Scams, Fraud & Grooming

Imagine the plot by a mastermind and his accomplices to commit fraud, such as stealing songs and books, and breaking them into pieces and then having you used the stolen songs or rewrite the song and you get blamed for their fraud. Thus, no relatives, no friends, nobody will get my permission to use any of my songs and or books. Ask the mastermind for a song that they did not steal for you to sing, play and record and get a lawyer involved...Fisal Ally

Slavery & Indentured laborers

The South American President, Irfaan Ali, of Guyana 'lashed out at the descendants of European slave traders and said those who profited from the cruel, trans-Atlantic slave trade should offer to pay reparations to today's generations. He also 'proposed that those involved in the slave trade be posthumously charged for crimes against humanity.' There was a 'formal apology in Guyana by the descendants of Scottish 19th-century sugar and coffee plantation owner John Gladstone.' Ali said, 'the apology should also include issues of compensation and reparative justice.

Ally Production and or Faisal Ally/ Brian Ally do not do videos, write articles, books, songs for anyone, nor edit books and articles for anyone. In the past I have done some weddings videos and around 2010 completed a half an hour comedy episode and a mock up movie.

There is another company by a similar name, Ally Production that does movies; I have no connection to them. If any body tells you that I will write songs, books articles for others or gives audition, those are all made up fabricated lies and have nothing to do with me.

Anyone can have a copy or copies of my songs and books, however, if anyone tells you that you can sample my songs, books etc... for commercial use and rewrite to make it better according to your taste thinking it's better, those are again fabricated lies as part of a scam, as I have never signed a contract with anyone to sample any of my songs and books or to use any of my songs/music and books commercially.

It's the end of summer and fall is here. This was the best summer I've seen in Edmonton over the decades, and I'm sure everyone else will say the same. I had bought small zucchini, cucumber and tomato plants, and transferred them to bigger pots. Due to the heat some of the zucchinis died and got burnt as they were coming up. My jalapeno plant from last year produced a good amount of peppers. Now that it's getting cold, I brought the pots of plants into the gazebo. I noticed some of the leaves on the jalapeno plant are getting yellow, so I brought the plant into the rumpus room next to the window.

What's coming - CBDC, inflation, shortages, mask, lockdowns

Are you prepared for what's coming? It's coming, but when? But when it comes, it will not be easy if you live in places like Edmonton, especially if you want to plant a garden. Perhaps start planting indoors in February and then transplant into bigger pots for the outdoors and try to reap twice? Do you at least have a month of can goods? A few months would be better. A few weeks ago, I was in the grocery store and I saw the 1 liter pop price jumped from \$1.99 to about \$3.49, but dropped when I returned a week later. So you have an idea of what's coming, and it's going to be bad.

About seven years ago I was told that something major was coming, but at the time we didn't know what it would be. Now we do. The 'Great Reset' is taking place right before our eyes, as CBDC (Central Bank Digital Currency) is coming in. Be ready. I have been stacking up for years now in case something happens, and I would use and replenish what I have so I do not end up with expired products. Note that the best before date does not mean something is expired. Normally for can goods, it can be kept for a few more years. You can get a list with items best before dates and how long after they can be kept. Some items can be kept for many years after the best before date, so don't be afraid to stack up before inflation takes over and where your money will have little value.

We had a great summer, but I believe this could be a cold and dark winter. I'm not sure, but I know a cold and dark winter is coming in the future. Do some research and be prepared. At least it's good to be prepared. The English are being told to cut energy consumption else they may get charged. We are witnessing the destruction of many places around the world, the destruction of humanity and other lives is taking place, as forests being burned down and vast amount of trees are being cut down.

A past editions of this magazine covered news on babies in the future being created in labs. The future looks bleak and dangerous for humanity. We are spoon fed one piece at a time, so we can never get the full picture until it's too late for humanity and all of us.

Diverse News: Dr. Patrick More says carbon dioxide is a Nutrient for all lives

There are different views on carbon dioxide. This is what Dr. Partrick More says

1:32:56 - Dr. Patrick More (Founding member Green Peace) ' One of my mission is to turn on its head the idea that carbon dioxide is a pollutant and dangerous when in fact it is the most important NUTRIENT for all lives on earth and without it this would be a dead planet. So I say not only is carbon dioxide good, it is essential and its a good thing that we are putting some more carbon dioxide in the atmosphere because it was running low before we came along...they don't have definitive proof in science. I'am a student of philosophy and history of science and I know the scientific method have not been applied in such a way as to prove carbon dioxide is causing the earth to warm...I am firmly believe that the future will show that this whole historia over climate change was a complete FABRICATION.'

Statement of Patrick Moore, Ph.D: Before the Senate Enviornment and Public Works Committee, Subcommittee on Oversight; February 25, 2012 "Natural Resource Adaptation: Protecting ecosystems and economies"

Says 'There is no scientific proof that human emissions of carbon dioxide (CO2) are the dominant cause of the minor warming of the Earth's atmosphere over the past 100 years. If there were such a proof it would be written down for all to see. No actual proof, as it is understood in science, exists.'

'When modern life evolved over 500 million years ago, CO2 was more than 10 times higher than today, yet life flourished at this time.'

Diverse News: Are lockdowns coming back? Two professors says it's highly unlikely

From the grapevine, we learned earlier that TSA whistle blowers stating that masks are coming back. Although we have not heard of airport staff being masked up, it's back in some schools, and we can see some people masking up around the city. There has been news previously that mask mandates are coming back, and we can see them coming back in schools, and Biden promoting it by wearing one. What about lockdowns? Are lockdowns coming back? This is what two professors has to say.

In the article 'Will we see a return to masks and lockdowns against covid-19 this winter? 12 September 2023 by Priya Joi (ref19) says 'Masks may well make a comeback, but most likely will only be mandatory in specific situations, such as healthcare settings such as clinics and hospitals...'

"I think the chance of another lockdown is somewhere between 'extremely unlikely' and 'vanishingly unlikely'." - Professor Christina Pagel, of University College London

'Professor Paul Hunter, of University of East Anglia, told iNews: "Lockdowns are a blunt tool for controlling pandemic spread. They were pretty effective in the early months of the pandemic but there was evidence that even by the second wave (alpha variant) they were not as effective as in the first wave."

Diverse News: From the grapevine: Some made claims that lockdowns are coming this fall

There is news coming out stating that people were in meetings and they were told that lockdowns are coming.

It's important remember that this magazine is only sharing what others are discussing. Could it be that if something is true, that when it's shared and others are discussing it around the world to educate others that the spread of knowledge could trigger their plans to change? During these times of uncertainty and the 'Great Reset' taking place, we must keep an open mind. Also the timing can be off. Or maybe this is all to sidetrack us.

In the podcast at time 50:58 (ref 5) shows a person who did not hide his name **Brad Carrigan, and who came out and said, '...I want to introduce you to what's really gonna happen in the fall. I got inside info, I sat with somebody from the government yesterday who showed me a text that - a text from the inner circle of Daniel Smith.** In that inner circle, I mean the very inner circle text was saying to the government official that I was sitting with and having lunch

with that - what it was is that there actually gonna be a **lock down coming this fall**. The message was if you are going on holidays to go now that you won't be able to go afterwards.' '...first of all the most important thing we have to remember is when they do these lockdowns this fall and they are coming now, there's verification and I trust the source - i saw the text myself with my own eyes. I saw exactly what was said and what we are looking at is a fall lockdown and mandates are coming back, and the problem we're going to see is that everybody is now awake - not everybody but a lot of people are awake, they do not want to vaccinate, they do not want to play the game anymore and they are not going to want to put up with this nonsense any longer, but we have to be careful we don't give them the opportunity to come out with a martial law scenario or an emergency measure.'

Just to recap, in the last edition in this magazine, there was news section called Diverse News: From the grapevine: Full COVID-19 lockdowns, beginning with mask mandates are coming back as early as mid-Sept in the US, and in the middle of October 2023.

In an article (Ref 19) called, Biden Regime to reinstate covid-19 restrictions beginning with mask mandate as “covid cases rise”, say TSA and Border Patrol Whistleblowers by Jim Hoft, Aug 18, 2023.

A high-level TSA official reached out to infowars, detailing a Tuesday meeting where TSA managers were informed of new memorandums and policies that would re-implement mask-wearing.’ ‘The official added that by mid-October, mask-wearing will be mandated for pilots, flight staff, passengers, and all airport patrons.’

Diverse News: 5 G towers - How does it affect us?

In the article ‘Is 5G harmful to people by Kirsten Nunez on May 10, 2021’ (ref23) says **‘5G works by producing a type of energy called electromagnetic radiation.** It uses higher frequencies than previous wireless networks, making it faster and more efficient.’ ‘Electromagnetic frequencies, like those produced by 5G, create an area called an electromagnetic field (EMF). Some people believe EMFs have negative health effects.’ The article states: ‘As a result, there is concern about how 5G affects health. But there are currently no known health risks linked to 5G.’

Does 5G technology have any effects on health?

‘According to the World Health Organization (WHO), there is limited research on the frequencies in 5G.’

‘A small 2017 study showed that mobile phones use frequencies of 1.8 to 2.2 GHz. These frequencies cause tissue heating, according to WHO.’ ‘A 2021 study also found that people experience more EMF-related tissue heating as they get older. Plus, the higher the EMFs, the more they absorb. They’re because older individuals tend to have reduced skin thickness and blood flow.’

Says ‘More research is necessary to determine how 5G specifically affects human tissue.’

CLAIM: Bill Gates is backing efforts to cut down 70 million acres of trees in order to fight global warming.

AP'S ASSESSMENT: False. There is no plan to cut down 70 million acres of trees. The U.S Forest Service has a ten-year-plan to reduce the risk of wildfires across millions of acres of forests in the American West through a combination of controlled burns, selective tree culls and other forest management strategies. Gates, separately, is among the investors in a company proposing to help thin out California's densely packed forests and bury tree remains in Nevada.'

To get a good picture of what's taking place it's important to read the AP Fact Check article as mentioned above. My question is, why is it necessary to cut down all of those trees, especially when the plan is to depopulate the world tremendously? So then why not just leave the forests alone? ...F. Ally

THE ATLANTIC SLAVE TRADE & CRIMES AGAINST HUMANITY

A call for reparations across many nations for the crimes of slavery committed against millions

Researched by F. Ally

Edition 1: September 22, 2023

Introduction

I - Discussions on reparations

II - What is slavery - 'The stealing and selling of human beings'

III - The year Christopher Columbus sighted Guyana

IV - The Dutch involvement in the transatlantic slave trade

V - The slave Rebellions - Coffi

VI - The Gladstone's involvement in the slave trade

Conclusion

Introduction

Throughout history there have been many crimes against people. The transatlantic slave trade was one the most barbarous crimes that had taken place in our recent history, forcing people into slavery. A call for reparations from the descendants in many nations in the Americas, in places like Jamaica and Guyana in South America, where their ancestors were forced into slavery in the Americas and all of their wealth stolen - their wealth is their labor. They were held in bondage and forced to carry out slave labor with no pay while the European planters profited tremendously where their own nations and people profited and are still profiting from today.

Section 1 - Discussions on reparations

The South American president (Ref 10) Irfaan Ali of Guyana has on Thursday, Aug 24, 2023, **lashed out at the descendants of European slave traders and said those who profited from the cruel, trans-Atlantic slave trade should offer to pay reparations to today's generations.**

In the article 'President of Guyana demands slavery reparations ahead of apology from plantation owner descendants' published on August 24, 2023 (ref 1) states that

The article states, 'The leader of the South American country also proposed that those involved in the slave trade be posthumously charged for crimes against humanity.'

The Scottish slave owner and owner of slave plantations, John Gladstone, and talks on reparations

The article states, 'Ali spoke ahead of Friday's planned formal apology in Guyana by the descendants of Scottish 19th-century sugar and coffee plantation owner John Gladstone, saying the apology should also include issues of compensation and reparative justice. '

The article states, 'Historical records show that hundreds of revolting slaves were killed and their heads chopped off and lined on poles all the way to the capital as a reminder to others nursing similar ambitions as colonizers snuffed the two-day rebellion. '

The article states, 'Absentee plantation owner Gladstone, who owned more than 2,500 slaves in Guyana and Jamaica, never set foot in Guyana or in the neighboring West Indian islands, but was in charge when the renowned 1823 slave rebellion erupted on his plantation at Success Village on Guyana's east coast, about seven miles from the capital of Georgetown. '

The South American president, Ali says a plan is required for reparations

The article states: "The descendants of John Gladstone must now also outline their plan of action in line with the Caricom plan for reparatory justice for slavery and indentureship," Ali said.'

Descendants of William Gladstone urge British government to discuss reparations

In the article 'Family of former British PM apologizes for enslaver past in Guyana Descendants of William Gladstone urge British government to discuss reparations in the Caribbean' published on August 26, 2023 (ref2) says, 'Charles Gladstone, a descendant of former plantation owner John Gladstone, delivers an apology on behalf of the Gladstone family at Georgetown University in Guyana on Friday.' The article states, 'John Gladstone is also believed to have owned two ships that transported thousands of Asians from India and elsewhere to work as indentured labourers after the abolition of slavery in 1834.'

Section II - What is slavery - 'The stealing and selling of human beings'

Chattel Slavery

'The world slavery is often misused, misunderstood actually. But when you are talking about Chattel slavery - being chattel, being property that means you are deprived of all human rights and liberty....'*

In the video 'BBC - Slavery Scotlands Hidden Shame S01E01' (ref 8) At 18 seconds in the video (ref 8) states, " *The powerfull voices including all the churches were quite happy with the idea OF STEALING AND SELLING human beings....and extraordinary violent...*

In the video 'BBC - Slavery Scotlands Hidden Shame S01E01' (ref 8) at 2:35 into the video (ref 8), *Sir Geoffrey Palmer, Educationalist / Activist says, 'The slavery we are talking about is chattel slavery. It is illegal slavery. It is a slavery that says a slave has no right to life.*

In the video 'BBC - Slavery Scotlands Hidden Shame S01E01' (ref 8) at 2:45 into the video, *David Alston; Historian, Chairman Indentured labor can be a bad thing - a number of Scots that were forced into indentured labor in the Caribbean, but they were not chattel slaves, they were not owned by the people that they worked for. There's a really important difference between them and - I know certainly if you are talking to people through out Scotland, I think particularly the*

Highland people will often say Ah, but Highlanders were enslaved, well they weren't enslaved as chattel slaves.

Section III - The year Christopher Columbus sighted Guyana

In the online article, 'History of Guyana; Britanica' (ref 6) states 'Explorer Christopher Columbus sighted the Guyana coast in 1498, and Spain subsequently claimed, but largely avoided, the area between the Orinoco and Amazon deltas, a region long known as the Wild Coast.

The location of Guyana in South America and the Caribbean

Guyana has various spellings, which are: Guyana, Gauyana, Guiana, Guianna

In the article 'The Guianas by Randy M. Browne (ref 3) and last reviewed on August 23, 2018, states 'The Guianas span some nine hundred miles of Atlantic coast in northern South America, from the Orinoco River in the west to the Amazon River delta in the east. The name, from an indigenous word meaning "land of many waters," is fitting for a region dissected by thousands of rivers and where most people live along the coast. **Far off the tourist paths of the Caribbean Sea and Latin America, the Guianas are also understudied, despite having been the scene of intense European imperial rivalries, colonialism, and slavery for several centuries.**

Section IV - The Dutch involvement in the transatlantic slave trade

In the book 'Minorities at Risk Project, Chronology for Africans in Guyana published in 2004 (ref 5) states, 'The Dutch established the first European settlement in what is now Guyana' (ref5). 'It was the Dutch who finally began European settlement, establishing trading posts upriver in about 1580' (ref 6).

'The Dutch originally established the settlement in order to trade with indigenous people, but with the competition with other European countries to gain territory, it soon became a commercial base for the Dutch. By the 1660s, 2500 slaves had been brought to the Dutch territory to work on plantations. The book states, '**1781 - 1831**, Control over the territory passed back and forth from the Dutch to the British. In 1831, the British established permanent control over Guyana, which it would hold until 1966' (ref5).

'By the mid-17th century the Dutch had begun importing slaves from West Africa to cultivate sugarcane.' The article states, 'Guyana changed hands with bewildering frequency during the French revolutionary and Napoleonic wars (mostly between the British and the French) from 1792 to 1815. During a brief French occupation, Longchamps, later called Georgetown, was established at the mouth of the Demerara River; the Dutch renamed it Stabroek and continued to develop it. The British took over in 1796 and remained in possession, except for short intervals, until 1814, when they purchased Demerara, Berbice, and Essequibo, which in 1831 were united as the colony of British Guiana.' The article states, 'When the slave trade was abolished in 1807, there were about 100,000 slaves in Berbice, Demerara, and Essequibo. After full emancipation in 1838, black freedmen left the plantations to establish their own settlements along the coastal plain' (ref6).

The forgotten history of Dutch slavery in Guyana

In the article (ref 4) The forgotten history of Dutch slavery in Guyana 'published February 28, 2020, states 'When we think of the history of Dutch slavery, the areas that spring to mind are primarily the Antilles and Suriname. However, until the end of the eighteenth century there were also Dutch plantation colonies in neighbouring Guyana. Bram Hoonhout's book 'Borderless Empire' describes this forgotten history.'

The author Bram Hoonhout states, 'An illegal trade with British slave traders developed, even though officially slaves could only be bought from Dutch slave traders. The local governors knew this, but decided to turn a blind eye. They also allowed British and American traders to supply food and building materials, even though these were often paid covertly with crops that were intended for the Netherlands. ' **The author wrote 'Besides the illegal trading that went on, the colonists also formed alliances with the indigenous people and recruited them as support groups. These native support groups tracked down runaway Africans, preventing them from forming their own communities, as happened in the rainforest of Suriname.'**

Section V - The slave Rebellions - Coffy (Kofi)

In the report by CBC Radio called: 'Blood on the River: **Uncovering a forgotten slave rebellion**; Author Marjoleine Kars wins the prestigious 2021 Cundill History Prize' (ref 7) *Originally published on December* states, Originally "I was in the national archives in The Hague. I'm Dutch... And so I was poking around, and I found all these records about a place I had never heard of — called Berbice," she said. '**Berbice was a series of Dutch plantations founded in the mid-eighteenth century in what's now Guyana, named for the river along which the plantations were situated. It was also the site of an astonishing slave rebellion in 1763. "Most rebellions are quickly suppressed. They don't last very long: hours, maybe days. And this one went on for more than a year."** The articles says, ' Coffi, the leader of the largest slave rebellion in the Caribbean to date... slipped out of history with barely a notice.- Marjoleine Kars.'

Although Guyana is highly connected to the Caribbean, it's important to note that Guyana is in South America and Coffy (Kofi) is from Guyana in South America and not from an island in the Caribbean.

Section VI - The Gladstones involvement in the slave trade

Who is John Gladstone?

From google search retrieved on Sep 21, 2023 at 10:30pm states:

Sir John Gladstone, 1st Baronet, FRSE (11 December 1764 - 7 December 1851) was a Scottish merchant, slave owner, and Tory politician best known for being the father of British Prime Minister William Ewart Gladstone.'

The article 'Descendants of a British owner of slaves in Guyana apologize as Caribbean seeks reparations' (ref10) says 'Charles Gladstone, a descendant of former plantation owner John Gladstone, traveled to Guyana from Britain with five relatives to offer the formal apology.'

‘The descendants of a 19th-century Scottish sugar and coffee planter who owned thousands of slaves in Guyana apologized Friday for the sins of their ancestor, calling slavery a crime against humanity with lasting negative impacts’ (ref 10).

“It is with deep shame and regret that we acknowledge our ancestors’ involvement in this crime and with heartfelt sincerity...”

In the article ‘Family of former British PM apologizes for enslaver past in Guyana Descendants of William Gladstone urge British government to discuss reparations in the Caribbean’ published on August 26, 2023 (ref2) says, ‘Charles Gladstone, **a descendant of former plantation owner John Gladstone, delivers an apology on behalf of the Gladstone family at Georgetown University in Guyana on Friday.**’

The article states, ‘John Gladstone is also believed to have owned two ships that transported thousands of Asians from India and elsewhere to work as indentured labourers after the abolition of slavery in 1834.’

The article states, “It is with deep shame and regret that we acknowledge our ancestor’s involvement in this crime and with heartfelt sincerity that we apologise to the descendants of the enslaved in Guyana. We also urge other descendants of those who benefited from slavery to open conversations about their ancestors’ crimes and what they might be able to do to build a better future.”

The speech above was made at the University of Guyana.

Some more information from Reference 10.

Ref 10 - “In writing this heartfelt apology, we also acknowledge Sir John Gladstone’s role in bringing indentured laborers to Guyana, and apologize for the clear and manifold injustices of this,” he said.

Ref 10 ‘A renowned 1823 slave revolt took place on his estate as Success Village on Guyana’s east coast. The so-called freedom rebellion was crushed in two days with hundreds of slaves killed. Some enslaved people were beheaded and had their heads planted on poles all the way to Georgetown, Guyana’s colonial and current capital, as a lesson to others with similar ideas.’

Ref 10 Outside the auditorium where Gladstone made the apology, a handful of protesters shouted “Murderers!” and held signs reading, “The Gladstones are murders” and “Stolen people, stolen dreams.”

Ref 10 ‘The leader of the protest, Cedric Castellow, dismissed the apology as “perfunctory” and said Britain and other European countries owe Guyana and the Caribbean billions of dollars in reparation payments.

The article says, ‘The protesters held placards that read: “Your guilt is real, Charlie. Move quickly to reparations now,” and “The Gladstones are murderers.”’

Conclusion

There have been massive crimes against many throughout history, which resulted in the destruction of many lives, along with their homes and nations. Although something should have already been done to improve the lives of many that have suffered because of the enslavement of their ancestors, as only touched on in this report, hopefully reparations will be given to improve their lives, but it's important to have your reparations in something tangible and not in digital dollars - just a number - where you can lose everything once again if and or when the world economy crashes during the 'Great Reset'.

Introduction

There are various types of scams and frauds taking place. Many are bank frauds. We've heard of the College Admission Scam.

Who is behind many frauds? How the rich and powerful are involved. So you think it's the average people that can barely pay their bills behind these crimes? Think again. There are countless small crimes and gun violence, but what about very big ones. Elizabeth Warren, United States Senator from Massachusetts (where all the criminal cases were led), told news media that the scandal (The College Admission Scandal) represented "**just one more example of how the rich and powerful know how to take care of their own**". Another article states, 'The punishment for Rick Singer, 62, is the longest sentence handed down in the sprawling scandal that embarrassed some of the nation's most prestigious universities **and put a spotlight on the secretive admissions system already seen as rigged in favor of the rich**'. It looks like the Mastermind, Rick Singer of age 62 was already wealthy from these frauds, but greed controlled him that he kept defrauding the system more until he was caught; the greedy gets greedier.

Many certainly do it because they have the connections. You scratch my back and I'll scratch yours.

In the way the Mastermind used the side door in the college admission scam to defraud the system, don't you think the same thing is happening in music, where the Mastermind and his accomplices are stealing our songs and going through the backdoor and the side door to make lots of money?

Imagine the plot by a mastermind and his accomplices to commit fraud, such as stealing songs and books, and breaking them into pieces and then having you used the stolen songs or rewrite the song and you get blamed for their fraud. Thus, no relatives, no friends, nobody will get my permission to use any of my songs and or books. Ask the mastermind for a song that they did not steal for you to sing, play and record and get a lawyer involved...Faisal Ally

This reports looks at grooming.

I - Cult - grooming of Indigenous girls

In the article ‘Dances With Woves’ actor accused of grooming Indigenous girls appears in North Las Vegas court by Katie Ann McCarver; Feb 3, 2023, states, ‘Former actor and alleged cult leader Nathan Chasing Horse made his first appearance in court on charges including sexually assaulting, trafficking and abusing Indigenous girls and women and women and instruction his “sister” wives to use suicide pills in the event of his death.

The “Dances With Woves” actor leads an alleged cult known as The Circle, which infamously practices unethical rituals, standards of living and beliefs, the report said.

ALLY'S SONGWRITING JOURNEY

AUGUST 9 TRADITION

ANNOYING ADVERTISEMENT APPEARED ON WWW.ALLYMEDIA.CA AS I LISTENED TO THE AUGUST 9 TRADITIONAL SONG VIDEOS

I was listening to and watching my August 9 traditional videos for 2023, and suddenly an annoying advertisement popped up on the www.allymedia.ca website which has never happened before. The advertisement was hand drawn, and had about 4 crooked hand draw buttons, and one of the buttons scratched out. The Ad said something like, 'Don't Scratch' or stop scratching. Great spelling I thought.

The next time I went on to the www.allymedia.ca website, as soon as I opened the website, an advertisement popped up immediately as the site came up, as if the Ad was hibernating for a few days and just waiting for me to open the website. This time it was not the hand drawn sketch. It was now designed using a computer software. See below on the picture on the right side for the advertisement. It basically says losers and to stop scratching. The first thing I thought of was that the parasites were on the website hunting for more songs and books...Fisal Ally.
