

# 147.27/DMR Severe Weather Net

Sullivan National weather has issued a (EXAMPLE Severe thunderstorm warning/watch or tornado watch or warning for the Racine and/or Kenosha and/or Walworth counties) The Racine/Kenosha Ares Severe weather net is now currently active for the KR9RK 147.27 (or corresponding repeater)

Currently NON-ESSENTIAL TRAFFIC is advised to either be redirected to our 442.00 UHF or DMR 440.00625 unless there are nets currently in progress.

This is [call sign] \_\_\_\_\_, my name is [ name \_\_\_\_\_ ], I'm located in [Community] \_\_\_\_\_ and I'll be your net control . In the event this net control station goes off the air, the backup net control station (call-sign) will then take over the net. If this repeater goes off the air, all checked-in stations are to report to 147.27 MHz simplex.

**REMEMBER that ALL STATIONS** either with weather or other emergency type traffic to be passed, need to call net control with their call-sign and wait to be recognized by net control. Upon acknowledgment, that station can begin to pass their information. Reminder: the information to be passed should be in the Who, What, When and Where format following Sulcom criteria found on the Severe Convective Weather Report Form that is currently on the KR9RK website under the Nets and ARES tab.

All radio amateurs are invited to participate. However In the event this station goes off the air, we need a volunteer for backup net control. Do we have a backup net control station?

I'll now take check-ins for the net, please give your call sign slowly and in standard phonetics, your name and your location.

I will now take Check ins starting with call-signs with the suffix that begins With the exception of mobile stations who may check in any time, with [A-Alpha thru F-Foxtrot, G-Golf thru M-Mike , N-November thru Z-Zulu].

This is [call sign] now standing by for weather traffic. (periodically ask for any new stations for check ins and remind of current net status and warnings or watches until traffic for weather begins or till watch or warnings expire)

## **Closing**

This is [call sign] \_\_\_\_\_ closing the Racine / Kenosha County this session of the Severe Weather net. I'd like to thank everyone for checking in, and I'd also like to thank the Lake Shore Repeater Association for the use of the repeater.

This is [callsign] \_\_\_\_\_ returning the repeater to normal operations .

[Callsign ] \_\_\_\_\_ is clear.
