

TOPSHELF

ABOUT *TOPSHELF*

You've consumed enough to know the difference. You know what burns too hot. What hits too hard. What overpromises and under delivers. So do we. That's why we built TOPSHELF.

We're not here to impress the masses. We're here for those who expect more and invest in products that deliver. TOPSHELF exists to bring precision, consistency, and experience back to cannabis.

We don't rush. We don't cut corners. We make fewer products, and we make them properly. From how we process, press, cure, and wrap each unit to the way we control airflow and smooth the pull everything is built to elevate your session. This isn't a novelty.

It's a moment, designed for those who know what quality feels like.

02

TOPSHELF

Thank you for choosing TOPSHELF
We produce fewer units so every detail meets the highest standard.
This one is yours, hand-selected, crafted, cured,
and wrapped with intention.

FOR THOSE WHO EXPECT MORE

TS

WHY WE *EXIST*

Because most pre-rolls are made for convenience.

We make ours for connoisseurs.

We've smoked the same products you have:

- Harsh on the throat
- Burns fast and uneven
- Leaves residue
- Destroy terpenes during sessions

So we reimagined the whole experience from how it's built to how it burns.

We use proprietary patented processes and custom-designed tools to create something more meaningful.

Every TOPSHELF unit is engineered to protect the terpene profile, regulate airflow, reduce heat, and extend the burn.

This isn't about smoke. It's about intention.

04

TS

DESIGNED *TO ELEVATE*

WHAT'S IN EVERY TOPSHELF UNIT?

WHOLE FLOWER ONLY

No trim, no shake,
no gimmicks

COOL-DRAW FILTER

Smooth inhale, reduced
throat burn

VENT HOLE SYSTEM

Stabilizes airflow, preserves
terpene profile

CURED WITH CARE

Temperature and
humidity controlled

HAND-ROLLED, NEVER CONED

Because shortcuts show

MULTIPLE QUALITY CHECKS

From packing to final finish

05

TS

WHAT YOU *EXPERIENCE*

Clean flavor from
start to finish

Even, steady burn that
doesn't run or canoe

Comfortable inhale
with no throat burn

Full terpene
expression

No sticky residue,
pooling oil, or
sour relights

Extended burn time

TS

THE 1.5G UNIT

Built to Perform. This isn't just a bigger joint. It's a landmark. The TOPSHELF 1.5g pre-roll is a cigar-style experience crafted with the same precision and restraint that defines the world's most elevated combustion products.

It's not mass-produced.
It's not filled with trim.
It's not designed for hype.

It's designed for those who expect more.

09

EVERY 1.5G UNIT FEATURES:

- Whole flower only. No trim, no additives
- Cool-draw filter
- Vent hole airflow system
- Hand-packed and pressed
- Cured with intention
- Wrapped by hand. No cones

WHY 1.5G MATTERS:

- Relightable. Clean, without residue
- Built for sessions, not samples.

- Shareable, giftable, unforgettable
- The only unit of its kind in Canada

This is one of our flagship products.

Not just for us, but for anyone who believes pre-rolls can be premium.

...the highest standard
...crafted, cured,
...with intention

TOPSHELF

FOR THOSE WHO EXPECT MORE

TS

TOPSHELF ISN'T
FOR EVERYONE
*AND THAT'S
THE POINT.*

We're inviting a small group of aligned partners to bring this flagship product to market.

If you'd like to preview the unit or receive full product spec sheets, let's connect.
