That Westminster Development Corporation established and does hereby establish certain building restrictions and conditions for the benefit of said Westminster Place Subdivision, Sixth Filing, to be binding upon and enforceable by the present or future owners of said property or any part thereof, and which said restrictions and conditions are hereby established as servitudes and covenants running with the land, as follows, to-wit:

- (1) All of the lots contained in Westminster Place Subdivision, Sixth Filing, are hereby designated as residential lots, and no buildings shall be erected, altered, placed or permitted to remain on any lots other than one (1) detached single family dwelling not to exceed two and one-half (2 1/2) stories in height and a private garage for not more than four (4) cars.
- (2) No building shall be erected, placed, or altered on any lot until the construction plans and specifications and a plan showing the location of the structure have been approved by the Architectural Control Committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation. No fence or wall shall be erected, placed or

altered on any lot nearer to any street than the minimum building set back line unless similarly approved.

- (3) The minimum requirements for residential structures are set out as follows: (a) For a single-story residence there shall be a minimum of One Thousand (1,000) square feet of living area, and the minimum requirements for the horizontal roof area shall be One Thousand Two Hundred (1,200) square feet; and (b) for a two story residence there shall be a minimum of One Thousand Three Hundred (1,300) square feet of living area with a minimum of Seven Hundred Fifty (750) square feet of living area on the ground floor, and the minimum roof area shall be One Thousand One Hundred (1,100) square feet. In computing the "living area" open porches, carports and garages shall be excluded. The "roof area" may include porches, carport and/or garage roofs which are attached to the principal structure.
- (4) No building shall be located on any inside lot nearer to the front line of said lot than thirty (30) feet, nor nearer to the side property line than eight (8) feet. No building shall be located on any corner lot nearer to the front line than thirty (30) feet, nor nearer to the side property line than eight (8) feet, nor nearer to the property line along the side street than fifteen (15) feet. Garages and carports may be attached to the main dwelling but must not be nearer to the side property than five (5) feet, nor nearer to the side property line along a side street than fifteen (15) feet. For the purpose of this covenant, eaves and unroofed steps and unroofed porches shall not be considered as part of a building. Maximum building setback line of sixty (60) feet is hereby authorized. Detached garages and/or accessory buildings shall not be erected closer than five (5) feet to any sideline, nor nearer to the side property line along a side street than fifteen (15) feet or closer than ten (10) feet to rear lot line.
- (5) Servitudes for installation and maintenance of utilities and drainage facilities are hereby established as shown on the said annexed plat of said subdivision.
- (6) No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may become an annoyance or nuisance to the neighborhood.
- (7) These covenants prohibit the resubdivision of lots from any dimensions other than those shown on the official recorded plat; provided, however, that this shall not prohibit the use of more than one (1) lot for one (1) residence. When more than one lot is used as a residential plot, the sideline restrictions herein contained shall apply to the plot as a whole.
- (8) No garage apartments are to be erected or to be used as a residence, except as a residence for domestic servants to the occupants of the main residential premises.

- (9) No structure of a temporary character, trailer, basement, tent, shack, garage, barn or other outbuilding shall be used on any lot at any time as a residence either temporarily or permanently.
- (10) No animals, livestock, or poultry of any kind shall be raised, bred, or kept on any lot, except that dogs, cats, or other household pets may be kept provided that they are not kept, bred, or maintained for any commercial purpose.
- (11) No fence shall be erected on any lot beyond the front building setback line of that lot, not nearer any street than thirty (30) feet.
- (12) All vacant lots shall be cut when weeds or grass reach a height of eight (8) inches. The Architectural Control Committee may after proper notice have the lots cut and charge actual cost thereof to lot owner.
- (13) No building materials or equipment may be placed or stored on any vacant lot except in the course of construction.
- (14) No building or structure shall be constructed using imitation brick, imitation stone or asbestos on the exterior. In addition to other standards, the Architectural Control Committee may impose appropriate and reasonable standards for exterior finishes and materials so that such finishes and materials which are undesirable or which detract from the value of the dwelling, the appearance of the neighborhood, or the value of the adjacent structures shall not be utilized.
- (15) An Architectural Control Committee composed of C. H. Norton, Thomas R. Pruyn, and William P. Norton is hereby appointed. A majority of the committee may designate a representative to act for it. In the event of death or resignation of any member of the committee, the remaining shall have full authority to designate a successor. Neither the members of the committee, nor its designated representative, shall be entitled to any compensation for services performed pursuant to this covenant. At any time, the then record owners of a majority of the lots shall have the power through a duly recorded written instrument to change the membership of the committee or to withdraw from the committee or restore to it any of its powers and duties.
- (16) The Architectural Control Committee's approval or disapproval as required in these covenants shall be in writing. In the event the committee, or its designated representative, fails to approve or disapprove within thirty (30) days after plans and specifications have been submitted to it or, in any event, if no suit to enjoin the construction has been commenced prior to the completion thereof, approval will not be required and related covenants shall be deemed to have been fully complied with.

- (17) These covenants are to run with the land and shall be binding on all parties and all persons claiming under then for a period of twenty-five (25) years from the date these covenants are recorded, after which time said covenants shall be automatically extended for successive periods of ten (10) years unless an instrument signed by a majority of the then owners of the lots has been recorded, agreeing to change said covenants in whole or in part.
- (18) Enforcements of these restrictions shall be by proceedings at law or in equity against any person or persons violating or attempting to violate any covenant either to restrain violation or to recover damages.
- (19) Invalidation of any of these covenants by judgment of court order shall in no wise affect any of the other provisions which shall remain in full force and effect.
