COMPANY PROFILE

---

# WHO WE ARE

Be smart is a system integrator and solution provider offering smart home, ELV, security and ICT solutions with the most advanced and efficient technology.

Founded by two ambitious computer engineers who bring more than 17 years of experience in system design, development and implementation to meet and exceed their customers' expectations. We are driven by technology, we have always believed in incorporating new age technologies to our system.

## **Our Vision:**

Driven by technology, we strive to provide the best services in the industry. We aim to become your trusted and preferred technology partner in Middle East.

## **Our Mission:**

To become the preferred technology partner in MENA region, build and maintain long-term relationship with customers and talented employees..
