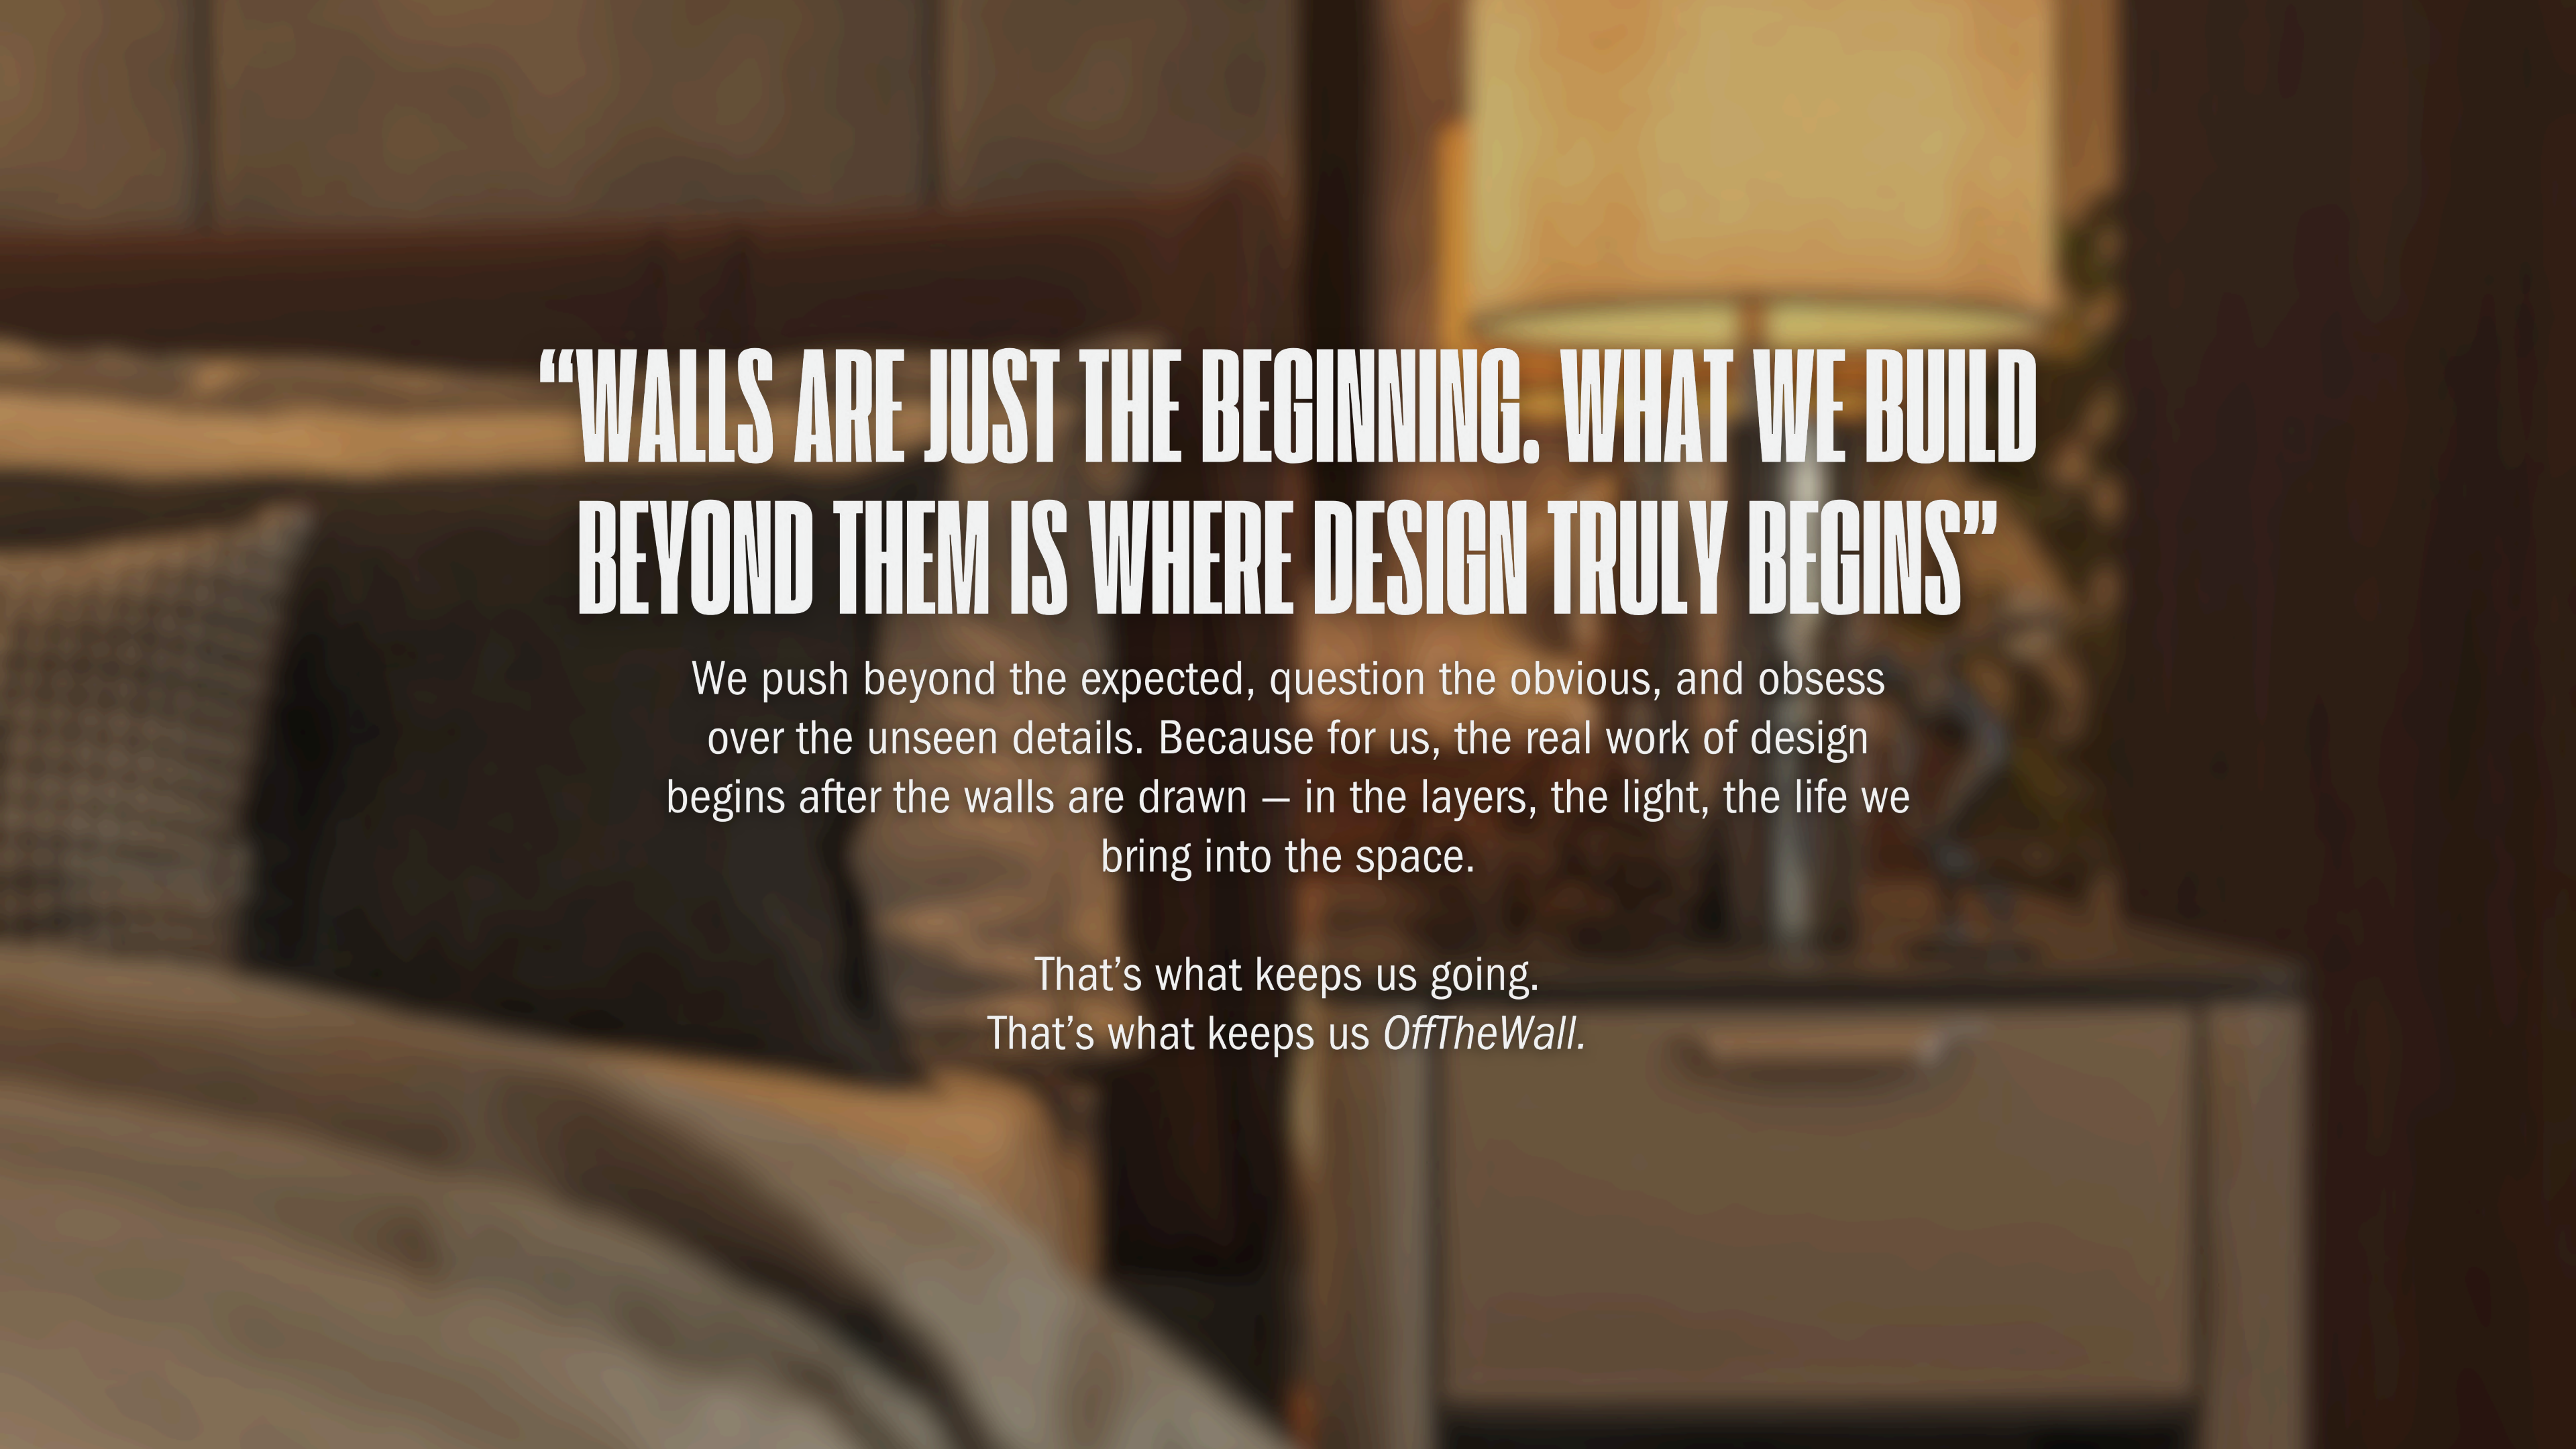

As you step into the work of **OffTheWall Spaces**, We invite you to embark on a transformative design journey with us. This isn't just about interiors—it's about crafting immersive experiences where creativity and purpose intertwine in a seamless dance of form and function. But this vision can't come to life alone; I believe that the real magic of design lies in meaningful collaboration and a shared aesthetic vision.

Together, we can shape spaces that are not only visually compelling but also deeply personal—where every detail tells a story, and the line between utility and art begins to blur.

At OffTheWall, our goal is to evoke the same sense of awe and inspiration in our clients that we feel while bringing these ideas to life. Let's join forces to breathe soul into empty spaces, to uncover the potential hidden within walls, and to create environments that leave a lasting impression on all who experience them.

Here is a curated collection of our design works - reimagine the ordinary, challenge the conventional, and design an unforgettable spatial journey with us!

“WALLS ARE JUST THE BEGINNING. WHAT WE BUILD BEYOND THEM IS WHERE DESIGN TRULY BEGINS”

We push beyond the expected, question the obvious, and obsess over the unseen details. Because for us, the real work of design begins after the walls are drawn — in the layers, the light, the life we bring into the space.

That's what keeps us going.
That's what keeps us *OffTheWall*.

WHAT WE DO

At **OffTheWall**, we don't just design spaces — we craft experiences.

We are a creative design studio that reimagines interiors with bold ideas, thoughtful detail, and a deep understanding of how people live, work, and feel in a space. Whether it's a home, a workspace, or a commercial environment, we bring stories to life through spatial design that is both functional and visually striking.

Driven by collaboration and fueled by curiosity, we turn walls into conversations and concepts into reality.

Let's build something unforgettable — from the inside out.

**Architectural design
consultation**

**Interior design and
custom furniture**

**Space planning &
3d Visualisation**

**Landscape design and
detailing**

At **OffTheWall**, we believe that design isn't just a one-time deliverable — it's a dynamic, evolving process. Our follow-ups are built on clear communication, active collaboration, and continuous refinement to ensure your vision comes to life just the way it should.

Design Follow-Ups with Clients

- **Regular Check-ins:** We schedule weekly or milestone-based calls or meetings to walk you through progress, gather feedback, and align expectations.

- **Design Presentations:** Each stage of design (concept, 2D, 3D) is presented with clarity, and revised based on your inputs.

- **Detailed Documentation:** We provide precise drawings, mood boards, and selection decks to keep decision-making smooth and efficient.

- **Feedback Loops:** Your suggestions are valuable — we adapt and tweak until the design feels just right.

Site Coordination & Design Implementation

- **Design-to-Site Sync:** We collaborate closely with The WallCrafters (or your appointed team) to ensure that the design vision is accurately translated into execution.

- **Shop Drawing Support:** We provide detailed working drawings, joinery details, and site markups to bridge the gap between concept and construction.

- **Site Visits & Design Oversight:** We conduct periodic site visits during key stages to guide detailing, material application, and ensure design integrity.

- **On-the-Go Adjustments:** If unexpected site conditions arise, we proactively recommend smart design tweaks without compromising on aesthetics or intent.

BEYOND THE DRAWING BOARD

We're deeply invested in seeing our ideas take shape, inch by inch, detail by detail. From the first sketch to the final nail, we stay hands-on, passionate, and obsessively committed to execution. Because we don't just want beautiful designs on paper — we want them to live, breathe, and tell stories in the real world.

Every material chosen, every junction detailed, and every corner finished — we're there, ensuring it reflects the soul of the design.

We don't walk away after the presentation.

We walk the site.

We work with the craftsmen.

We troubleshoot.

We refine.

We stay.

Because for us, design is not complete until it stands exactly the way it was imagined — or better.

THANK YOU
