A Kiss Goodnight

Music and Lyrics by Faisal Ally, Copyright 1990s

Everyone wants someone to hold them tight and make things right
Everyone wants some one to kiss goodnight

Everyone needs a friend, they can count on to be around
Everyone wants someone to kiss goodnight

A kiss goodbye in the morning, to hold you tight in the evening
Everyone wants someone to kiss goodnight

With some tender love and tenderness, a hug and a kiss goodnight

When the night gets too cold, it's good to know that someone cares
Everyone wants some one to say goodnight

With some tender love and tenderness, a hug and a kiss goodnight

Everyone needs someone to lean on, when life gets them down
Everyone wants someone to show they care

Everyone needs a friend they can count on to be a round
Everyone wants someone to be their valentines

A kiss goodbye in the morning, to hold you tight in the evening
Everyone wants someone to say goodnight

With a kiss goodnight
A kiss goodnight
A kiss goodnight

Action Speaks

Music and Lyrics by Faisal Ally, Copyright 2008-2011

Living it up on a Friday night, Saturday night and Sunday night too
Having a ball, he's got it all, a drink in his hand, a cigarette in his mouth
He takes it to the streets, and gambles it away
Forget about the bills, having his thrills
He tosses the dice and turns the other cheek
A smile on his face, money in his hands
He takes it to the limit, he gotta get rich
He wants it overnight, he's losing control
Playing his cards, gotta hit it big
He plays all night, till his pocket runs dry

Action speaks, louder than words, Action speaks words are cheap

He gets up in the morning, looks in the mirror
Hides his face, he can't face himself
His savings all gone, now feeling like a fool
Saying I'm sorry, just doesn't count

Action speaks louder than words
Action speaks words are cheap

He throws it all away, yes he throws it all away
Doesn't appreciate it, he doesn't know what he's got until it's too late

Now everyone's gone, his wife and children, what can he say, but it just doesn't pay
Life's too precious and love's hard to find,
when you have it all you must show you really care

Action speaks louder than words
Action speaks words are cheap
Action speaks louder than words
Action speaks words are cheap

All He Wanna Do

Music and Lyrics by Faisal Ally, Copyright 2008-2011

Don't care to make a name, forget about the fame, all he wanna do is play
Don't care to be a star, the world's a stage, he's already on another page
Just keep the backbeat going, he's ready to play, sit back and let the show unfold
People likes his style, they could fell his vibes, he's gonna to play a tune for you

Just wanna rock n'roll, from his heart and from his soul
Just wanna play guitar, he don't really care to be a star
He just wanna rock and roll

People play for fame and money too, all he wanna do is play

Now he's growing old, music in his soul, he'll play till he's seventy years old
Rock and roll, from his heart and soul
All he wanna do is play
All he wanna do is play
All he wanna do is play
All he wanna do is play

Baby I love you

Music and Lyrics by Faisal Ally, Copyright 1990s

If I had to do it all again, I would start all over with you
My memory always bring you back, I can never let it go

Sometimes I just drift away, holding you closer each day
I tried and tried to say, baby I love you

Babe, I can't help the way I feel for you, It's hard to express these feelings in words
Not even words can say, how this love gets stronger each day
I tried and tried to say, baby I love you

Sometimes I close my eyes, all I see is your smiles
Sometimes I drift away, get lost in your love
I've thirst and hunger for you love, baby I love you
I've thirst and hunger for you love, baby I love you

If I could have a second chance, it's like the déjà vu I had before
And dreams become reality, I'll never let you go

I wanna be closer to you, like the summer of 72
When we stole the night away, baby I love you

Sometimes I close my eyes, all I see is your smiles
Sometimes I drift away, get lost in your love
Sometimes I close my eyes, all I see is your smiles
Sometimes I drift away, get lost in your love
I've thirst and hunger for you love, baby I love you

This song has two versions. The first is "Baby I love you" and the other is called "Sometimes."

Blue Caribbean Sea

Music and Lyrics by Faisal Ally, Copyright 1990s

We had the times of our lives, in the blue Caribbean Sea
We had good times to celebrate, down in Montego Bay

Take me home lala yeah, oh love sweet love
Take me home to my love, to the Blue Caribbean Sea

We had some fun in the sun, sailing out to the Sea, and checking out the Keys
Well, there's nothing like the weather, in the Blue Caribbean Sea

Next year we'll be here again, checking out Port of Spain
I'll spend my life on the beach, on the waves and out of reach

Water skiing in the Sea, take a trip to a deserted place
Take a walk on the beach, in the warm Aruba Night

Laaaalalalaaaala Laaaaalalalaaaaa, Lalalalala Lalalalaaaaa Lalalalalaaaaaa,
Lalalalalaaaaaa

There's nothing like the people, living in the Blue Caribbean Sea
Take me home, oh yeah, oh love sweet love
Take me home to my love, To the Blue Caribbean Sea
The Blue Caribbean Sea, The Blue Caribbean Sea

Candle That Burns

Music and Lyrics by Faisal Ally, Copyright 1990s

You are, you are my life
You are my, my preciousness
I give, oh I give my heart, to you forever more

You give, you give me strength
And you, oh you showed me the way
You were there, oh you were there, till the end

My life, was just, was just emptiness
Waiting to be filled by your love

Oh, Candle that burns, burns till the end of time
Forever, this love will last, our love will last

Oh when you hurt, I always feel, oh I always feel your pain
Deep inside, deep inside, I wanna comfort you

My heart, is not, not like a candle
That burns for the night

And my love, oh is not, not like a candle
That dies in the middle of the night

Oh, Candle that burns, burns till the end of time
Forever, o forever, this love will last, our love will last

(Spoken) I get excited when you are near, like the first time I looked into your eyes This
love could only die if you blow out the candle

You open, you open my eyes, oh you opened my eyes
You light up, you light up my life
You took me by, you took me by your wings
And showed me the light

My heart, is not, not like a candle
That burns for a night
And my love, oh is not, not like a candle
That dies in the middle of the night

Candle that burns, Candle that burns, Candle that burns, Candle that burns

Christmas (version 1)

Music and Lyrics by Faisal Ally, Copyright 1990s

Put up a tree, turn on the lights, there's magic tonight
Have a merry little Christmas, and a happy new year

All the best and success
All the good things life brings
Follow your passion, with a New Year resolution
Put up a tree, turn on the lights

I'll always remember, Christmas day
Those moments we share and treasure, the things we do together

Taking rides on Santa's sleight
To see the lights on Candy Cane Lane
Smile with me, Shout with glee
Put up a tree, turn on the lights

Christmas day we celebrate our love, On Christmas day we celebrate

Light up my life, light up the world, lets celebrate
It's the love we share, the love that gets, so high and higher

All the best and success
All the good things life brings
Sing a song and clap along, here we go under the mistletoe
Smile with me, shout with glee, put up a tree turn on the lights

On Christmas we celebrate our love, On Christmas day we celebrate
Christmas day we celebrate our love, Christmas day we celebrate

City that never sleeps (Manhattan)
Music and Lyrics by Faisal Ally, Copyright 2008-2011

Listening to Jazz music, over the radio, in a café, checking out the scenes
A lady walking down Broadway, smoking a cigarette, a man in purple shades
Hey there, hello man, God bless ya, a preacher preaching in the train
Strolling down the Avenue of the Americas, pretty ladies everywhere

All the hustle and bustle in the big apple, Manhattan Island has got it all
People from everywhere around the world, everybody wanna see

City that never sleeps, where every wanna be
City that never sleeps, everybody wanna see

Take a trip down to Central Park, checking out strawberry fields
Let me take you down to 7th avenue, people shopping everywhere

Look up in the sky, the Empire state building, and bridges run for miles and miles

What a sight to see, the statue of liberty, freedom in people's eyes

Take a trip down to queens, graffiti on the streets
Spend the day at Jones Beach, with Tyler, Shane and Rose
Drove around New York City, with Tony, Saud and Steve

Your name can be in neon lights, in the city that rocks all night

City that rocks all night, everybody hanging out
City that's alive all night, where everybody wanna be
City that rocks all night, everybody's hanging out
City that's alive all night, where everybody wanna be
City that rocks all night, where people never sleeps

In the City that never sleeps, that's where everybody wanna be
City that never sleeps, everybody wanna see
City that never sleeps, where everybody wanna be

Music and Lyrics by Faisal Ally, Copyright 1990s

These feelings inside, I just can't hide

Gia Carangi (the super model)
Music and Lyrics by Faisal Ally, Copyright 1990s

You had that spark and desire to shine
You made the scenes in the fashion magazines
You became a hero and a super model
From the cover of vogue to the cover of cosmo

You paint the stage, your picture on every page
Like paintings by Picasso, you're perfect in every photo

Someone so beautiful and is in so much pain
You're looking for love and living in a dream

Gia, I think I understand
Gia, I see it in your eyes
How lonely someone so beautiful can be

You'll win it all or you'll lose it all
There's no in between for the fashion magazines
Your escape from reality couldn't set you free
Did anybody listen to what she's been trying to say

Gia, there has to be a better way
Gia, for easing all the pain
The fragrance of yellow roses made you feel so much better

And in the end, You cried a lonely tear

Someone so beautiful in so much pain
The fragrance of yellow roses made you feel so much better

Gia, You don't have to run anymore

Heaven and Hell

Music and Lyrics by Faisal Ally, Copyright 2008-2011

I know there's magic in this world, peace and harmony
When you tune in, it comes naturally, and it's there in your heart

There's paradise where the earth meets the sky, the beauty of sunrise
From the valleys to the mountain peaks, it's the place I call home

There are secrets of heaven and earth, only he knows (reveals)
The time will come for every soul, when angels take us home

Sometimes I think it's hell on earth, people can be so cruel
Warring and fighting for the riches on the earth, creating hell on earth

There are gardens beneath where river flows, and blue roses grow
Take me on your wings, where the symphony always play

There are fountains where clear water flows and heavenly eyes see
Where the snow melts in my hands, and beneath me river flows

There are secrets of heaven and earth, only he knows
The time will come for every soul, when angels take us home

Sometimes I think it's hell on earth, people can be so cruel
Warring and fighting for the riches on the earth, creating hell on earth

Hope You Never Will

Music and Lyrics by Faisal Ally, Copyright 1990s

You can stop the rain from falling
You can stop the sun from shining
You can stop this love can growing
You can stop the wind from blowing
You can stop the river from flowing
You can stop this love can growing

But I hope you never will
And I hope you never will

I feel so blue when I can't see your face
What will I do without your love
I want to see you smile everyday
What will I do if your love disappears

But I hope it never will
And I hope it never will

You can stop the earth from moving
You can stop the moon from glowing
You can stop this love from growing

But I hope you never will
And I hope you never will

I feel so blue when I can't see your face
What will I do without your love I want to see you smile everyday
What will I do if your love disappears

And I hope it never will, And I hope it never will

I'm Running

Music and Lyrics by Faisal Ally, Copyright 1990s

I'm running, running from myself
Don't know where I'm heading, or who I'm running to

I'm breaking out, wow set me free
If I return then it's meant to be

But I'm going where the wind takes me
Only heaven knows what's my destiny

Now I'm busting out, I'm a prisoner of life
Got to get away from these balls and chain

I'm running, yes I'm running, I'm running, yes I'm running

In A Special Way

Music and Lyrics by Faisal Ally, Copyright 2008-2011

You touched my heart, In a special way
Words can't say, what I feel inside

These feelings inside, will never die
Cause every breath I take, takes me closer to you

Then you walked into my life, you took away the rainy days
The wind and the cold, you put a smile on my face

In my life, I've seen ups and downs, and high and lows
Now I see how love can grow, cause it's everywhere

Since you entered my world, you opened up my heart
When I look into your eyes, I see the light

Everyday, I get out of bed, and I show gratitude

I thank you everyday for the love you give
You've given me all the love that I need to have
To carry on, in a special way

Oh life is short, now I find the time
And I got no excuse, I wanna be with you

Oh life is short, now I find the time
And I got no excuse, I wanna be with you

You touched my heart, every single day
Words can't say, how I feel inside
You touched my heart, in a special way
Word's can't say, what I feel inside
You touched my heart, in a special way, in a special way, in a special way

Innocent Lies

Music and Lyrics by Faisal Ally, Copyright 2008-2011

You telling me your innocent lies, you played me for a fool
The things you say and do, can really me blue

I can see it in your eyes, I hear it in your voice
The way you look at me, just looking through my eyes

You'll be begging me to take you back, someday you will learn
By then it'll be too late, superficial love never lasts

Can you walk that walk, can you talk that talk
You telling me your lies, your innocent lies

Can you walk that walk, can you talk that talk
You telling me your lies, your innocent lies

InSENSITIVE

Music and Lyrics by Faisal Ally, Copyright 1990s

Living my life just one day at a time
Days so long, nights so cold

Yesterday gone and I need you more now
Nights are cold, time slips away

You don't know what you've got until it's gone
The grass is always greener on the other side
Today I love you more than I did before
And tomorrow I won't be insensitive

Time go by and the rain starts to fall I close my eyes and I slip away

Insensitive, I'm sorry I was I was insensitive I'm sorry I was

Lead

And tomorrow I won't be insensitive

If you come back to me, things will be differently
I promise you my heart and I give you my soul

If you come back to me, I will be differently
I'll give you all my love and we'll never part

You don't know what you've got until it's gone
The grass is always greener on the other side
Today I love you more than I did before
And tomorrow I won't be insensitive

Insensitive, I'm sorry I was, I was insensitive I'm sorry I was

And tomorrow I won't be insensitive
Oh, from now on I won't be insensitive

Keep the Peace

Music and Lyrics by Faisal Ally, Copyright 1990s

When I think of those better days
Holding hands and singing a song
When we listened to each other
Reaching out across the sky

Make this Earth a better home
For all lives under the sun
On the land or in the sea
And up above the earth

You say you're white black, whatever color
It should never be about the color of a person's skin
Lend a hand and you will understand
The meanings of Love

And if you're rich poor or in-between
You shouldn't judge anyone by what you see
If you look deep down inside
You will find peace of mind

Peace Let's keep the peace
Keep the peace for everyone
Every country across the seas
Sharing love in the world

Put an end to all the wars
Yesterday today and for tomorrow
If you search for the answers
You will find peace of mind

It shouldn't matter what you are
Your religion class color or your race
Walk together and not against each other
Let's live in harmony

Peace, let's keep the peace
Keep the peace for everyone
Every nation across the land
Sharing life on this earth
Let's forgive and learn to compromise
Ease the pain sorrows and no more hunger
And the children will have some peace
In this land we call free

Can you imagine a world that is one
There's no limit to what we can do
Reach out for another
And have a change in heart

Peace Let's keep the peace
Keep the peace for every one
Every country across the seas
Sharing love in the world

Peace Let's keep the peace
Keep the peace for everyone
Every nation across the land
Sharing life on this Earth

Peace Let's the peace
Let's Keep the peace
Keep the peace for Everyone

Keep Mae Fire Burning

Music and Lyrics by Faisal Ally, Copyright 1990s

A friend of mine, he got no relations
I try to tell him, just take some action

He was in love once or twice, the first infatuation, the second didn't last
I said a thing or two about love, I've been there before

A very good friend of mine, super star Bob Marley
Now singing in the midnight hours, he sand about love

Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love

How to keep mae fire burning, how to keep mae fire burning
How to keep mae fire burning, how to keep mae fire burning

When the firework stops what will keep the fire burning
Only you have the power to keep it growing

Takes a lot of love and sweet sugar loving
Pour a bit of honey on the bread
To keep mae fire burning, to keep mae fire burning
To keep mae fire burning, to keep mae fire burning

Who can stop you from lovin, only you know the answer
All good things must come to an end, love will last if you got a good friend

What will keep mae fire burning, what will keep mae fire burning
What will keep mae fire burning, what will keep mae fire burning

Keep it hot, till it makes you sweat
Don't go cold, don't get old, so keep it hot

Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love

How to keep mae fire burning, how to keep mae fire burning
How to keep mae fire burning, how to keep mae fire burning

Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love

How to keep mae fire burning, how to keep mae fire burning
How to keep mae fire burning, how to keep mae fire burning

To keep mae fire burning, to keep mae fire burning
To keep mae fire burning, to keep mae fire burning
To keep mae fire burning, to keep mae fire burning
To keep mae fire burning, to keep mae fire burning

How to stop mae fire from outing, how to keep mae fire burning
How to stop mae fire from outing, how to keep mae fire burning

Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love
Tell em Marley, tell em brother, tell em bout love

Little Magic Wand

Music and Lyrics by Faisal Ally, Copyright 1990s

My mother told me, look once but don't look twice
That girl's got the devil in her heart

My father said son, your mother's right
But you're a man, and you've got your rights

I took a chance, looking for romance, but she left me in a trance

The doctor said patient, you're not sick, you're just in a love trance
Well the preacher said son, you didn't sin, but something's gotta hold on your soul
Yes I took a chance, looking for romance, but she left me in a trance

She laid a spell on me
For the rest of my life
She's got a hold on me
With her little magic wand

Well that's all right, cause I don't mind
That's the kind of gal I've been looking for

Well she's out of sight and she's out of mind
My heart burns like a flame, well whose to blame

She laid a spell on me
For the rest of my life
She's got a hold on me
With her little magic wand

Little Magic Wand (repeat and fade)

Lisa

Music and Lyrics by Faisal Ally, Copyright 1990s

Oooooo baby, ooo baby, Lisa

Lisa, Lisa baby I love you, I love you forever

Baby, you know my heart is true

I love you, love you baby, forever, till the end of time now

Baby, you're my destiny

Lisa, where are you now baby, I'm all alone

Well Lisa, I'll sit and wait on you

But Lisa, I hear your name from friends around

Why won't you call me, baby, you're my destiny

When I hear that telephone, I always pray it's you

But it's always for someone else

Tell me baby, when will you be mine

Tell me, when will you be

Maybe, someday I'll see you again I know it was written in the stars above

That someday will come

Lisa, I love you baby, forever, till the end of time now

Baby, you're my destiny

When I hear that telephone, I always hope it's you

But it's always for someone else

Tell me baby, when will you come around

Tell me baby, when will you be

Maybe, someday I'll see you again I know it was written in the stars above

That someday will come

I love you, love you baby, forever, till the end of time now

Baby, you're my destiny

Oh baby, you're my destiny

Oooooo baby, ooo baby, Lisa

Love Has No Religion

Music and Lyrics by Faisal Ally, Copyright 1990s

Two lonely people, living in a world apart
Too many times, we close our eyes and turn away, from what we're afraid of

Someday you'll see, someday you'll understand why love has no religion

The world gets too cold, everybody wants control, but we're coming together

Someday will be, someday you'll understand why love has no color
Listen to your heart, look deep inside you'll find an answer

Listen to your soul, look within yourself, you'll find paradise

Two lonely hearts, living in a world apart, are coming together
Listen to your heart, look deep inside you'll find an answer
Listen to your soul, look within yourself that's where you'll find paradise

Love has no color
Love has no religion
Love has no color
Love has no religion

Love is strong

Music and Lyrics by Faisal Ally, Copyright 1990s

Love is strong, love can last
Hey, it's gonna be alright tonight
Cause the night is fine, you'll feel alright

Hey it's gonna be right tonight
Cause love is strong, you'll be alright

Love is strong, love can last

Slow down, you got all night
The night is fine, you'll be alright
Love is strong, love can last

Hey, it's gonna be alright tonight
Cause the night is fine, you'll feel alright
Hey, it's gonna be right tonight, cause love is strong, you'll be alright

Love is strong, love is right, love is strong, love will last

Missing you going crazy
Music and Lyrics by Faisal Ally, Copyright 1990s

Rainy days makes me reminisce
I drift away to a world that I miss

If I could give my love again
I promise you a love you cannot refuse

My love for you is beyond control
I give you my heart, I give you my soul

Sunny days makes me sad and blue
All I do is go crazy for you

My love is true, still waiting for you
Right from the start, I give you my heart

Why don't you set me free, I'm missing you going crazy

Set me free baby, why don't you set me free baby
Set me free baby, why don't you set me free
I'm missing you going crazy, crazy, crazy, crazy, crazy

Free me now baby, free me, free me now
Free me now baby, free me now baby, free me now
Free me now baby, free me, free me now
Free me now baby, free me now baby, free me now

I can't live without you babe, come on now set me free
I can't live without you babe, come on now set me free

I'm missing you going crazy, missing you going, crazy crazy
I'm missing you going crazy, missing you going, crazy crazy

Free me now baby, free me, free me now
Free me now baby free me, free me now baby, free me now
Free me now baby, free me, free me now
Free me now baby free me, free me now baby, free me now
Free me now baby, free me, free me now
Free me now baby free me, free me now baby, free me now

Modern Day Gypsy

Music and Lyrics by Faisal Ally, Copyright 1990s

Hey! Hey! Hey! (Music) Hey! Hey! Hey! Hey! Hey!

As I walked along the boardwalk, listen to what I said to her
I promise you, the earth, the moon and the sky I promise you, a love that'll last forever

If I ever play a part of a fool, and the stage I'm on is not the one you're on
Believe in me, that's all I ask of you

If you think I'm wrong and never right, see it my way, I'll see it yours
Have faith in me, that's all I ask of you

Before I let you know, how I feel about you
I think you ought to listen as my story unfolds
Before I die and go, I hope this gate will open
If I had some wings I would fly fly fly

I ah ah ah ahaa, ah ha ha ah ahhhhh (Music)

Then I held her hand in mine, as we listen to the ocean breeze
I'll be your friend, you can be who you wanna be
I'll roam with you, today, tomorrow and forever

(Music) Hey! Hey! Hey! Hey!

If I ever play a joke on you, you should know that the joke is really on me
Have faith in me, that's all I ask of you

Cause sometimes, I may act like a clown, cause I'm feeling down
Believe in me, that's all I ask of you

Before I let you know how I feel about you
I think you ought to listen as my story unfolds
Before I die and go, oh oh oh oh, as I walk

Then I held her hand in mine, as we listen to the ocean breeze
I'll be your friend, you can be who you wanna be
I'll roam with you, today, tomorrow and forever

(Music) Hey! (Music) Hey! Hey! Hey! Hey!

My Home

Music and Lyrics by Faisal Ally, Copyright 2008-2011

My home, I remember this place I have grown
Walking in the park and throwing stones

Sometimes, it seems so far away
We've done our best to get this far
Now my memories are fading
They're buried deep I know

Yesterday, it's far away, its been so long
Since I've seen people places and things that captured my heart

Give me wings to fly back home
Give me strength to carry on
Windows of the past, thank you
I'm still walking in the park and throwing stones

Yesterday, it's far away it is gone
We're doing what we can to carry on
Now my memories are fading
They're buried deep I know

My home, I remember this place I have grown
Walking in the park and throwing stones

Give me wings to fly back home
Give me strength to carry on
Windows of the past, thank you
I'm still walking in the park and throwing stones

Windows of the past
My home, Thank you

New Clear Society

Music and Lyrics by Faisal Ally, Copyright 1990s

The destruction of the world was foretold
Greed and evil will lead us to Armageddon, the last battleground
The aids epidemic is plaguing the world
Nostradamus predicted worldwide disasters

Get you act together now, get you act together now
Get you act together now, let's act together now

D-day – 1944, two atomic bombs dropped on Hiroshima and Nagasaki in 1945
On Dooms day the sky will be on fire

Is this our fate, to live in this destructive age
It's what man has create, fantasizing he's so great

People likes to imitate, some likes to dictate
Making a mess with nuclear waste, destroy the world and causing hate

Polluted seas, polluted skies, drug abuse is on the rise
Open the gates it's getting late, join hands everybody

Sit relax and meditate, sip you tea and communicate
The sky is red, I'm feeling blue, smog clouding up my head

We want a New Clear Society
New Clear Society, New Clear Society
Don't want a nuclear society

We're living in a destructive world
Do we really know what we're heading for
Some preaching, drop the nuclear bombs
The people says to get rid of the bombs

Children are dying from hunger and disease
People doing what ever they please Drug abuse and aids are out of control
You better watch out before you lose your soul

Get your act together now, get your act together now
Get your act together now, let's act together now

Sit relax and meditate, sip you tea and communicate
The sky is red, I'm feeling blue, smog clouding up my head

We want a New Clear Society
New Clear Society, New Clear Society
Don't want a nuclear society

New clear society, new clear society
New clear society, not a nuclear society (repeat)

Nobody Wanna Say Goodbye
Music and Lyrics by Faisal Ally, Copyright 1990s

You've always been a part of my life, for oh so many years
You were there from the very start, since you were my sweet heart

When you said you'll always stand by me, and I believed in you
The days go by and we wonder why, so many times we've disagreed

Now I see it in your eyes, now I see it in your smiles
Words just get in the way, some things are better left unsaid

Sometimes it's better this way, nobody wants to be alone
Nobody wanna break a heart, but we're gonna anyway

When we tried to compromise, we took it all for granted
Feelings just get in the way, where do we go from here

Sometimes it's better this way, nobody wanna say goodbye
Nobody wanna break a heart, but we're gonna anyway

Oooo don't say, don't say goodbye
Please don't say, don't say goodbye

Sometimes that's the way it is, the road has turned and we didn't see
Caught up in the things we say, that's just the way things are

I can see it in your eyes, how I feel it in my heart
Now I read between the lines, someone else is on you mind

Sometimes it's better this way, nobody wanna say goodbye
Nobody wanna break a heart, but we're gonna anyway
Sometimes it's better this way, nobody wanna say goodbye
Nobody wanna break a heart, but we're gonna in the end

Note: There's a short and a long version of this song. The long version is approx.. six minutes

No Perfect Man

Music and Lyrics by Faisal Ally, Copyright 1990s

Is there something I should know, was it something that I done
Baby I will go, you don't want me anymore

Must have been something that I said, must be some crazy thing
I wish you'd understand, that I'm no perfect man

Gotta be something on your mind, you've been acting very strange
I've read between the lines, you don't want me anymore

You left me in limbo, where do I go from here
I told you many times before, still treat you like a good man should

Baby I will go, you say don't want me anymore
I will walk out that door, I can't take it anymore

Then you start to disco, and you boggey on the dance floor
You stepped all over my toes, still love you like a good man should

Should I stay or should I go, you say you don't want me anymore
Why can't you understand, that I'm no perfect man

Baby I will go, you say you don't want me anymore
I will walk out that door, I can't take it anymore

Must have been something that I said, must be some crazy thing
I wish you'd understand, that I'm no perfect man

No Perfect Man, No Perfect Man!

Only a fool breaks his own heart (Fool For Love)
Music and Lyrics by Faisal Ally, Copyright 1990s

I was a fool for loving you, you showed me how love can be cruel
But I was blind, that wasn't love, now I know what's love all about

I got enticed by your hypnotic eyes, I was then taken by surprise
And when you play, someday you'll pay Only a fool breaks his own heart

Cause a fool in love is a fool that hurts, lives in pain
No one's to be blamed but himself

And when I was down, I needed some love
I found love in all the wrong hearts

I took a chance and settled for anything
I've paid the price, but there's more to life

Cause a fool in love is a fool that hurts, lives in pain
No one's to be blamed but himself

(Music)

Cause a fool in love is a fool that hurts, lives in pain
No one's to be blamed but himself

I was a fool for loving you, you showed me how love can be cruel
But I was blind, that wasn't love, now I know what's love all about

Only a fool breaks his own heart
Only a fool breaks his own heart
Only a fool breaks his own heart
Only a fool breaks his own heart

Out of Control

Music and Lyrics by Faisal Ally, Copyright 1990s

The secret to your heart was a plain old key, now it's all diamonds and pearls
I've given you all I had little girl, now you want the earth and moon
This plain old key will set you free, now you're searching for something new
But everything's nice like sugar and spice, when you ride in a Cadillac

Laugh and jokes and rum and coke, can get you lost in the haze
Fun and games and partying all night, can set you on a wild goose chase

If you think that everything's free, you're gonna get the birds and bees
I've given you all my love and charms, but now you've left me in a storm

Brown sugar, you're out of control, now get on home

Fashion and looks isn't everything, fortune and fame can make you taint
Walks in the streets and people that you meet, can sweep you off your little feet

Now you're cold your heart's like a stone, you left me in my flesh and bones
But everything's nice like sugar and spice, when you ride in a Cadillac

Brown sugar, you're out of control, now get on home

Party till they feel alright (We Party Till We Feel Alright)
Music and Lyrics by Faisal Ally, Copyright 1990s

The whole world's going crazy, people wanna preach, action preach
They're preaching all their love (lies), you better listen up

You wanna preach to me, but talking is cheap
You had me like a car on a jack, doing things behind my back

You pushed me around, then you let me down
And you're living it up, till the sun comes up

If you can play the game, two can play
It takes two and you don't care
If you can play the game, two can play
It takes two and you don't care

You can dance all night, dance till the sun comes up
You can have your fun, and party till you feel alright

If you can play the game, two can play
It takes two and you don't care
If you can play the game, two can play
It takes two and you don't care

Dance all night, dance till the sun comes up
Have your fun, and party till you feel alright
You can dance all night, dance till the sun comes up
You can have your fun, and party till you feel alright

They party till they feel alright
They party till they feel alright
They party till they feel alright
They party till they feel alright

*Note: We party till we feel alright is also played as Party till they feel alright. There some other minor changes in the lyrics. There are also two other versions to this song:
1) 2CanPlay; 2) The World's Online*

Planet Earth

Music and Lyrics by Faisal Ally, Copyright 1990s

Time has taken us away from love, look what we've done
Greed has driven us away from earth, from planet earth

Let love flow, we must let it grow
Give more love, spread love around

Time has taken us away from Earth, get down to earth
Time has driven us away from Earth, let's get back to earth
Time has taken us away from Earth, get down to earth

No more misery, no more misery, no more misery
I'm back on planet earth
No more misery, no more misery, no more misery
Take me back to earth

Take me in your heart, take me as I am
Take me to a place I've never seen before
Take me on a cruise back to planet earth
Board me on a ship back to planet earth

Time has taken us away from love, look what we've done
Let love grow, we must let it flow, give love more
Spread love around, spread your love around
Spread love around, spread your love around
Spread love around, back on planet earth
Spread love around, back on planet earth
Back on planet earth, back on planet earth

Precious Holidays (version 2)

Music and Lyrics by Faisal Ally, Copyright 1990-2015

The good times fly, another year gone by, there's magic tonight
So have, a precious holiday, and a happy new year

All the best and success
All the good things life brings
Follow your passion, with a New Year resolution
The good times fly, another year gone by

I'll always, remember, the good times
Those moments we share and treasure, the things we've done together

Taking rides on Santa's sleight
To see the lights on Candy Cane Lane
Smile with me, shout with glee
Precious holidays and a happy new year

Light up my life, light up the world, lets celebrate
So have a precious holiday, and a happy new year

All the best and success
All the good things life brings
Sing a song and clap along
You can't go wrong with a hug and kiss

Smile with me, shout with glee, the good times fly, another year gone by

All the best and success
All the good things life brings
Follow your passion with a New Year Resolution
Precious holidays and a happy new year

Rain Go Away

Music and Lyrics by Faisal Ally, Copyright 1990s

Reminiscing bout school days and years gone by
Just imagine how dreams could make you cry

Rain go away come another day
Rain go away come another day

Moving on, in life there comes a time
I will survive, rainy days and thunder storms

Rain go away, come another day
Rain go away, come another day

Shine for me and make it easy
Shine for you, now take it easy

Harmonica

Moving on, in life there comes a time
I will survive, rainy days and thunder storms

Rain go away, go away
Rain go away, go away
Rain go away, go away
Rain go away, go away

Nananana nana na na na
Nananana nana na na na

Hey hey hey hey hey hey
Hey hey hey, hey!

Hey hey hey hey hey hey
Hey hey hey, hey!

Reaching Out

Music and Lyrics by Faisal Ally, Copyright 1990s

Don't give up the fight, don't give up your rights, to fight
Don't live in fear, don't live with hate, be happy

You are the champ, you'll take the world by surprise
Dedication's on your mind, you are the champ, you are the champ

Don't live in the past, don't drown yourself in sorrows
Live in the present, don't know what tomorrow will bring

You are the one, you hold the keys to success, take sometime to check your heart
Reaching out, Reaching out

Reach out and touch you
When you need someone to hold you
You can count on me, I'll be there, anytime indeed

Reach out and touch you
When you need someone to hold you
You can count on me, I'll be there, anytime indeed

Don't give up the fight
Don't give up your rights, to fight

Fight for your rights! Fight for your rights! Raise your hand and raise some hell
Fight for your rights! Fight for your rights! Raise your hand and raise some hell

You are in control, take charge of your life
Make today a better day, share your strength with everyone

You are the one, you hold the keys in your heart
Dedication's on your mind, you are the champ, you are the champ

I'll reach out and touch you
When you need someone to hold you
You can count on me, I'll be there, anytime indeed

Reach out and touch someone
When you need someone to hold you
You can count on me, I'll be there, anytime indeed

Reach out and touch you
When you need someone to hold you
You can count on me, I'll be there, anytime indeed

Reaching out, Reaching, Reach out, oh
When you need someone to hold you
You can count on me, I'll be there, anytime indeed

Reflect and Celebrate

Music and Lyrics by Faisal Ally, Copyright 2010

It's the time for reflections and celebrations
See how quick the happy days slip away
Love can conquer every heart, we gotta give it a chance
Hold on to your dreams

Reflect and celebrate, Reflect and celebrate, Love can conquer all
Reflect and celebrate, Reflect and celebrate, All we want is peace

Come on everyone, let's sing together
Happy holidays and a Happy New Year

Love can conquer every heart, we gotta give it a chance
Hold on to your dreams

Reflect and celebrate, Reflect and celebrate, Love can conquer all
Reflect and celebrate, Reflect and celebrate, All we want is peace

Come on everyone, let's sing together
Have a good time, let's celebrate

Come on everyone, let's sing together
Happy holidays and a Happy New Year

(Note: This song was modified from Christmas (also called Christmas Day), but the chord progression and melodies are basically the same)

Regga Rock

Music and Lyrics by Faisal Ally, Copyright 1990s

All the rock and roll possie, and the regga muffins
Let's get down tonight and do the regga rock

Let's dance the night away, get into the grove
Put on your regga rock shoes, show me the moves

Get into the action, get into the motion
Wiggle like a wire with that burning desire

Raise your hand in the air, if you want to dance all night
Raise your hand in the air, if you wanna feel all night

Wine down, wine down, wine and go down
Wine up, wine up, wine and go up
Go down, go down, wine and go down
Wine up, wine up, jump up, jump up

Move your body, shake it up baby
Move your body, shake it up baby
Step right, step right, step left, step left
Step right, step right, step left, step left

Move back, move back, move up, move up
Move back, go back, move up, wine up
We got the fever for the regga rock music
You know you gonna chose it and you never gonna lose it

All the rock and roll possie, and the regga muffins
Check out the new style of rock mixed with the hot reggae music
Check out the new style, the new rock style
We rock it up man, you gotta check it out
Check it out, check it out

Shiver up my backbone, shaking up my leg
Whining up my waistline, jumping in the air
Move your body, shake it up baby
Move your body, shake it up baby
Shake it up, shake it up

Wine down, wine down, wine and go down
Wine up, wine up, wine and go up
Go down, go down, wine and go down
Wine up, wine up, jump up, jump up

We got the fever for the regga rock music
You know you gonna chose it and you never gonna lose it
Whine yuh body

All the rock and roll possie, and the regga muffins
Let's see you get on the dance floor and do the regga rock
Come on le me see you wine

Wine down, wine down, wine and go down
Wine up, wine up, wine and go up

Move your body, shake it up baby
Move your body, shake it up baby

Come on, come on, come on, come on

She's Off Limit

Music and Lyrics by Faisal Ally, Copyright 2008-2011

She attracts like a magnet, the way she walks, the way she talks, and the way she moves
You'll like her style (smile), her mannerism too, her perfume, and the clothes she wear
She'll dazzle your eyes, confuse your mind, and drive you wild with your fantasies
She'll give you a smile, her innocent smile, you'll take it wrong and you'll lose control

Look at them guys, hanging around, flashing their smiles at my girl
They wearing their shoes, their boggie woggie shoes, think they're cool eyeing up my girl

She's off limit, keep away and stay away, keep your hands off my girl
She's off limit, keep away and stay away, keep your hands off my girl

Hey big shot, so you drive a Cadillac, you think you can steal my girl
You got too much money, no personality, you've never worked a day in your life

You got it all, like the birds and bees, I'm telling you man, you better get a life
You think you're cool, getting into the grooves, you better watch your moves

She's off limit, keep away and stay away, keep your hands off my girl
She's off limit, keep away and stay away, keep your hands to yourself

My baby, my baby's off limit, My baby, my baby's off limit
My baby, my baby's off limit, My baby, my baby's off limit

You can dance the night away, Dance the night way
How you dance the night away, Dance the night way

My baby, my baby's off limit, My baby, my baby's off limit
She's off limit, keep away and stay away, keep your hands off my girl
She's off limit, keep away and stay away, keep your hands to yourself

So Crazy 4u

Music and Lyrics by Faisal Ally, Copyright 1990s (Minor changes in 2015)

I can't help the way that I feel for you
From the very first time I smell your perfume
When I saw you in the room, I fell head over heels

I'm so tired, so tired of waiting
When I see your face my heart goes wailing
I get so restless inside, I'm just crazy for you

By now you know how I feel
My love, my love for you is real

Oh well my heart is aching, my legs keeps shaking
I'm so crazy for you you

Lead

By now you know how I feel
My love, my love for you is real
Oh well my heart is aching, my legs keeps shaking
I'm so crazy for you you

I'm so crazy for you
So crazy for you
So crazy for you
Sooooooooo crazyyyyyyy for you

Sometimes

Music and Lyrics by Faisal Ally, Copyright 1990s

I find myself walking in the rain
Sometimes I hear voices calling my name
And it's hard to express these feelings I feel
I-I find now I'm talking to myself

I sit and wait in the rain for the sun
Even when it shines it pours in my heart
What I feel for you is lost in time
I-I've tried to set these feelings free

Sometimes I close my eyes, all I see is your smiles
Sometimes I drift away, get lost in your love

Your love is running through my veins, you're the vision in my head (Baby I love you)

What was said and done makes us paranoid
The road is paved for you
And you still cannot see the lights
How I feel inside is buried in my heart
I-I've tried to let it all come out

Sometimes I close my eyes, all I see is your smiles
Sometimes I drift away, get lost in your love
I hear these voices in my head whispering I love you

Sometimes I close my eyes, all I see is your smiles
Sometimes I drift away, get lost in your love

Sometimes I close my eyes
Sometimes I close my eyes
Sometimes I close my eyes

Long ending

Note this song has 2 versions. This version and "Sometimes (Baby I love you)

Space & Time

Music and Lyrics by Faisal Ally, Copyright 2008-2011

There's a light, shining up ahead (from above), and it's coming from your eyes
And it's true, you're heaven sent, to brighten up my life
For miles and miles, I could feel your vibes, you're coming back to earth
Not even time, can keep us apart
Our love is written in the stars

Time has stopped, for you and I
This burning flame could never die
Our love will grow (glow), stronger and stronger
Burning through the night

Burning, burning, burning through the night
Burning, burning, burning through the night

Only you hold the keys to my heart
Only you can set me free, won't you unlock my heart

Nobody knows, the secrets of space and time, it's like magic in your eyes

But from another world, you'll rescue me
I'm waiting for you to set me free

Burning, burning, burning through the night
Burning, burning, burning through the night
Burning through the night, Burning through the night
That's right!

Story of My Life

Music and Lyrics by Fisal Ally, Copyright 2010

I didn't know until I reached the end of the road
The journey took me back to where I began
I've learned so much, now I understand
I'll never judge anyone again

I'll tell you the Story of my life
I've followed my heart, I've chased my dreams
I've done everything I possibly could
Man I've struggled and I'm still empty and broke

On the road I've seen so much, hardships, sorrows and emptiness
It wasn't easy, I'm telling you man
But I've tried, so I know I'm a winner inside

Happiness will come our way
We gotta reach deep down inside
It's all in our hearts
And it's really really really up to you

Nobody knows when the road will turn on them
It's like waking from a dream, but it's reality
My world collide with all my hopes
I used to dream bout leaving this place behind

Now I'm back walking around the same old lake
The birds, they still flock around
They whistle their tunes, while I sing my song
Now I appreciate those little things in life

Found a job and settled down
The world never stops, it turns and turns
Then one day, I got a lucky break
Then they took it, they took it all away

That's the story of my life
I'm satisfied to be who and what I am
I've done my best, I'm telling you man
Cause at the end another journey begins

Now I know cause I've reached the end of the road
Nowhere to go but from where I began
Now I reach deep in my heart

I'll never judge anyone again
I'll never judge anyone again

And it's really really really up to you
And it's really really really up to me
That's the story of my life, Story of my life

Note: This song is an off shoot from Nobody Wanna Say Goodbye, and was written around 2008 to 2009 - the song is also sung with 4 reallys and 5 reallys...

Sweet Paradise

Music and Lyrics by Faisal Ally, Copyright 1990s

You can run but you just can't hide
Cause you're hot and I like you a lot
Come on for a ride in the hot summer sun
Come on for a ride and have some fun

Be my girl and you'll see the world
You will go where nobody knows
Come on for a thrill and you'll see what I mean
Come on for a thrill and you'll love the scenes

Fly with me across the sky
Sail away to the sea
Climb with me to Mount Everest top
Walk across a desert land

That's where we'll find sweet paradise
That's where we'll find sweet paradise

She's so sweet, she's so sweet
She's so sweet, she's so sweet
Sweeter than sugar, and sweeter than honey
Sweeter than sugar, and sweeter than honey

Taker in the action and check out the scenes
The tension and stress is just too much
Free up, free up, unwind relax, walk across a desert land
Don't wait until you're dead and gone
Have some fun in the sun
The lure is irresistible, drink from the fountain of youth
Wake up and live

Fly with me across the sky
Sail away to the sea
Climb with me to Mount Everest top
Walk across a desert land

You'll feel irie, you'll feel good, man, baby it's a good feeling
You'll feel irie, you'll feel good, man, baby it's a good feeling
Unwind relax, free up free up, baby it's a good feeling
Unwind relax, free up free up, baby it's a good feeling

You'll feel irie, you'll feel good, man, baby it's a good feeling
You'll feel irie, you'll feel good, man, baby it's a good feeling

Hmmm Hmmm Hmmm Hmmm
That's where we'll find sweet paradise
That's where we'll find sweet paradise
That's where we'll find sweet paradise
That's where we'll find sweet paradise

Sunshine's back again

Music and Lyrics by Faisal Ally, Copyright 2008-2011

Wake up to the sound of music, Wake up to the sunshine
Wake up to your love, Sunshine every day

Listen to the wind blow, listen to my heart sings
Listen to your hear, bring it on to me, Sunshine everyday

If you ever change your mind, I'm cold and empty inside
Now you're gone, the sun won't shine, it pours all day
I want my sunshine back again

The wind begins to blow, I can hear her voice say
Remember how things used to be, You were my sunshine everyday

If you every change your mind, I'm like a flower in the rain
Now you're gone, the sun won't shine, it pours all day
I still feel your kisses on my face, I want my sunshine back again

Then the wind begins to blow, I can hear her voice say
You were my sunshine everyday

If you every change your mind, I'll be out walking in the rain
Love is a test, and not a game to play
The sun never dies, it just hides away
The fog will go away, a better day will come
How long must I wait, for a better day to come, and sunshine back again

I'm still waiting by the phone
I still wish you the best (It's not the end), cause the sunshine never dies

I think I can understand, it takes sometime
Sunshine only hides away, and I'm waiting for a brighter day

Then the phone starts to ring, I could hear your voice say
Now I understand, you want your sunshine back again

I thought I could change the world, but I needed your shoulder to lean on
Now I'm left busted and broke, my sunshine has died (so I thought)
But the sun just hides, to test your love for me
Then someone else came along and brought the sunshine back into my life
Now sunshine's back again
Sunshine's back again

That's Crazy Love

Music and Lyrics by Faisal Ally, Copyright 1990s - 2015

Didn't know don't wanna know, shouldn't have but done anyway
Emotions running high, the exceptions you make in your life
Bending the rules and toeing the line
You've been Toeing the line, toeing the line

Hold on to your dreams
Don't let it slip away
Temptations can mess you up
You better watch your steps

You're in love, you looking alright
If you see the signs of crazy love, that's when you get out

People can be cruel to each other, it'll tear you apart

When you lie cheat and steal
You think you can win it all
Lie cheat and steal
You're playing a fool's game

Don't want no crazy love
I don't wanna play no fools game
Playing the game will bring you more pain
It's gonna tear you apart
You're living with your lie cheat and steal
That's crazy love

You know what's coming to you, soon you'll be crying the blues
Thinking bout yourself, nobody else, what goes around comes around
You gonna reap what you sow, it'll tear you apart

Didn't know don't wanna know, shouldn't have but done anyway
Emotions running high, the exceptions you make in your life

You're in love, you looking alright
If you see the signs of crazy love, that's when you get out

People can be cruel to each other, It'll tear you apart

When you lie cheat and steal
You think you can win it all
Lie cheat and steal
You're playing a fool's game

Don't want no crazy love
I don't wanna play no fools game
Playing the game will bring you more pain
It's gonna tear you apart

You're living with your lie cheat and steal, that's crazy love
Lie cheat and steal
That's crazy love
Crazy love, crazy love
That's crazy love

Note: This song was originally written in 1994, but was shaped over the years. The new intro was added around 2010 or before

The Birds Won't Come My Way
Music and Lyrics by Faisal Ally, Copyright 1990s

I wanna walk on this earth every single day of my life
I wanna breathe the air that keeps me alive
I wanna taste the rain that's falling up above my head
Don't wanna look up cause the sky's turning red

Cause every time I look at the sky and I see it turning grey
I keep wondering why the birds won't come my way
I wanna feel the earth every single day beneath my feet
Don't think it's worth the pain and all the heat

Wanna travel this road feel the wind blowing in my face
I was wondering if I should cause there's too much polluted waste
I wanna feel free to breathe the air any day or night
Someone stole the keys and I'm losing all my rights

Cause every time I look at the sky and I see it turning grey
I keep wondering why the birds won't come my way
I wanna feel the earth every single day beneath my feet
Don't think it's worth the pain and all the heat

It's us we're doing all the damage
Cause you, you say we're gonna manage
And us, we're all gonna have to pay
Because the birds won't come my way

Cause every time I look at the sky and I see it turning grey
I keep wondering why the birds won't come my way
I wanna feel the earth every single day beneath my feet
Don't think it's worth the pain and all the heat

Wanna travel this road feel the wind blowing in my face
I was wondering if I should cause there's too much polluted waste
I wanna feel free to breathe the air any day or night
Someone stole the keys and I'm losing all my rights

Cause every time I look at the sky and I see it turning grey
I keep wondering why the birds won't come my way
I wanna feel the earth every single day beneath my feet
Don't think it's worth the pain and all the heat

It's us we're doing all the damage
Cause you, you say we're gonna manage
And us, we're all gonna have to pay

Because the birds won't come my way

It's us we're doing all the damage
Cause you, you say we're gonna manage
And us, we're all gonna have to pay
Because the birds won't come my way

The World's Online

Music and Lyrics by Faisal Ally, Copyright 2008-2011

The whole world's going crazy, the fever is hot
Everybody wants the latest technology

We don't talk anymore, we just text, we say hi and go, no we don't talk
You're hooked, you don't care for me anymore

Now you're back online, playing games, living on the edge
I don't know what you're up to anymore
You're taking chances with our love, Win or Lose

If you can play the game, two can play, it takes two and you don't care
If you can play the game, two can play, it takes two and you don't care

The world's online, you've been surfing through the night
When the party's over, that's when you wanna talk to me

A new wave's taking over, now you're riding high, and you're losing control
Gotta have the latest technology

We don't talk anymore, we just text, we say hi and go, no, we don't talk
You're hooked, you don't care anymore

If you can play the game, two can play, it takes two and you don't care
If you can play the game, two can play, it takes two and you don't care
(you're asleep online)

The world's online, you've been surfing through the night
When the party's over, that's when you wanna talk to me
The world's online, you're playing games throughout the night
You having your fun, And you party till you feel alright

You party till you feel all right, You party till you feel all right
You party till you feel all right, You party till you feel all right

We don't talk any more
You party till you feel all right, You party till you feel all right

Note: This song is basically the same as "2CanPlan" and "We Party Till We Feel Alright"

True Love

Music and Lyrics by Faisal Ally, Copyright 1990s

True love, true love could never die

I'll send you all my love in a letter sealed with kisses
Girl you know my love is genuine

I'll send you all my love whenever I'm far away
Girl you know it's true, you're the one

I'll be missing you everyday, I close my eyes and I think of you
Girl you know its true, you're the one

True love could never die, true love could never part
It's like magic in the air, like magic in the air

I'll write you everyday
Our love grow strong in every way
Girl you know it's true, you're the one and only one

True love could never die, true love could never part
It's like magic in the air, like magic in the air

I'll write you everyday
Our love grow strong in every way
Girl you know it's true, you're the one and only one

I'll treasure all your love
Deep inside of my heart
Yes you know it's true you're the one

Oooo you're the one, my true love

True love, True love could never die!

Two can play

Music and Lyrics by Faisal Ally, Copyright 1990s

I'm free cause the wall came down Just wait and see
You had me tied to the ground and you let me down

So release, I'm not turning back, and that's a fact
You had me like a car on a jack doing things behind my back

Cause I'm out, it seems like a thousand years, there's no doubt
You didn't care after all these years

If you can play the game
Two can play
It takes two and you don't care

If you can play the game
Two can play
It takes two and you don't care

But I'm out, it seems like a thousand years, there's no doubt
You didn't care after all these years

If you can play the game
Two can play
It takes two and you don't care

If you can play the game
Two can play
It takes two and you don't care

I'm gonna dance all night
Dance till the sun comes out
I'm gonna have some fun
I'm gonna party till I feel alright

Cause I'm out, it seems like a thousand years, there's no doubt
You didn't care after all these years

I'm gonna dance all night
Dance till the sun comes out
I'm gonna have some fun
I'm gonna party till I feel alright

If you can play the game
Two can play

It takes two and you don't care

If you can play the game

Two can play

It takes two and you don't care

*Note: This song was modified around 1995 and called "We Party Till We Feel Alright"
and also another version was created around 2010 called "The World's Online"*

We're on our way (Champs / Victory)
Music and Lyrics by Faisal Ally, Copyright 2008-2011

I'll give all my love to you, I'll bring victory to you

We'll win, we'll win, we'll win
I'll fight all my life for you

I'll give all my strength to you, I'll live, I'll die for you
We'll win, we'll win, we'll win
I'll fight all my life for you

You can't escape from reality, getting by can be so hard
Take a step we'll find a way, everyday can be a better day

One for all and all for one, when we fall we'll get up back
Make a move, we're ready to go, we're on our way, we're on our way

Victory will surely come, our names will be on neon lights
We'll get there, yes we surely will, we'll mark our ground around the world

Success will come our way, nothing's gained without a fight
Reflect on life and celebrate, cause we're on our way, we're on our way

We'll survive, we'll take a chance, we've got nothing to lose
We'll get by, we'll find a way, we've got nothing to lose

One for all and all for one, when we fall we'll get up back
Make a move, we're ready to go, we're on our way, we're on our way

Pick up the pace! Drive it hard! Take a shot! Let it out!
Belt it out! Slam! Wham! Bang! We're on our way, we're on our way

Go champs, Go champs, Go!
Go champs, Go champs, Go!

Do you remember how we used to laugh and play
People used to come and see us play, how they clapped and cheered
Things have turned, now we're in another league
The times have changed, but we're on our way

We're on our way, we're on our way
Go champs, Go champs, Go!
Go champs, Go champs, Go!
We're on our way, we're on our way

We were one

Music and Lyrics by Faisal Ally, Copyright 1990s

We were one, flesh and blood, now we're two, the road is new
It was you and I, all these years, but you've chose, to go your own way

May I say, that love is blind, maybe someday, you may find
That our love, was that love, that was meant to be
But now it's too late, my love was true, you had no fate, in my love for you

Two of us, in this lonely world, we had each other, in body and soul
Now we're far away, in different worlds, maybe someday, we'll meet again

But for now, does this mean anything, in my dreams, you've come to me
But now I've found, a heart that's true to me, love was real, my love was true
You had no fate, in my love for you

It was you and I, all these years, but you've chose to go your own way
May I say, that love is blind, maybe someday, you will find
That our love, was that love, that was meant to be
But now it's too late, my love was true

Cause you had no fate, in my love for you
You had no fate, in my love for you

Wide Eyed Innocent (Wide Eye Innocent)
Music and Lyrics by Faisal Ally, Copyright 1990s – 2015

You've seen her pictures in the magazines
A teenage beauty queen
Now in her sweet twenties
Wants to be on the silver screen

She's going to New Your City
Looking good she's looking pretty
She'll set their hearts on fire
She's a victim of desires

Oooo does she know what's out there
Where will she go from here

She wants to ride in limousines
Live in luxury
Nothing out there is free
Nor does it come too easy

She never played cards or made a bet
She never had a cigarette
How lucky will she get
She hasn't seen anything yet

Oooo does she know what's out there
Where will she be in next year

Wide Eyed Innocent
Wide Eyed Innocent
Wide Eyed Innocent girl!

Note: There's also a longer version of this song

Wild wild wild

Music and Lyrics by Faisal Ally, Copyright 1990s

Wild wild wild, you're wilder than fire
Wild wild wild, you got that burning desire
Wild wild wild, you're wilder than fire
Wild wild wild, you got that burning desire

Wild wild wild, you're wilder than fire
Wild wild wild, you got that burning desire
You're wild
Wild wild wild, you're wilder than fire
Wild wild wild, you got that burning desire

(I saw you with your big hunk of man, I saw you with that big hunk of man)
(This line is not always played and changes. Sometimes a lead guitar replaces it, or other lyrics)

Wild wild wild, you're wilder than fire
Wild wild wild, you got that burning desire

(You're going with your big hunk of man, You're going with your big hunk of man)

Note: This song is basically an instrumental song with the Wild wild wild line. After that the line changes sometimes, and more lead guitar is added.

Stories

Love songs are great for telling stories. As a songwriter, I become inspired by someone's story, or even a few words I may have heard, and I take that story or words on its own journey. A few years after I had pulled out a red acoustic guitar from the garbage bin in Toronto when I was twelve years old, I became interested in writing songs. Writing songs, as in a story, gives me the great satisfaction in creating that story with lyrics, rhymes, and music, and then playing the instruments and recording the song. I remember writing the song "A kiss goodnight" around 1992 where my mother was the inspiration for the song. In one of the first recordings of "A kiss goodnight," a friend named Roxana Avalon-Calderon played the violin during the lead break. In later versions, I played an acoustic guitar and the keyboard.

When it comes to songwriting, I never plan the outcome of a song. I never plan to write a song to make it sound like another artist, because there's a chance of plagiarism trying to sound like that artist. I take a song on its own journey using my imagination. For example if I were to pick up the guitar and start to create a song, I have no idea what kind of a song it will be until it starts to unfold, and that's when I would know if it's a ballad, rock, pop, reggae or another style. And at that time, I may say, that song sounds a little like Elvis or Buddy Holly or someone else. Then I would develop the song, still trying to be unique. I enjoy the journey, seeing where the journey takes me. Even trying to find a rhyme at times for a particular word is not always easy. Some songs may sit for months or years before I'm satisfied with the lyrics or even a rhyme. I like the songs, which I have created over the years, and I also love coming up with unique song titles and being unique.

The Birds Won't Come My Way is my protest song. "A protest song," the interviewer said while this song was being aired. I have good memories of this song. This song seems to be the most familiar song to my family, so I tend to call this song 'my signature song.' I wrote this song years ago while I was working in Ft. McMurray as a Telecommunications (Electronics) Technician. A friend in Fr. McMurray blew his car engine and wanted to replace it. He and I went to a junkyard, and I assisted him, somewhat, in stripping the engine out of another car. It was a swampy area, and the birds were flying around and it looked polluted. At the time I was wondering what the birds were drinking and eating in the swamp, and if they would even be alive to make it back south when winter comes around. We took the engine back, and within a day he had lifted the old engine out from his car and put the engine from the junkyard into his car and connected everything, and it actually worked. I was amazed at his mechanical abilities. While I drove from Ft. McMurray to Edmonton for the weekend, the song "The Birds Won't Come My Way" came to live as I remembered the junkyard, the birds and the pollution. The weekend was over and I was driving back to Ft. McMurray and the song evolved. So I wrote the song or most of it while I was driving; what else was there to do, driving for four and a half hour, one way. I had recorded this song a number of times. One of my favorite recordings of the song was when I recorded the song with a children's choir.

I could not have written a song like “Story of my life” nor come up with such a title ten or twenty years ago. I would have never thought of such a title. Just recently, I was reviewing my chord charts of this song from 2010, and the title was “Story of my life” and not “The Story of my life.” This song is all about the Story of my life. When I wrote this song in 2009 / 2010, I had felt like I had come to the end of the road, so I was writing about a long tiresome journey. Because the lyrics reflect so much about my life, when I was uploading lyrics on June 29, 2015 to my website, I had felt embarrassed about some of the lyrics, so I only uploaded a few lines of the song, and I left it at that. I also had two versions of the song. This song was an offshoot from another song called “Nobody wanna say goodbye.” Chances are, if I had not written “Nobody wanna say goodbye,” I would have never written “Story of my life.” It was by accident. In 2015, I changed to word “pain” to “hardships.” In 2010 the lyrics “Thank you, thank you all that cares” was later changed to reflect the unfortunate circumstances that had taken place in early 2011, were the lyrics became, “Then they took it, they took it all away.” I used to walk around the lake when I was eighteen years old enjoying the birds, and years later I was back in the same place doing the exact same thing, walking around the same old lake, except now the cracks in the walkway seems bigger, but the beauty was still there with the birds flying around the lake.

The song “True Love” came about accidentally when I was playing around on the guitar and whatever came out of my mouth sounded like something out of the 1950s, and I became excited about writing a song that sounds like it came out of the 1950s, so I kept working on the song and it kept evolving. To me it does sound like something out of the 1950s, but yet very unique, since I was not trying to sound like anyone from the 1950s.

My Home was written when I was around 16 to 18 years old, as I was reflecting back on the place I was born in. I still remember some other songs, which I had written when I was 15 years old.

The song “The World’s Online” which was written around the year 2010, is basically the same some as 2CanPlay written back in the 1990’s which later became We Party Till We Feel Alright. Since is a song about people that likes to party, and I was not one of them, therefore this song is not about me.

The song “Burning” which I changed the name to “Space & Time” around the year 2009 or 2010, was written around the year 2003, while I was driving with my niece who was about six years old at the time, and pointing as the fire coming out from the ESSO factory on 101 Avenue, Base Road in Edmonton.

Note this second version was published and copyright on January 19, 2017, and two hard copies were sent to the Canadian Archives on January 20, 2017, one for preservation, and the other for viewing. The update for the second edition was written in hand and not typed. This copy that’s being typed has the same songs and is called the second edition, ver 1.1

In the near future, I will be adding more of my old songs.

I have been asked questions such as, since you've written 100 songs and 20 books, what processes do you use and how do you come up with your ideas?

The answer is, it takes a great deal of time to write and organize my lyrics, chord progressions, and melodies. In this SECOND EDITION, I've added more of my songs from the past. In the edition sent to the version that was copyright on January 19, 2017 and sent to the Canadian Archives the following day express and a signature request, I had done the addition of songs on pen and paper, to show some of the processes I had gone through. For example, I added three hand written pages of my song called "Story of My Life" showing demonstrating some processes, such as how I chart out my songs. This version can be accessed from the Canadian archives. After this edition, I will be adding more songs, as I do have many more songs.

I consider myself to be a songwriter/musician. Most of my recordings in the past were done quickly and cheaply to my songs down because of the lack of access to professional recordings, lack of professional help and the lack of funds to continue my recordings. While recording, for example if my vocal chords was sore - and very often my vocals chords was very sore - I would have to shout or scream, and that was okay with me because I just wanted to get the song down on a medium so I don't forget what it sounds like, or what I was trying to accomplish.

I do have many concerns about my music, which is all my original creation over many years. From around the year 2012 until now and continues, I've been hearing parts of my songs and literature (the ideas from books), slightly modified - to disguise them - coming over on the radio, TV, and on commercials without my permission. I'm surprised that that has actually happened. I had actually placed some music in the wrong hands around 2011/2012, and after that I began to notice strange people coming around, and strange things happening. The destruction of my work into pieces, no doubt, has to do with racism and hate towards me. Some police reports were filed. At first the police were nice and encouraging, but later they became very discouraging and of no help. Two reports filed: one on November 28, 2011, and then another one on 2013/01/31 with the label Harassment / Possible eBook theft. I have also noticed many of my ideas and writing from The Trilogy of Savitri's Garden (4 novels) being used by others. I have never noticed anything thing as such before 2011; this all began around the year 2012 and continues as I'm getting this edition ready to be published. I have never experienced such hate, racism, and harassment in my life ever before. After all is said and done, like my song written around 2010, "Story of my life", the journey continues, and I have many more songs, which I will be adding to another edition in the near future.

Comparative Literature

I'm involved in researching in this area, in literature and music. If you come across similar songs, lyrics, ideas from my books, please forward that information to me at allyproduction@yahoo.com, or you will find my websites at the inside cover which will provide more information.

My journey into some professional recording studios

Normally my recordings were done at home, quickly and cheaply, and those recordings were the predecessors to better recordings, but the songs were all completed, mainly in the 1990s.

In the 1990s, I had spent some time in some top recording studios, wanting to learn about recording and production. I had recorded some songs in the following studios with some of the following names:

In Beta Studios, I worked on a few songs, such as Lisa, SoCrazy4u and We Party Till We Feel Alright with Gary Koliger and his engineer.

In Big Records I worked with the owner/engineer, Dennis Sheehan, and some other musicians recording songs such as True Love.

I had also spent a half-day working with Barry Allen at Homestead Studio around 1997 doing a few tracks and mixing down to a tape format.

In 1998, I was in a new studio called Alberta Music Studio owned by Cam Guse who was also the engineer, where I had completed some tracks for songs such as New Clear Society, A Kiss Goodnight, and Lisa.

I entered Power Sound in 1999. My goal were to do a complete ten to twelve song CD, and I had worked with the owner/ engineer, Phil Anderson, and some other musicians, including a children's choir on a number of songs. Four of the songs went on a CD as the other tracks were not fully completed. I've used the incomplete tracks as bed tracks for playing. *Musicians played on some tracks, including myself are: Phil Anderson, Carmine Caligiuri, Roxana Avalos-Calderon, John Cooke, Mark Puffer, Matt Robertson.*

Fisal Ally, The Songwriter | Musician | Novelist | Writer

The author, Fisal Ally, hails from La Penitence, a district in Georgetown, Guyana, South America, and grew up in Canada. Over the years Fisal has completed over 100 songs, where he had written the lyrics and composed most of the music. In the 1990s he had spent a lot of time recording his original songs as an independent production. He continued writing songs throughout the year. In 2008 to 2010, he had written some of his favorite compositions such as Story of my Life, Nobody Wanna Say Goodbye, and No Perfect Man.

His main project had taken him on a fifteen-year journey of writing, researching and editing four novels called the Trilogy of Savitri's Garden. The first and second novels of the trilogy are called "India to the Americas, 1838 (Part I and Part II). He has also completed a self-help motivational book, where sections of the book are presently in use by some. Fisal is also involved in small seminars, teaching and promoting the mind/body rejuvenating principles as outlined in the book. He had learned to meditate from Dr. Deepak Chopra many years ago during a full three-day seminar and still practices and teaches simple and easy meditation techniques. Fisal has a passion to learn about the universe and creation, and has also written a book on this topic, bringing his own philosophy and experiences into the book. He was also the founder and owner of a 40 page printed magazine called CARIWAVE, The Caribbean Magazine. He was the graphics designer, main photographer, the main writer and promoter for the magazine. He also drew the cartoon strips. In October 2016, Fisal commenced his magazine journey again with Cariwave, but as an eMagazine.

Fisal's writing days began as a teenager, in poetry and song writing. As a twelve year old in Toronto, he had pulled out his first guitar from a garbage bin; it was a red wooden guitar. He had learned to play it a few years later, and also became the lead guitarist in his high school band with his good friends Jim and Dave who were excellent guitar players and who had also wrote some songs. Fisal enjoy the freedom as an independent songwriter and musician and continues to record and create CDs on a small scale. His songs can be found in relatives and friends' homes across North America and other places. He plays lead, rhythm guitar and bass guitar, along with keyboards, some drums and harmonica. The style of songs he had written are rock n roll, country, folk, reggae, pop and of course love songs. He had also written the songs for a children's CD and had completed all the music, which will be redone in the near future. He had also written a Guyanese cultural children's musical play, which was performed by a group of children in front of an audience. He had written two movie scripts and had attempted filming the movies, along with a comedy series. A half an hour comedy episode was quickly filmed with some of his friends, Pat, Miguel and himself as the actors. Fisal was also the cameraman, video editor, director and producer for these projects.

Fisal had graduated from Electronic Engineering Technology, and later graduated in Computer Systems (with honors). Both diplomas, a total of 4 years, were achieved at the Northern Alberta Institute of Technology (NAIT). In the past, he had worked as a Computer Programmer and Analyst, and also in Computer Help Desk, Electronics & Telecommunications, and as a Quality Manager. As a Quality Manager implementing Quality Systems in Alberta, Canada, he was highly involved in creating training programs and carrying out the training. As one of the other managers had said, the Quality project was winning mainly all of the awards for the company, as Fisal led the project to timely and efficient success through all of his hard work and working many extra hours on the weekends. Fisal had traveled across Alberta implementing the ISO Quality System.

Fisal was also hired by NAIT to teach a weekend Quality Management course, filling in when the regular instructor was not available to teach. However, there were some interference in his teaching due to work, and thus the opportunity to continue teaching was terminated, which was a huge setback for him since he was well prepared, had great reviews, and enjoyed teaching, and giving it all he had so the students went away knowledgeable and empowered.

As a hobby, Fisal spends some time in home renovations and does electrical wiring, some plumbing, painting, and building and repairing decks. Fisal plans to continue an enlightened journey as a writer, with many more books and songs to come. He enjoys being a life coach assisting others in fulfilling their life's journey and explaining what the purpose and journey of life is all about. Fisal also goes by his middle name, Deen, and his English name, Brian, also given at birth. In fact, his family members and relatives only know him as Brian. In the past he had spelled his name as Fizal, Fyzal, Fysal, and also used alias such as Brian Allysen, along with other names for writing. Fisal had decided to use the spelling, Fisal, to show the correct "s" sound in his name, instead of the "z" sound in his name, which is incorrect.
