

The New World: Order Out of Chaos (Part III)
The Battle To Control Humanity's Bloodstream

By Fisal Ally

First Edition published June 24, 2020

Dr. Shiva Ayyadurai MIT (Massachusetts Institute of Technology) Phd. Has a Ph.D in biological engineering, also has a BS, MS, MEng) and is a scientist and engineer. He has four degrees from MIT. He is famously known to be the fourteen year old that created 'email' in 1978 when he was only fourteen years old. As a teenager in America, he invented email, writing the electronic email system. He also came up with the name 'email' because the program, which he was using had only allowed him to use five characters. I believe he said the program he had used was Fortran. And today billions of people across used the term 'email.'

He says that he understands the immune system highly and that doctors are not given the kind of training he's had in immunology and thus they do not really understand how the immune system works.

Shiva Ayyadurai is running for the 2020 United States Senate election in Massachusetts to be held on November 3, 2020. I believe that Shiva is an honest person and is exposing a system that will lead to the destruction of humanity. I believe that Shiva is very knowledgeable as compared to others and that he is speaking the truth. He has no reason to lie or conspire against the public because he is gaining a lot of attention worldwide and if he is lying, people across the world and his supporters will quickly see through him; so far that's not happening. Because of his growing popularity I'm certain that trolls will be sent in on his videos to create havoc and try to break people's spirit. Will it work? We'll find out sooner or later.

Shiva claims to be the inventor of email

Shiva claims to be the inventor of email. He also claims to have coined the term 'email' which I do not believe anybody can dispute, and if that is the case, then I would think that he is the inventor of the email.

On YouTube there is another person claiming to be the inventor of email in the early 1970s that died. I believe that others would have already thought of converting a manual mail system to electronics. There could have been hundreds or thousands of people doing this worldwide. But were they successful? If they were then was the term 'email' used before Shiva said he came up with the term 'email?' It's stated that email was already popular in the 1970s before Shiva created his email system. I don't believe that's true, especially since Shiva was the one that came up with the term 'email.' And were those other email systems popular? Most likely not because not too many people used

any kind of electronic mail system back then and if they did create one and used it then it wasn't popular.

Shiva is originally from India and grew up in America

Shiva is originally from India and says that 'one size does not fit all.' He says as a child he saw his grandmother practicing traditional medicine and healed people. He says each person is biologically different and that everyone should not have the same vaccine, nor should everyone have the same drug, simply because everyone's body reacts different. 'One size does not fit all' meaning that one vaccine will not work for all because each person's physiology is unique and thus each person must be treated as an individual. During his campaign, one of his focuses has been the covid-19 pandemic, and he has been speaking out against forced vaccination for the masses. He often presents techniques based on a system's approach and has been educating people in America and across the world on the immune system and provides knowledge on what we can do to get through the covid-19 pandemic.

Shiva's views on Covid-19 differs from the Mainstream and thus they are saying that he is a conspiracies

My understanding that the term 'conspiracy theorist' was created to defame others that have views that differs from the Mainstream. Like many doctors and famous writers such as Dr. Rashid Buttar, Bruce Lipton, Greg Braden, Shiva's views on covid-19 also differs a lot from what the masses hear from the mainstream media and thus the mainstream (see Wikipedia) classifies Shiva as a conspiracy theorist; they do not classify themselves as conspiracy theorists even though many so question what's being broadcast on the mainstream and why they broadcast certain things at certain times, but the MSM says that everyone else that have views that differs from their's are involved in conspiracies. You would think that the ones like Anthony Fauci that have been predicting outcomes such as a surprise pandemic is coming, or vaccination is required to depopulate the world would be the conspiracy theorists, and not only that the MSM have been putting out movies of exactly what's taking place with this pandemic; obviously to prepare the mass into accepting what is to come. Isn't this all a conspiracy against the masses across the entire world and now we're on a lockdown, and people can't visit their loved ones in senior homes, and soon many families may end up divided and destroyed? Isn't this all a conspiracy to destroy humanity?

Many speaking out are also saying that there are much more deaths from other illnesses as compared to covid-19, but covid-19 shut down the whole world.

The Kennedy's and the Vaccination Act

Shiva says: "the 1962 Kennedy Vaccination Act must be repealed." He says that in 1986, it was another Kennedy - Ted Kennedy - protected the 1962 Vaccination Act.

While I was reviewing some of Dr. Rashid Buttar's videos, I heard that Robert Kennedy is anti-vaccination, but Shiva has provided a video Robert Kennedy made the statement,

"I want to say it emphatically, I am pro-vaccine. I have been fiercely pro-vaccine. I believe that we ought to have policies that encourage full vaccination for all Americans...Robert F. Kennedy Jr.

Shiva is against mandatory vaccination and says 'one size does not fit all.' He says, "Your body and my body are unique. What you need you should decide in collaboration with your healthy care profession - The Government should not be involved in it...from a scientific perspective, the human body is extremely complex - to impose a child gets 35 different vaccines, 70 doses, God only knows what the interactions are, is not only criminal..."

Shiva said that information that recently came out on John Kennedy says that Kennedy had great praise for Hitler and that he was intrigued by Hitler. I would have never known this, nor would I have known that Robert Kennedy is for mandatory vaccination.

So is Shiva a conspiracy theorist that Wikimedia says he is? Who owns wiki to be saying all of these things? Obviously like You Tube, Google, Wiki is also a mainstream media. Is he a conspiracy theorist because of what he is saying about the Kennedy's? Most in the world thinks of John Kennedy as a great human being meaning very truthful and honest, but over the years I have viewed other views about him which I'm not impressed with. I decided to do a search and at this link below confirms what Shiva is saying.

<https://www.haaretz.com/.premium-jfk-in-1937-fascism-is-right-for-germany-1.5269210>
The book is "John F. Kennedy Unter Deutschen" ("John F. Kennedy Among the Germans") – featuring travel diaries and letters between 1937 and 1945. The work, edited by Oliver Lubrich, documents three visits by Kennedy to Germany – in 1937, 1939 and 1945. "At first glance, one could get the impression that Kennedy endorsed fascism and even admired Hitler," Spiegel writes.

Shiva understands the immune system more than most people

It's now or never. Shiva is gaining a lot of support and many believe that the world needs a person like Dr. Shiva A. who understands the immune system, vaccination and Big Pharma. He says that Robert Kennedy is a lawyer and that he 'knows nothing about science, he's as bad as Bill Gates - he endorse Hillary Clinton, not once, not twice, not three times...so all of you mothers who wants to bow down to Robert Kennedy, go and do it, BUT GET OUT OF OUR WAY!..."

Truth, Freedom and Health

On Tuesday, June 16, 2020, Shiva and supporters ascended at the JFK Building chanting "Truth, Freedom and Health."

Shiva understands the immune system through real science and is against forced vaccination. He talks about "how each one of us can fight the impending vaccine" and what we should know and understands.

Racism and police brutality

With Black Lives Matter, police brutality and riots taking place world wide, Shiva has also spoken on racism. Police brutality speaks for itself. There are countless examples of such brutal behaviors by people that abuse the little power they are given. There are many police that's doing their jobs right, but a few makes it bad for all of them. The few that's been breaking all the rules needs to be identified and taken out of the police force and let them work in different positions.

Shiva says that Robert Kennedy is not anti-vaccine and that he (Shiva) has proof of this. In Shiva's video, he says "...because you are supporting a racist fellow - Robert Kennedy does not want this skin color and people like me leading a movement, only the white liberal elites can lead a medical freedom movement." He says that people like Robert Kennedy will not fight for you, and says that Robert Kennedy does not know science, and that R. Kennedy 'comes from an elitist family' and that 'his entire family is pro vaccine...'

We keep hearing about 'Black Lives Matters.' Shouldn't all lives matter. Racism exists everywhere in this world and not just in America. Very often in Edmonton, Alberta, Canada, I hear people that call themselves 'white' saying that there's racism against them because foreigners are taking away their jobs. We hear about police brutality and police not catering to some. Abuse is worldwide. I have written a series of novels called 'The Trilogy of Savitri's Garden' which describes a lot of the abuse that had taken place in Guyana, South America during the days of slavery and indentureship.

In Canada, I often hear that sexual assaults, battery and other forms of abuse only take place in India, the Middle East, Africa and everywhere else, but I grew up in Canada and I can tell you that I have faced discrimination and I have heard of countless stories of abuse, battery, racism and discrimination in places like Canada, America, Britain, the rest of Europe and other places. I have heard of people minding their own business being attacked by people and beaten with hockey sticks in Canada. And with Islamophobia, many Muslims were mistreated and beaten. Today we hear of many Chinese being beaten because of covid-19. We living in societies that promote division and hate against each other. None of this betters humanity.

I have no doubt that Shiva who is running for U. S senate have experienced racism in America because of his skin complexion, and I can say that because I have experienced it in Alberta, Canada, and I know many people that have experienced racism in Edmonton, in the streets, in the workplace and by racist managers, and this is why many people leave Edmonton to live in a more diverse society where they will be given better opportunities.

Aboriginal Chief beaten in Alberta, Canada

Recently in Alberta, Canada, an Aboriginal chief Allan Adam who was caught with an expired license plate was a victim of police brutality. The first officer did a great job, as Adam was probably aggravated, and was rude and obnoxious when he should have

accepted that he was fault. When the second officer arrived, the first police was walking next to Adam and holding his arm. Adam was not resisting. All the second police had to do upon his arrival was to take Adam's other arm. And if Adam did tried to resist, it would be easy for two big strapping officers to quickly handcuff Adam. Adam is just a small guy standing next to these two policemen. But upon arrival while Adam was standing the second police who was big and strong charged at him, slammed into him and knocked this small guy to the ground and then punched Adam in the face (there was blood on Adam's face) and yelling 'don't resist.' Don't resist? When the second officer arrived and charged Adam, Adam was not resisting. Why at that time didn't the second officer say, "Okay do not resist." On the ground, Adam thinks he was being beaten, so he would try to push or fight back since he was being abused and beaten. I think that anyone would. I believe that on June 21 or June 22 I had written that some police officers should be removed and given janitorial jobs. I then removed this statement because I realize that they may not even be capable of doing such work; the following day or on around June 23, there's a case in America where some of the police had to clean a part of the jail. Since when are police officers janitors for the prison?

I could not file a report at the police station in Edmonton concerning the theft of my original songs and books

In 2010, I was experiencing a lot of flat tires and I was told by the police to file reports. I was told that the more they have helps the investigation. There were always forms at the front for people to fill in and I was always told to fill them, and fill multiple forms if required. In 2011 life in Edmonton, at work and in the public because very strange and scary. Also Islamophobia was spreading rapidly and would peak around 2014/2015/2016 where there was lots of hate toward Muslims. And during this time I felt that I was really under attack and the police would not help in anyway. When I began filing reports in 2011 concerning what looks like the theft of my original songs and books, the police in Edmonton, Alberta, Canada would not allow me to file anything to do with my songs and books. Why is that? I was not allowed to walk into a police station and file any of my reports anymore, especially when I mention the theft of my music and books, and being followed. They would try to make me look like I'm stupid and paranoid. Their job is to take my report and file my report, but they refused and wouldn't. Why is that? And even when I tried to file a report online they would block me from filing the report online. Then all of a sudden they removed all the report forms from all the police stations so a person like me cannot walk into a police station and file a complain. Why is that? So that there would be no records? So nobody would know anything about it? That makes no sense. Did I trigger off the removal of the report forms in all of the stations that a million people should have access to? Just to stop me from filing a report? I'm the person with 100 original songs and over 15 books in Edmonton, Alberta, Canada and suddenly I was not allowed to log any complaints. Isn't this all a part of police brutality? I think it is.

There are massive police advertisement poster in Edmonton, Alberta, Canada, but in all of the police offices in Edmonton between 2011 and 2019 that I entered to file reports, from where I stood at the front, it was all 'white' men and 'white' women, not a single person of color from the front where I stood, except for the Bonnydoom station where I believe the female at the front was aboriginal and another male was also Aboriginal or

another background. That is false advertising. I had also contact Human Rights in Ottawa and sent all of the reports I had, whether they were signed or not, to them. Even my MLA when I went to his office to make an appointment, I was told that they would contact me to book an appointment with me, but they never did. Does anyone really believe the police and the MLA's and politicians and Human Rights are actually 100% working for the people. I don't think so. They have different agendas and it's not for the people. If Human Rights worked for the people, do you believe that there would have been so much on going everyday abuse towards the Aboriginal people in Canada for centuries and to destroy their way of life, and have all kinds of drugs and gambling in their communities? There's no doubt police brutality exists and people in positions abusing their powers. It's about time that more and more of this brutality is being exposed and these people in power that's abusing their powers face the consequences.

From what I'm seeing, people like Dr. Shiva are speaking up and are having lots of support from people of all corners of the world because he is brave enough to expose the corruption that's taking place and he is fighting for the rights of the people. However, fighting for the people and being a politician are two different things.

Forced vaccination is rape says Shiva

On June 16, 2020. I had reviewed a video by Dr. Shiva where he state that forced vaccination is rape. The video is called Dr.SHIVA LIVE: Forced Vaccination IS RAPE - Statutorily & Biologically. The Truth & the Solution.
<https://www.youtube.com/watch?v=raQTfREs0Ec>

He said that someone had told him that he felt that being forced to take the vaccination is like being raped. Shiva is a brilliant person and he didn't waste anytime. Something clicked in him and he began researching the world 'rape' review some definitions when he saw the following definition in the Mariam's dictionary.

Definition

IN MASSACHUSETTS, RAPE means the penetration of any bodily orifice by any part of the body, or by an object performed against the victim's will, without consent, and with the threat of or actual use of force

Shiva says that a pore in the body is an orifice and the body has about 5 millions pores. In a paper he drew some diagrams demonstrating the orifices in the body and being vaccinated.

File reports with the police

Shiva says that if you want to be vaccinated then that's your choice, but he is against forced vaccination. He explained that if you are violated and forced to take the vaccination that you can file a report with the police. My opinion is the problem with filing reports with the police, is the police can easily turn around and block your reports,

because that's what I have experienced in Edmonton, Alberta, Canada when I was reporting about what looks like the theft of my songs and books.

REPEAL KENNEDY 1962 Vaccine Act. PASS Dr. SHIVA Health Act! This heading is from one of Shiva's videos: REPEAL KENNEDY 1962 Vaccine Act. PASS Dr. SHIVA Health Act!

Dr.SHIVA LIVE: END Fascism & Racism! REPEAL KENNEDY 1962 Vaccine Act. PASS Dr.SHIVA Health Act!

<https://www.youtube.com/watch?v=AaiRKLdLAWo>

Shiva says, "One size does not fit all medicine...finding the right medicine for the right person at the right time..." "...This model of the immune system ... at best it's old...at worse it's fake science...this is still used to promote vaccine"

Below are some excerpts from Shiva's video.

"...it started with John Kennedy...the 1962 Kennedy vaccination Act...Vaccine was now becoming prevalent everywhere...by 1986, about 24 years later...there were lots and lots of people suing the vaccine manufacturers for vaccine injury...thousands and thousands of law suits..10s, 20s, hundreds per day were being filed...the lobbyist, the lawyers in collusion with Big Pharma...many of the so call anti-vaccine people today - and you know who you are - collaborated with Big Pharma, collaborated with the Government, collaborated with the Government - another Kennedy - this is Ted Kennedy - the Kennedy has a history of being pro-vaccine - Ted Kennedy led another ACT called the Vaccine Injury Program...(Ted Kennedy was the leader)...this Act created the vaccine court...it protected the vaccine manufacturers -- If you and I -- your child get hurt - could not sue the vaccine manufacturer ... brought to you by Ted Kennedy - the younger brother of John Kennedy - this is no coincidence - they are trying to protect their brother legacy - - the Kennedy loves vaccines --- created the vaccine courts -- which basically said incase of death you can only get back 250 thousand dollars of your child - brought to you by Ted Kennedy --- BROUGHT TO YOU BY TED KENNEDY -- instead of getting rid of the Kennedy Vaccination ACT, they put ANOTHER BIG BANDADE, which protected BIG PHARMA..." SHIVA

Having heard the above by Shiva, then how is it possible that Robert Kennedy Jr. is anti-vaccination?

Shiva making waves across the world

Having reviewed Dr. Shiva's videos, while writing my research paper, I used the term **one size does not fit all**, but I referenced the quote back to his work. I know he did not create this phrase, but I have not heard this phrase recently nor in the context he is using it in, until recently when I began viewing his and Dr. Rashid Buttar's videos. I discussed Dr. Shiva used the phrase, one size does not fit all, when he spoke about the immune system and vitamins for boosting the immune system. I do not visit many websites, nor receives many emails, but suddenly, I received an email and other sources where people

were now using this term, not long after Dr. Shiva used it. I believe Dr. Shiva is gaining a lot of support across America and across the world that many are watching his videos and people like myself are writing about him and using the phrases he is using.

For example on May 25, 2020, I received an email from The Chopra Centre with Libby Carstensen who also use the term one size does not fit all although reworded to say: 'Everyone is different. There isn't a one-size-fits-all approach to well-being.'

Not long after on the YouTube channel I visit to get Mag's views, the video called '...documentary on black people's role in America that showed on You Tube on June 14, 2020 with Blacks such as Jesse Jackson and FarrahKhan. Ref: <https://www.youtube.com/watch?v=RLETV3T1BuI>

Dr. Michael Eric Dyson, Author & Professor, Georgetown University who is speaking on racism and politics says during his speech and he also spoke on health at (Time 29:50) where he says, "If you want to be great deal with the Negro questions, how do you say this, one size does not fit all - when you go to the hospital, some people take an asprin for hang down, some people take an insulin for diabetes, and some people take chemotherapy for cancer....you got to target your particular reality and tailor the public policy..."

Also 'Pocket Recommend' sent me an article which also highlighted 'One size does not fit all' where the article called: New Science Shows Managing Blood Sugar Isn't About Counting Calories or Carbs,,Put simply: there is no one-size-fits-all diet.

I've heard the term used before but not in reference to health. But suddenly I'm receiving all of these articles with this term even though I didn't asked for them. I believe that this confirms that many Americans and people across the entire world loves Dr. Shiva because he is standing up for people's rights and he is not afraid to do so.

If everyone has a different body type and health then it makes perfect sense that the same vaccine will not work everyone. People have different illnesses and are using different medications and thus a standard vaccine for humanity will not work, but will only cause more complications and I believe will cause an increase in deaths. Some people are lactose intolerant, some have diabetes, some have heart problems, therefore each person should have a different diet. Many people that do not take vaccines and are perfectly healthy.

ROBERT KENNEDY'S OWN WORDS THAT HE SUPPORTS VACCINATING ALL AMERICANS

Even recently I had seen videos stating that Robert (Bobby) Kennedy is anti-vaccination, but Shiva played a video with Robert Kennedy's message. He gives the website for the video:

www.RFKexposed.com

At the time, minute 43 of the video, it states:

"I want to say it emphatically, I am pro-vaccine. I have been fiercely pro-vaccine. I believe that we ought to have policies that encourage full vaccination for all Americans...Robert F. Kennedy Jr.

Shiva says, "...he (Robert Kennedy) wants to promote vaccine safety...this is what the democrats do ... we want to protect your child -- well you know what, They created DSS...they can come in and take away your child, and that's now a half a trillion dollar industry - because they want to protect your child ---the liberal elites who are the MOST RACIST always talks about protecting you...that's what Bubby Kennedy is up to.....SO THEY CAN FURTHER CONTROL YOUR BODY."

Shiva explains that each person's body is unique and how each person should be treated "Your body and my body are unique. What you need you should decide in collaboration with your health care profession - the government should not be involved in it..." He says that "from a scientific perspective, the human body is extremely complex -- to impose a child get 35 different vaccines, 70 doses, God only knows what the interactions are, is not only criminal-and to say we're going to figure out the safety, I'm sorry..." He makes references to Robert Kennedy who is a lawyer and knows nothing about science. . He also makes a reference to Bill Gates who is also not educated in the immune system. He understands how much the Kennedy's are loved by the Americans, but he says, "...so all of you mothers who wants to bow down to Robert Kennedy, go and do it, BUT GET OUT OF OUR WAY!..." He makes it clear that "This guy knows no science, he comes from an elitist family, his entire FAMILY HIS PRO VACCINE..."

"Monday June 15...We are going to take this to a Federal level...this is about repealing the 1962 vaccination ACT...He says, "...We are fighters...These people are not fighters...If you want to win, we have to go to the heart of the problem...Everybody's body is unique...The 1962 Act was created with Fake Science."

He says that there is profit in sickness - Big academia, big science, big hospitals, big pharmaceutical companies.

Many of us are aware of the big pharmaceutical companies and drugs and vaccines are being pushed on people through the hospitals, medical field and in the work place. Many agrees with Dr. Shiva that each person has a unique body and should be treated in different ways.

Dr. Ayyadurai says, "Big academia being created, big science, and now you had big hospitals...and then you had big pharma, big pharmaceutical companies, which basically recognized there was PROFIT IN SICKNESS...and this is what we are witnessing right now...this is about making enormous profit."

Shiva indicates that it's about making a huge amount of money and that it's not even about solving the disease. Over the past decade, very often I've heard of vaccines being pushed in the work places and at the doctors' offices where some of the staff tells you that you must take the vaccine. Many continue to refuse the vaccination for different reasons. Some believes that the Flu vaccines do not work since there are always new strains coming out. Some believes that vaccines cause other complications and illnesses. Some believes that vaccines have caused autism.

Drug companies to create paradise on earth - humanity is in trouble if that's the case

Shiva says that there's a 17 point plan created where for example there will be no more pollution and others causes being eliminated....and this paints a utopia.

He says, "So this is the PR, we are going to deliver utopia...right behind that is IA 2030, vitamin immunization which says...the front cover of that says we must not leave anyone behind...the front sentence says EVERYONE, EVERYWHERE WILL BE VACINATED...to achieve at least 14 of these points out of the 17, WE MUST IMMUNIZE... they've connected immunization to everything, the work force, climate change also needs vaccination...everything..."

Shiva uses the number 7.2 billion and \$1,000 to present his example. He says. "...The model here is to create vaccines as the standard procedures for protecting yourself of infectious diseases...if you can get a market of 7.2 billion people...spending about 1,000 a year that's a 7.2 trillion market...imagine if you can get the public so afraid, that THEY impose this as a mandate...now you've created a consumption...so Gabby is leading it ...with GATES AND CLINTON GLOBAL ... funded in many incestuous ways...back ending that there are major phrama companies who are part of Gabby..."

The whole world under House Arrest

Although the lock down is slowly being lifted, most of the world's population was placed under lock down. People did not choose to walk off their jobs and to have no money to buy food nor pay their rent. People across this world were ordered off their jobs and they were sent home. They did not choose to leave their employment. The lock down is the same as being under house arrest and that includes people of all professions being under house arrest, including the police, members of all the secret societies, politicians and about everyone you can think of. For some the lock down was so brutal that there was all kinds of abuse taking place in the home and against children.

Forced vaccination is coming

Even if you are healthy and have no complications, you will be forced to take a vaccine that would be developed within months when a vaccine should take 15 to 20 years to be developed. Due to this short time to come up with a vaccine, I would not be surprised if in the decades to come that the out come of the rushed vaccinations will create complications for many and even deaths. Sweden did not go on lock down and they are

doing fine. Many countries only have a few deaths and they are also forced into lockdown and will also be force to take the vaccine.

Fake Science and the AD campaign

Shiva says that to make all of this happen, he said that there's massive AD campaign, filtered through fake science...It's no longer countries...before the empires split up portion of territories...Now you are going to split up people's blood streams...you own hepatitis B1 bloodstream, you own HPV, you own that blood stream. So if you think of it from a pyramid model, god knows who the trillionaires names are - we don't know..."

Shiva says that "Right behind them is a visible deep state, the CDC, the WHO, the foundations, chan, Zuckerberg etc.. etc...and behind them you have the Pharma companies who needs this to serve their masters that invest in Big Pharma..."

Shiva did not mention the names of the trillionaires, but very often we hear of bankers funding many projects around the world and handing out bank loans. The United States and many countries across the world owe trillions or billions, and thus it should not be hard to lock down the entire world.

Recurring revenues for corporations

Shiva says that there's a recurring revenue for these corporations. "Imagine every year you have a need for a new vaccine, new variations, new mutations, now you have 7.2 billion people...you have a beautiful recurring model." He says, "You need GLOBAL MARKETING CHAMPAIGN...you do a soft launch, then a beta launch, and then a gold launch - The soft launch was event 201, test it out, how does it work, work out the kinks...in my view we're in the middle of the beta launch... see how you do it in LIVE...THE FULL LAUNCH WILL PROBABLY BE NEXT YEAR...If THEY pull this off and scare everyone...is the full launch looks like this...okay do you want the economy to be crashed again...do you want everyone to be in their homes..."

Mandatory vaccination

Even before we began hearing so much about mandatory vaccination, in my blog on March 13, 2020, I had stated that nobody could go back to school in September or to work unless they get vaccinated and they will have to prove that they are vaccinated. Even to be on an airplane they will need proof of vaccination.

Ayyadurai says, "Everyone gets a vaccine card...you don't want your neighbor screwing up the economy...THAT IS WHAT THE GOAL IS - IT'S A 7.2 BILLION PERSON MARKET OPPORTUNITY...7 upwards to 10 trillion dollars..."

The Bloodstream Revenue

Shiva says, “Everyone says why would they do this to the economy...well it’s a return on INVESTMENT...you crash the economy...they get a double whammy, the Chinese involve - they have a lot of dollar reserve - you crash the economy, you buy things on a song - you will make your return any way...as you kick this back up, you’ll make your money on that and you will also get indentured service because many of the large Chinese financial house are the ones who funded banks like lenders like Wellis fargo... so when the US working class crashes OR THE WORLD WORKING CLASS...they will also get a rental revenue...they will get two sets of revenues...they will get revenues from recurring on rent because people won’t be able to afford their homes, AND THEY WILL ALSO GET THE BLOODSTREAM REVENUE - it’s a recurring revenue model...AND BILL GATES KNOWS ABOUT THIS BECAUSE MICROSOFT REALIZE that they weren’t going to make as much money selling just simple software - they had to move TO THE CLOUD where you could get a recurring revenue model - SO THIS IS A WELL THOUGHT OUT BUSINESS MODEL and that’s why Gates funded hundreds of millions of dollars to McKenzie, to do all of this...” He continues and explained that how “people are very sophisticated, highly organized, very adept and that’s why they not only have the avert like Gates, but they also have the people that confuse people who say yeah I’m fighting against vaccine you know for medical freedom...something doesn’t sound right, you’re TELLING EVERYONE TO GET THE SAME VACCINE...”

Shiva says that we will all be “mandated to take a medicine IN OUR BLOOD STREAM...and if we don’t do it we will be tracked and not allowed to move...”
