Goldie just hatched from her egg. Help her take her first steps and find her way through the chicken coop.

HAPPY EASTER

Easter Trivia: Americans eat about 1.5 million marshmallow Peeps during Easter. In 1953, it took 27 hours to make one Peep.

A surprising 59% of people eat the ears of a chocolate bunny first. Only a handful start with the feet/tail, and the rest apparently don't have a plan.

- Why do we celebrate Easter?
- What is your favorite part of Easter?
- Name one thing you can do to be kind on Easter.

There's evidence showing that Easter eggs originated from Medieval Europe and Christians may not have actually been the ones to start the tradition of giving eggs — a symbol of new life, fertility, and rebirth in many cultures.

DECORATE THE EGGS

The idea of the Easter bunny giving candies and eggs is said to have originated in Germany during the Middle Ages, with the first written mention of this tradition dating back to the 16th century. Dutch settlers in Pennsylvania brought the bunny to the United States in the 1700s.

Americans consume more than 16 million Jelly Beans during Easter. That's enough jelly beans to circle the globe not once, not twice, but three times — or to fill a plastic egg the size of a nine-story building. They were first introduced in the 1930s.

What is this?
