

Equilibrium

A new product of Wood, Stone and a sense of Balance

Huacheng & SBN
Dec 2022

Equilibrium is developed with a flexible design style in mind.

We mix and match white/black marble and wood texture melamine with semi-glossy white and black metal frame to achieve different looks.

Wood texture melamine with white metal frame looks modern, clean and a bit Scandinavia, will easily light up the room.

Equilibrium

3

Black marble melamine with black metal frame looks sturdy, industrial yet luxury, adding elegance to the space.

Currently, the Equilibrium line consists of:

- Side table (1);
- Long coffee table (2);
- TV unite (3);
- Wall-mounted shelf (4).

White marble melamine with black frame, team up with classic chesterfield armchair gives strong vintage vibe.

Wood texture melamine with white frame, team up with Pierre Jeanneret Chair and a modern sofa with wood plinth, create nature look, clean and Nordic.

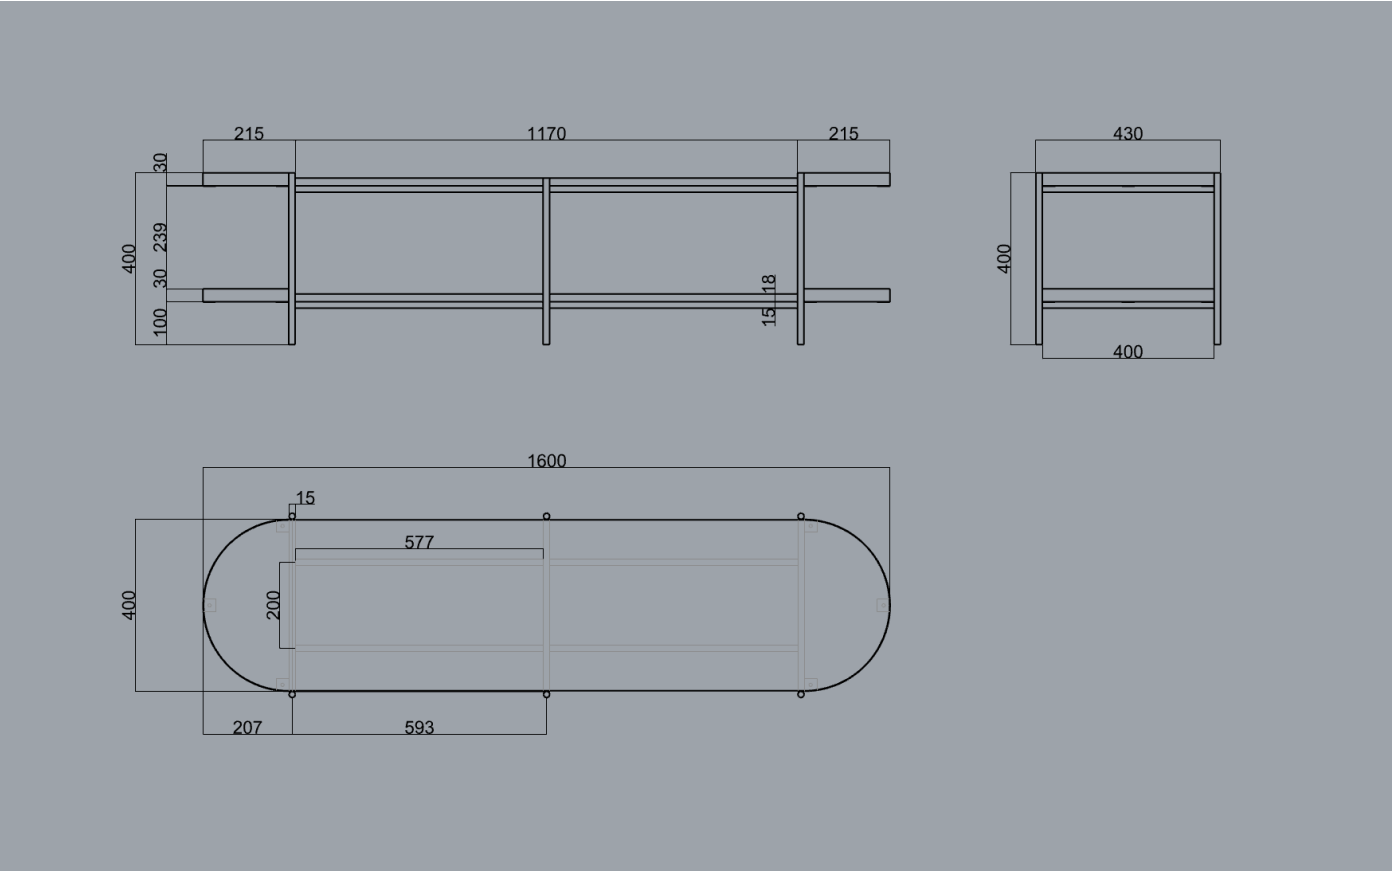

Huacheng Zhangzhou

Wood texture melamine with black frame, has a rustic feel, adding a bit more volume and warmth to the space.

Equilibrium

We have carefully studied the size, for example, the TV unite can easily work together with Temple & Webster’s secondary organizers to offer tidiness to more picky customers while keep original product price down.

By the way, we also recommend to add more variety to the secondary organizers by offering box and basket in paper, textile, felt, side-hide or faux side hide among other materials.

Equilibrium

Early samples of side table, square coffee table and long coffee table in 2021. They look great in real.
