

**\*\* ATTENTION IMPORTANT\*\***

Aqua-Link is a Reliable, Trusted source of aquarium foam.

**All Foams *are not created equal* !!!** It is extremely important to know that various foams are processed for many different industries, insulation, packaging, sound buffers, air filtration, bedding, outdoor furniture, etc. Because of their applications, It is practical and also **very common** for these foams to be processed standard with chemical additives that destroy bacteria. Obviously a presence of such additives would be counter productive to, and have disastrous effects on aquarium biological eco system. With the aquarium market saturated with such foams, the consumer must trust that their source (supplier) is mindful of this concern and takes steps to protect your investment.

***Aqua-Link ADP foam is special ordered in bulk under custom requirements, tailored specifically for safe aquarium use.*** It is made of a special poly ether material that does not break down under rigorous aquarium conditions. It is custom ordered by Aqua-Link and guaranteed, NOT TO CONTAIN Germicides, UV stabilizers, or fire retardant treatments.
