Maui Fire destruction

There are 80 sirens on Maui to warn residents of impending disasters like tsunamis, hurricanes and wildfires, yet none was activated to warn the citizens of the danger looming. *“There is no outside government officials taking care of us. They don’t care about us...”* Lahaina resident said.

Scams, Fraud & Grooming

Imagine the plot by a mastermind and his accomplices to commit fraud, such as stealing songs and books, and breaking it into pieces and then having you used the stolen songs and rewrite them and then have you framed for their crimes, while they bring in tens of millions for themselves. Thus, no relatives, friends, nobody will get my permission to use any of my songs and or books. Ask the mastermind for a song they did not steal for you to sing...Fisal Ally

Ally Production and or Faisal Ally/ Brian Ally do not do videos, write articles, books, or edit for anyone. In the past I have done some weddings videos and around 2010 completed a half an hour comedy episode and a mock up movie.

There is another company by a similar name, Ally Production that does movies; I have no connection to them. If any body tells you that I will write songs, books articles for others or gives audition, those are all made up fabricated lies and have nothing to do with me.

Anyone can have a copy or copies of my songs and books, however, if anyone tells you that you can sample my songs, books etc... for commercial use and rewrite to make it better according to your taste thinking it's better, those are again fabricated lies as part of a scam, as I have never signed a contract with anyone to sample any of my songs and books or to use any of my songs/music and books commercially. In this industry scams and tricks can be played on you and you can easily be mislead pulling you into a scam and or situations you will regret. Beware of people pulling you into their scams and having you take the blame for them! They will set you up, frame you and make you take all the blame, while they're on their beach getaway enjoying their paradise on earth, and they are well protected by a system that protects them, but scam people like my self for their gains and benefits. People on our email lists have been getting spams with the subject 'Ally Production(s); I never use this name in the subject line - those emails are not from me...F. Ally

We are witnessing much destruction as the Great Reset takes place. You will own nothing and you will be happy. The blaze that swept through Maui killed over 100 people, where the emergency siren was not set off to inform the people of the danger looming. There are more fires such as the ones in Kelowna, British Columbia and Washington. We are witnessing a New World Order taking over the world, where there's Order out of Chaos as the Great Reset takes place right before our eyes. Not only our lands across the nations are under fire, but so are the politicians and masterminds of frauds that are also being brought down.

Donald Trump is faced with 91 criminal charges. It was only months ago when more news on 'The College Admission Scandal' surfaced as the mastermind and where many were charged and sentenced. I certainly hope that one day the mastermind and his accomplices will be caught for the theft and the destruction of my songs and books. We also see a lot on slavery coming out with repatriations. I have been writing on slavery and indentured laborers for over 20 years now and more information continues to surface, but this time with the Scottish involvement in slavery. Recently, news surfaced on renaming Dundas Street in Toronto because of the link to slavery where the street was named after Henry Dundas who was also Scottish.

In the past, someone had asked for shorter magazines with just one main article because finding the time to read so many articles is almost impossible. This edition only has this short editorial, 7 pages of short Diverse News, a 2 page Diverse Report concerning the theft of my songs and books where it looks like relatives are now being pulled into the scam, and also a short article on my August 9 tradition music videos, and the rest are all picture from the Cariwest Parade and two pages of pictures from The Battlefords in Saskatchewan.

I plan to continue with a short monthly Diverse City Magazine with about 20 pages, which will be mainly on alternative News updates, and every third or fourth month I will do the big 100 pages magazine.

At time 3:24 into the video shows Steve Kirsch's newsletter that states: 'BREAKING: Early onset dementia is being caused by the COVID vaccine (approx. 25X increase). 'The medical community is never going to admit this and the mainstream media is never going to cover this, but I thought you should know. People who work in nursing homes are seeing a 25X increase' Steve Kirsch; August 10, 2023.

Diverse News: Lahaina Maui and Kelowna on fire

There have been many fires spreading across North America. About a month ago many fires went up in Canada where the smoke also engulfed New York, and where many witnessed the moon to be red due to smoke. The fires broke out on August 8, 2023 and hit Maui the hardest (Ref 4) where residents have stated that **'there were no warnings before the Hawaii wildfires, and there are still over 1,000 still missing.**

Maui is an island in Hawaii and Honolulu is the capital of Hawaii. Lahaina is in Maui. The fires that broke out in Hawaii, hit Maui the hardest, which caused major destruction and death to the people in Lahaina.

In the CBS video posted on August 17, 2023 (Ref 4) there were over 100 deaths and still over 1,000 people unaccounted for. The host of the video says, "defendant are defending their move to not activate the emergency warning sirens when the fire broke out." Jonathan Vigliotti asked Maui officials, "Do you regret not sounding the sirens?" The respond from an official was, 'I do not, and the reason why.... Vigliotti cuts and said, 'So many people said they could have been saved if they had time to escape had a siren gone off they would have known that there was crisis emerging and as we know so many bodies were found in the ground...' Someone interrupted Vigliotti cutting him off. The land has been destroyed. In the video, Elizabeth Campbell (CBS news reporter) said the people 'are coming home to just nothing'...the ground is just 'white ash...' So far about 40% of the area have been searched.

In another CBS video (Ref 5), **Maui works to recover from wildfires as death toll rises posted on Youtube on August 19, 2023** states: The death toll in Maui has risen to 114. Meanwhile, a resident criticized an official's decision to not sound emergency sirens as the flames spread.' The video states '60% of the area searched' now, and more than 1,000 people still unaccounted for.' This is 'the nation's deadliest wildfire in more than a century.'

The video states: 'On Maui alone, 80 sirens are in place design to warn residents of impending disasters like tsunamis, hurricanes and wildfires.' Here wildfires is mentioned, yet, there were no siren. During an interview at time 2:22 into the video, a Lahaina female resident said, '...the community, the Lahainu itself is taking care of one another. **THERE IS NO OUTSIDE GOVERNMENT OFFICIALS TAKING CARE OF US. THEY DON'T CARE ABOUT US. THEY DON'T CARE ABOUT OUR PEOPLE - THAT'S HOW I FEEL.'**

According to the video (Ref 22), the host says that some people are saying that these fires are unnatural the way they are burning in unusual ways, where somethings were burned and some in that same area where untouched, such as cars and houses burned down and trees untouched. At 53:10 into the video, a person from another video states:

‘What they (the government) don’t talk about is in January (of 2023) how they had in Maui a Smart City conference, to turn Maui into an entire Smart Island, changing everything into electric, renewables solar panels, and pushing everybody into electric vehicles, 15-Minute-Smart-Cities. So what’s also interesting is next months in September in Hawaii is hosting the digital government summit utilizing AI to govern the island. It’s almost like they are resetting something to start rebuilding for this in which they’re trying to push. Now when we look at all the climate change narrative they’re going to try to push but they’re not going to talk about the weather modification act of 1976. I highly recommend that everybody look into this ACT because who is involved in the weather modification activities? Department of agricultural, Depart of Defense, Department of Interior, EPA and NASA. So if they are modifying the weather, then could they have caused this event so if we see that the department of defense and other factions are responsible for modifying weather, well if we look at Direct Energy weapons, we can see how this was all relate to this event.’

Kelowna on fire

In the article ‘**B.C. orders fire-zone travel bans as evacuations soar**’ posted on Saturday, August 19, 2023 (Ref 6) states: ‘KELOWNA — British Columbia imposed bans on travel to wildfire zones on Saturday after evacuee numbers doubled to 30,000 or more, marking another day of dramatic developments in the province's desperate battle against hundreds of blazes.’

The article states, ‘West Kelowna fire chief Jason Brolund painted a vivid picture of what his fire crews were facing on Saturday, including multiple simultaneous house fires and a "street full" of homes ablaze.’ He said ‘the situation represented a reprieve compared to the pitched battles being fought the day before, something he described as "mind-boggling." ‘Evacuee numbers stood at 15,000 late Friday when Eby announced a province wide state of emergency in response to the fires.’

Washington State

In the ABC News article (Ref7), **Evacuations in place as 3 wildfires burn in eastern Washington state by Meredith Deliso published on Sat, August 19, 2023 at 5:13 p.m. MDT** says, ‘The fire spread rapidly after igniting on Friday amid high temperatures, authorities said. Hundreds of firefighters "engaged in a very active fire fight" overnight, Spokane County Fire Chief Cody Rohrbach said during a press briefing Saturday.’ ‘As of Saturday morning, 185 houses and outbuildings have burned in the fire, the Washington State Department of Natural Resources said, noting that there currently is "problematic weather" for firefighting.’ ‘....About 30 structures have been lost in the fire. Approximately 150 homes are threatened, with evacuations in place. Farther south, a wildfire outside the rural town of Winona in Whitman County has burned 5,000 acres and is 0% contained, the Washington State Department of Natural Resources said. ‘Evacuation orders are in place for the town of Winona -- approximately 40 to 50 people -- the agency said’ (Ref 7).

Diverse News: From the grapevine, full COVID-19 lockdowns, beginning with mask mandates are coming back as early as mid-Sept in the US, and in the middle of October 2023

In an article (Ref 19) called, Biden Regime to reinstate covid-19 restrictions beginning with mask mandate as “covid cases rise”, say TSA and Border Patrol Whistleblowers by Jim Hoft, Aug 18, 2023.

At time 2:25 into the video (ref 19) states: ‘The Biden regime is preparing to reinstate full COVID-19 lockdowns, beginning with masking mandates for TSA and airport employees reportedly as early as mid-September, Infowars first to report. A high-level TSA official reached out to infowars, detailing a Tuesday meeting where TSA managers were informed of new memorandums and policies that would re-implement mask-wearing.’ ‘The official added that by mid-October, mask-wearing will be mandated for pilots, flight staff, passengers, and all airport patrons.’

At time 19:24 into the video (ref 19) there’s an article called ‘New COVID fear Campaign for lockdowns, Boosters & Masks in the U.S and the UK by Patricia Harrity on August 20, 2023

In a past edition, covered the Tabletop Exercise known as ‘Catastrophic Contagion.’ At time 23:00 into the video (ref 19) shows information on the Tabletop Exercise ‘Catastrophic Contagion’ ‘This training tabletop exercise is based on a fictional scenario. The inputs experts used for modeling the potential impact were fictional. It is a teaching and training resource for public health and government officials.’ The meeting took place in Brussels, Belgium on October 23, 2022.’ It states ‘becoming a pandemic with a higher fatality rate than COVID-10 and proportionally affecting children and young people.’

Diverse News: CDC Data Shows Over 118,000 Children Died Suddenly After Injections!

In the video (Ref 20) called Shocking New Vax Data! - CDC Data Shows Over 118,000 Children Died Suddenly After Injections!’ exposes some of this information. At time :15 into the video shows, Natural News; ‘Child Killers: CDC data show over 118,000 U.S children died suddenly after covid jab rollout; August 14, 2023 by Lance D Johnson. The host of this video says, “These giant corporations knew this would happen. They knew because if you look at their own papers the data they tried to hide for 75 years; the stuff that came out in Israel and other places shows they knew this kind of stuff causes miscarriages, cause heart problems in children, and they purposely hid it in order to get approval from the health boards throughout the world. So just consider for a moment how truly evil this all is.

At time 1:14 into the video there’s an article called ‘Adolescents suffer HEART SCARS from Pfizer and Moderna mRNA vaccines, per cardiac MRI study; Natural News; August 14, 2023 by S.D Wells.

AT time 2:40 into the video (Ref 20) there’s an article that’s called ‘NO REMORSE: Pfizer says NO Australians were forced to take their vaccines, dismisses all harms caused by their experiments and mandates; published on August 14, 2023 by Lance D Johnson.’ The fact is people had no choice but to take the injections if they wanted to keep their jobs to pay their bills and feed their families.

At time 12:15 into the video (ref 20), the headline states: Government officials and compliant medical professional lied and destroyed thousands of young lives.’ ‘When the covid-19

pandemic was first announced, fears of hospitalization and mass death drove the CDC and state government to take drastic authoritarian action that drove many young people into isolation and mental illness. The government actions have played a central role in the destruction of lives and livelihood - causing higher rates of depressions, drug overdose, and suicide in youth. To make matters worse, the unnecessary and caused serious health problems, including but not limited to: myocarditis and pericarditis.' 'During the coercive mRNA vaccine rollout, government officials like Anthony Fauci and Rochelle Walensky pushed the jabs onto minors, even after evidence clearly showed that the shots are unnecessary and dangerous to young people.'

Diverse News: Renaming Dundas Street in Toronto

For many that have lived in Metro Toronto, like myself and others, we've all heard of Dundas Street and we know people that lives there. The area is very old and gives a nostalgic feeling. Many have passed by in buses or goes there to do some shopping. I have been writing on slavery on indentured labor for years now, and in the last Diverse City Magazine, I wrote about the Scottish involvement in slavery because some articles kept coming up on that topic. Once again I'm hearing about the Scottish involvement in slavery - but in a different light - and thus the street name Dundas in Toronto is under scrutiny and must come down.

The article '**Renaming Toronto's Dundas Street: An 'important first step' or wasteful expense?' posted on August 15, 2023 (Ref 2)** states that 'For some people, renaming Toronto's Dundas Street is a necessary step to confront the history of a city built in part by individuals connected to the British Empire's transatlantic slave trade.'

The article states, 'Dundas Street, which runs east-west through Toronto's south end, is named after Henry Dundas, 1st Viscount Melville, an active politician from 1770s to the early 1800s, when the British parliament was debating slavery abolition motions.'

History is not always written correctly, but bias, or from the ones that wants history to be known a certain way. "Newton said her research and the work of other historians has discovered otherwise. Some might think that's an abolitionist position but it was very much actually about securing the long-term future of slavery without human trafficking," Newton said, adding that the case supporting the street's renaming is clear'' (Ref 2).

According to Wikipedia (Ref 3) '**Henry Dundas, 1st Viscount Melville**, PC, FRSE (28 April 1742 – 28 May 1811), styled as **Lord Melville** from 1802, was the trusted lieutenant of British prime minister William Pitt and the most powerful politician in Scotland in the late 18th century.'

The article continues, 'As a political boss, Lord Dundas' deft and almost absolute power over Scottish politics during a long period in which no monarch visited the country led to him being nicknamed "King Harry the Ninth", the "Grand Manager of Scotland" (a play on the masonic office of Grand Master of Scotland), "The Uncrowned King of Scotland" and, recently (2012), "The Great Tyrant". He was, however, a controversial figure, as his Bill passes in 1792, for the gradual abolition of the British transatlantic slave trade over four years, **at a time when the leaders of the abolitionist movement sought an immediate end to the slave trade and the West Indian interests opposed any abolition at all. For this reason, Lord Dundas' appears in the film *Amazing Grace* as a major antagonist to abolitionist leader William Wilberforce.**' Wilberforce was born on August 24, 1759 England and died on July 29, 1833 in London.

Diverse News : Trump facing 91 criminal charges

The CBC video (Ref 11) states ‘Donald Trump has been indicted in Georgia on charges that he orchestrated a plot to overthrow the 2020 election results. The former U.S. president now faces 91 criminal charges across four different cases.’

In the article, **Trump criminal charges: Here are all 91 felony counts against the former president across 4 cases** by Dylan Stableford published on and updated Sat, August 19, 2023 at 4:57 p.m. MDT (Ref 12) states: Trump and all of his co-defendants — including his former lawyer Rudy Giuliani and White House chief of staff Mark Meadows — were charged by Fulton County District Attorney Fani Willis with violating Georgia’s RICO (Racketeer Influenced and Corrupt Organizations) Act, a statute that is often used against organized crime enterprises.’ The article states ‘What Trump is charged with’ ‘The former president has been charged with 13 criminal counts, including:’

- Violation of the Georgia RICO Act
- Solicitation of violation of oath by public officer
- Conspiracy to commit impersonating a public officer
- Solicitation of violation of oath by public officer
- Conspiracy to commit forgery in the first degree

- Conspiracy to commit filing false documents
- False statements and writings
- Filing false documents

According to the news article ‘Here’s how much Trump’s four indictments could cost him in fines if he’s convicted by Alison Durkee (Forbes Staff) published on August 18, 2023 states: ‘Former President Donald Trump has now been indicted on 91 federal and state charges following his most recent indictment in Fulton County, Georgia-felony charges that could land him in prison, but also force him to pay \$11.5 million if he were convicted of every crime against him and sentenced to the maximum fine (Ref 21).

Diverse News: Legend LeBron James 18-year-old son, Bronny James, suffered a heart attack during basketball practice

There’s a Youtube video (Ref 8), Bronny James Suffered Cardiac Arrest, Out Of ICU: Internet Users Infer Myocarditis, Covid Vax Blame, the host says, ‘Basket legend, LeBron James’ 18 year old son is currently hospitalized and is recovering from cardiac arrest, collapsing during a university of southern California team work out on Monday. Bronny James is currently out of the ICU and is in stable condition according to his family.’

In the video, ‘Elon Musk replied by a tweet on the incident.’ The tweet from July 25, 2023 said ‘we cannot ascribe everything to the vaccine, but, by the same token, we cannot ascribe nothing....Myocarditis is a known side-effect. The only question is whether it is rare or common.’

Elon Musk who came from a wealthy family and put in the position he is in, should know whether it’s rare or common because I certainly do. I can clearly tell you that I never heard of myocarditis before a year ago and about everyone I spoke to had no clue what it was, but after the roll out of the injections people began to hear more of it...F. Diverse News : Guyana oil auction delayed for the third time

The small South American nation of Guyana have once again delayed it's offshore oil auction which was set for August 15, 2023. This day came and went. Introduction

There are various types of scams and frauds taking place. In the last edition, I wrote about people being groomed and pulled into scams and frauds. I also looked closer at the mastermind of the college admission scandal, which was once again in the spotlight a few months back. I have also been writing about how my songs and books were stolen and how I'm being harassed. We've heard of people stealing songs and breaking them into pieces, and suddenly those samples are showing up all over the world in many songs. The same thing happened to my songs and books, even though I've had many professional players on the recordings where my recordings are on a medium and handed out to the public and thus copyright protected, and where two of my songs were also played on the radio, but the masterminds do not care because by the time they are caught they'll be millions richer and on their paradise island getaway, while others gets blamed for their crimes.

Who is behind many frauds? How the rich and powerful are involved

So you think it's the average people that can barely pay their bills behind these crimes? Think again. Elizabeth Warren, United States Senator from Massachusetts (where all the criminal cases were led), told news media that the scandal (The College Admission Scandal) represented "**just one more example of how the rich and powerful know how to take care of their own**". Another article states, 'The punishment for Rick Singer, 62, is the longest sentence handed down in the sprawling scandal that embarrassed some of the nation's most prestigious universities **and put a spotlight on the secretive admissions system already seen as rigged in favor of the rich**'. It looks like the Mastermind, Rick Singer of age 62 was already wealthy from these frauds, but greed controlled him that he kept defrauding the system more until he was caught; the greedy gets greedier.

In the way the Mastermind used the side door in the college admission scam to defraud the system, don't you think the same thing is happening in music, where the Masterminds are stealing our songs and going through the backdoor and the side door to make lots of money?

People that gets pulled into a scam and groomed

It's easy to get pulled into scams because many people are gullible, and the scammers use smooth talk and they also know how to lie, cheat and steal. In the last edition I asked, are you being groomed by a handler or mastermind, or even a friend or a best friend to steal someone's songs, music, books and or other possessions? Did someone befriend you? Have someone told you that you will be a star if you sing a song, or use a part of a song or modify a part of this song, but that song belongs to someone else? Thus it's important to always ask the masterminds and their accomplices for a song, book etc...which they have not stole and have them commit by drawing up a contract your lawyer and witnesses.

What if the mastermind you are collaborating with is setting you up to take the blame? What if you are being framed? You will not know this until the law catches up with you.

Have they pulled my close relatives into their music scam? Relatives are now telling me "You can't sing" and I wonder why all of a sudden?

At the end of April, two relatives said something similar to 'You can't sing.' And I suspect alternative motives based on how it was said. And recently, over the past two weeks, two more relatives indicated the same, although the words differ. That is very strange because I also suspect alternative motives. They've listened to my songs before, along with cover tunes, and never once gave a negative feedback. But all of a sudden the tide has changed? Why now? This rings a bell because my relatives are not the first to indicate this. About two years ago, one of my friends said something similar and I suspect he was pulled into the music scam. In the past, I have warned many that my music is being stolen and are being used in the mainstream for some of the biggest stars.

They are now telling me that I can't sing. But can they sing? Can they sing like Elvis, Freddie Mercury, Celine Dion etc...? When two of my songs were played on the radio years ago, do you think I was dancing on the radio? Of course not, I was singing on the radio and many heard it, and nobody was trying to hide my singing. And so what if I can't sing? What's it to you? My songs have nothing to do with you, unless the Mastermind and or his accomplice have pulled you into the music scam for you to scam my songs and turn it over the ones they have stolen legally to them.

Why the mastermind have to make sure I don't sing my songs

The Mastermind certainly does not want me to be heard on the mainstream singing. I'm an independent artist. But if I played and sang my songs in the mainstream, then everyone will know that I wrote those songs and the masterminds would be exposed immediately. Thus I believe the words "you can't sing" was planted by them to discourage me. Will they get my approval for them to steal my songs? Of course not. I believe that this indicates that the mastermind and or his accomplices have contacted my relatives and are making deals and promises as long as my relatives can turn over all of my songs and books to them which would set the mastermind and their accomplices free.

I'm certain that some like the offer of singing in the mainstream thinking they will be a star/fame. If you are told you will be a star, but you have to sing my songs or rewrite my songs, then good luck. Some are willing to participate if they know their family will prosper or they are given paradise, or jobs etc... They will quickly forget their values, morals and responsibilities to others and become selfish.

What if I say to my relatives or someone that you have a big empty house, can I take half of it and let the poor live in it because it's just sitting there and wasting space? What if I say to them you have a vehicle sitting around can you loan it to a poor man during the day or night when it's not being used so this person can go to work and earn a living or even use it as a hire car? Most likely they will get upset because I'm infringing on them. So why do they think they have a right to tell me what to do with my songs and books?

Are relatives now pulled into the music scam? And if so then who contacted my relatives to use my songs and why? And what's that contact getting in return?

Obviously if the mastermind stole my songs and books and are making tens of millions they cannot sleep at night so they have to track my every move and everyone I'm connected to as they come up with more schemes. Why would relatives allow themselves to get involved with such people? Perhaps they were promised monetary benefits whether through business, or other promises such as getting them through the back door into a college and sports like in the college admission scams etc...

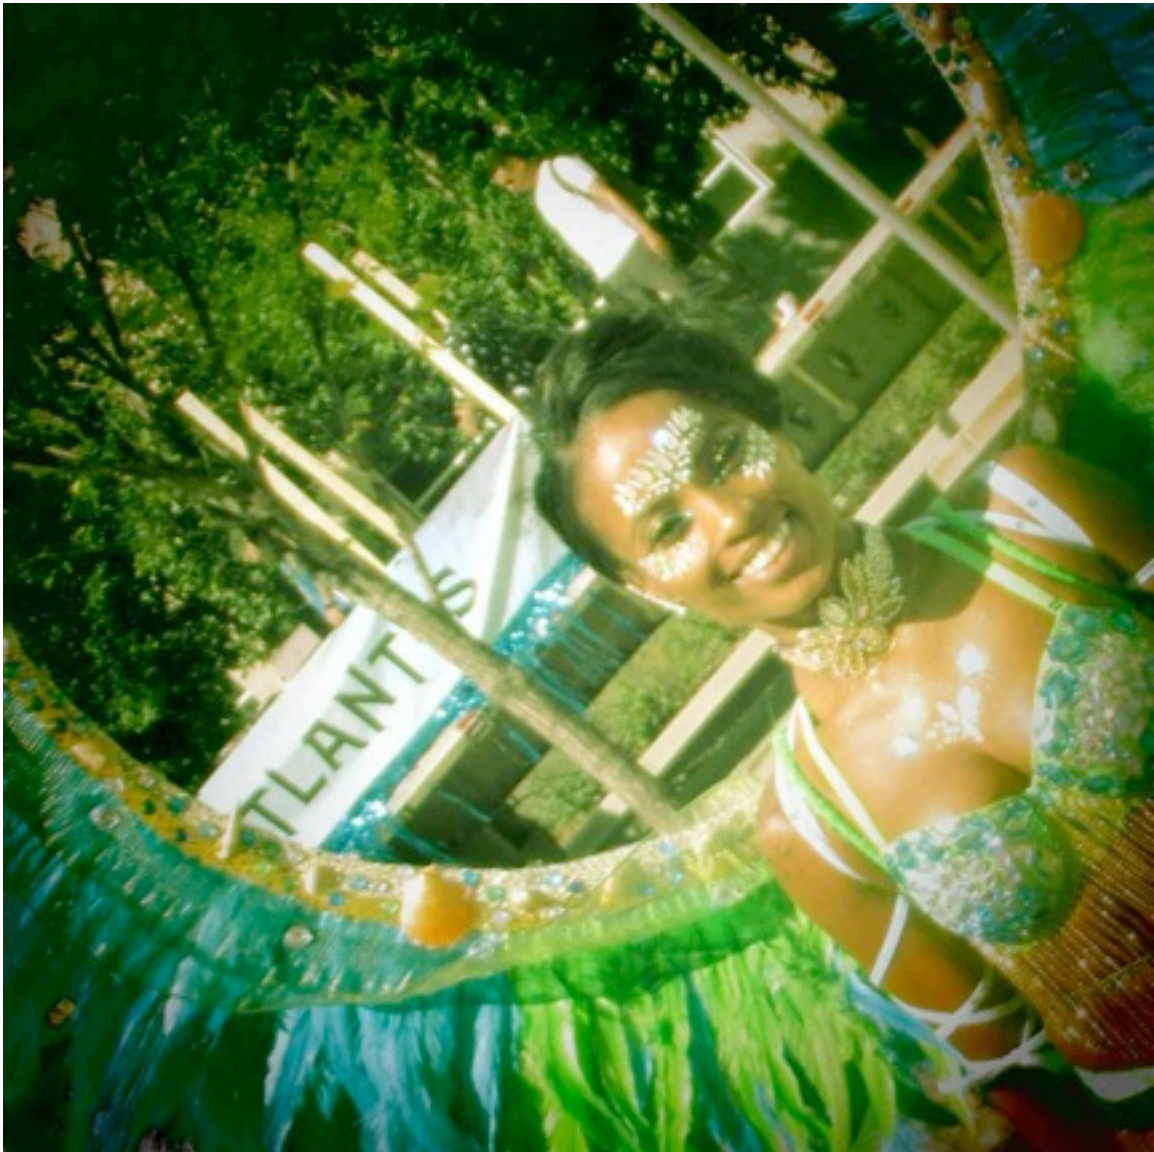

Do they actually think that I would let them harass me into giving up my songs and books? Of course not. It's going to be a rough ride for them.

What goes on in a studio to fix vocals?

Very often in a studio, the vocals are tweaked and reverb and other effects are added to bring out the vocals. The singers often have people guiding them and producing their vocals. Very often parts of vocals are sung over and over until they get it right. I don't do any of that, but if I'm in a professional studio and the cost is covered then they can certainly do the same vocal fixes for me until I get it right. Most people I know with great vocals have gotten nowhere in music because it's not that easy to get into the business, unless maybe someone has a scheme. Bob Dylan does not have a good voice, but yet he is one of the most popular musicians because he is an artist and wrote his songs for himself. Can his voice be compared to Freddy Mercury, Elvis etc... Not even close, but still he is one of the greatest!

ALLY'S SONGWRITING JOURNEY

AUGUST 9 TRADITION

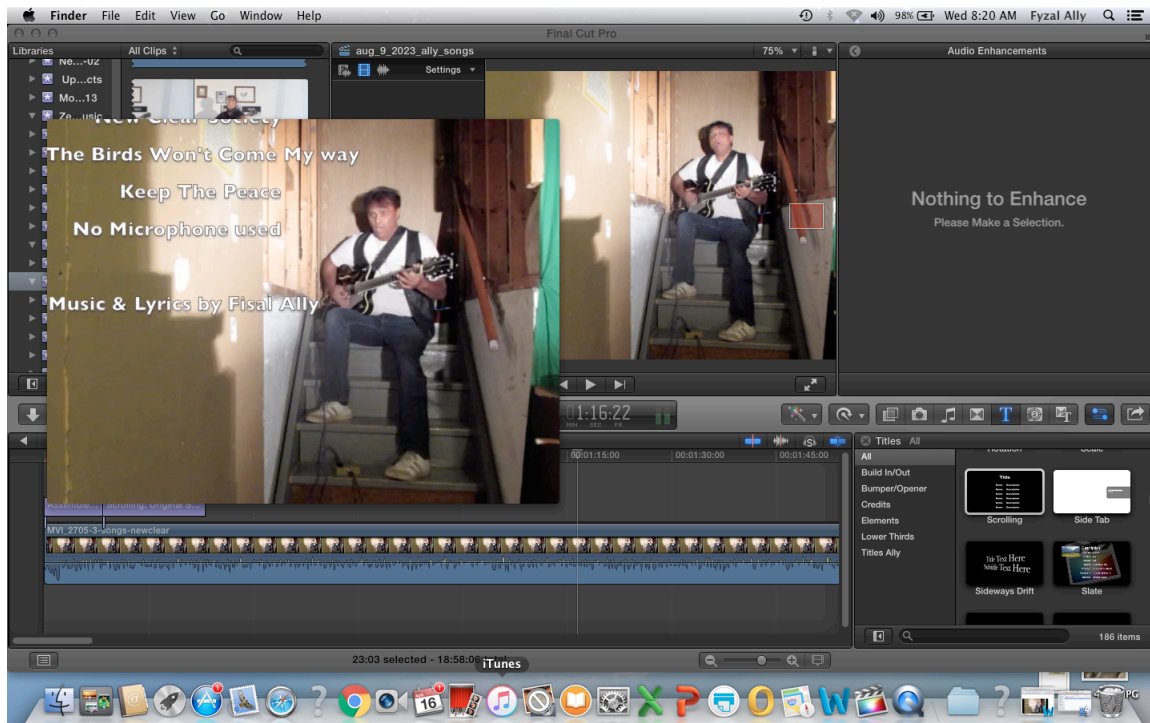

I still have my army jacket from my teenage days - tight but still fits. That means that I need to lose 10 pounds.

August 9 tradition - Video taping my original songs

Over the years, I would set up a small camera and videotape my original tunes and also cover tunes. I have probably made about 100 videos. Recently, I would also just pick up an old acoustic guitar, turn on the camera and start to sing some of my songs. And when I watch the video and see my cat, Furrari, in the videos, that makes me very happy.

Using Final Cut Pro for editing

I think I paid about \$100 for the Final Cut software, which I use for editing on my laptop which I would take to coffee shops to do some editing. I also have a home studio, basically a computer with a Cubase software, 2 speakers, and an interface box. This makes life easier. In the old days, all I had were old tape decks and I would try bouncing tracks from one tape deck to another, and would end up with a lot of noise.

Using Final Cut. Added some titles to the six songs I did on August 9, 2023.

Editing out a part of the track because I had forgotten the intro lyrics, so I removed that part.

Using distortion box

I still have my distortion box and other boxes from my teenage days. I believe one or two belongs to my good friend, James. During this August 9, 2023 Tradition of playing with some quick videos, after the first song, 'No Perfect Man', I pressed the button on the distortion box as I began 'Wide Eyed Innocent'.

The August 9 tradition videos of six songs were uploaded to www.allymedia.ca
