

## **Is There Proof or Scientific Evidence of Kangen Water Benefits?**

The structure of Kangen Water makes it an incredibly healthy component of anyone's diet. Because this type of water is reduced through electrolysis, it contains many more active hydrogen molecules -ORP than does regular tap water. In addition, it contains smaller water clusters of 4 to 6 molecules instead of 12 to 14 molecules per cluster as found in bottled water. These properties allow alkaline water from ionizers to act as a strong and effective antioxidant in improving your health by detoxifying the cells in your body through the [neutralization of free radicals](#). Following is a description of the science behind the many health benefits of alkaline water, as well as a list of some of these health benefits. Before you continue reading there are some clarifications that must be made.

**Alkaline Water** – Alkaline water is any water that has a PH above 7.0 - This can be achieved in many ways. You can add baking soda to tap water or bottled water to make it alkaline. You make water alkaline in so called “Natural Processes” by adding alkaline minerals to the water.

**Alkaline Ionized Water** – Alkaline ionized water is created by water ionizers in a process called water electrolysis. This is what Kangen Water is! This process occurs inside the electrolysis chamber of the water ionizer machine.

**You must understand that there are no health benefits to drinking alkaline water.**

**This is because alkaline water is not the same as alkaline ionized water.**

The key term here is “Ionized” and this is what makes alkaline water and alkaline ionized water two completely different things. The confusion stems from the fact that the phrases “Alkaline Water” and “Alkaline Ionized Water” are used interchangeable and are easy to confuse for the same thing to the uneducated consumer. Sellers of so called “Natural” alkaline water filters prey upon this confusion to trick naive shoppers in only what can be called an alkaline water scam by selling them a high priced off the shelf mineral adding filter to raise the pH of the water, just like if you raised the pH of the water by adding baking soda. This “Natural” alkaline water thus only has a higher pH and this is not what gives the water its health benefits.

Notice that in the many medical studies the water is called reduced water or electrolyzed reduced water. This means the water was created by an electrical process called ionization or water electrolysis. Sellers of “Natural” alkaline water filters will tell you that water from water ionizers is “Artificial” because it uses this process to create the alkaline ionized water and that this is harmful. This however is untrue, in all the medical research studies the **health benefits are ONLY derived from alkaline ionized water**. Sellers of so called “Natural” alkaline water filters are attempting to deceive you into purchasing their cheaper filters with this marketing trick and

your lack of knowledge. What they are selling to you is truly an alkaline water scam because all they are selling is a filter which adds minerals to the water, which only raises the pH of water, such as if you add Baking soda to the water. **There are no health benefits to drinking only “Alkaline Water”** “made in this way, by simply inserting an additive to the water to make its PH alkaline (higher than 7.0). As indicated in the below research studies, the health benefits of alkaline water are only present when the water had been ionized and gone through the process of water electrolysis. This is what happens inside the [electrolysis chamber](#) of your alkaline water ionizer machine. The Electrolyzed Reduced Water (ERW) or Reduced Water (RW) or Alkaline Ionized Water (AIW) are all the same thing just different names. Only Alkaline Ionized Water created by the process of water electrolysis from your water ionizer will have the following 3 properties which lead to the health benefits:

1. **-ORP Oxidation Reduction Potential** – ORP is measure of the waters concentration of antioxidant hydroxyl ions which aid the body in neutralizing free radicals. Negative -ORP values are present in fresh vegetables and fresh fruits in high concentrations. This is a source of some of their antioxidant benefits and if you know someone who is into “juicing” this is the reason why they will drink the juice derived from juicing fruits and vegetables immediately because the -ORP value will evaporate relatively quickly (in a matter of hours) if it is left out exposed to Oxygen in the air.
2. **Micro-clusters** – Only electrolyzed reduced water or alkaline ionized water has the smaller water clusters. These are only achieved by the process of water electrolysis and there is no other man made way to create this effect. In nature micro-clustering occurs when electrical current is induced into water. This happens at the base of a water fall or when lightning strikes water.
3. **Higher pH** – The alkaline minerals in the source water are concentrated in the Alkaline Ionized Drinking Water, this is what gives it a higher PH. This is completely natural, the [alkaline water machine](#) separates the alkaline and acidic minerals in the source water and you end up drinking less of the acidic minerals in the alkaline ionized water, that is how the higher PH is created, by the removal of the acidic minerals. This is why if you have acidic source water of a PH of 5.0 to 6.0 it is best to add alkaline minerals to the water with a re-mineralization filter before the water enters the water ionizer machine. You could just keep adding alkaline minerals to raise the PH of the water, and indeed this is what the sellers of so called “Natural” alkaline water filters are selling you. But you will not get any health benefits from drinking this “Natural” alkaline water because it is only water which has minerals dumped into it, like adding baking soda to water, it does not possess the -ORP or the micro-clusters, no matter what they may tell you.

### **Science Behind the Health Benefits of Alkaline Water:**

Because alkaline ionized water contains so many active hydrogen molecules, it is able to act as a powerful antioxidant that searches out and destroys free radicals, called reactive oxygen species

(ROS). These ROS are created by many of the metabolic and digestive processes in our bodies. As they travel throughout the body, they can damage cells and DNA, leading to many diseases and cancers. The formation rate of diseases such as ulcers, cancers, and diabetes are encouraged or increased by this damage. When the hydrogen molecules of alkaline ionized water search out and neutralize these harmful free radicals, they help to prevent and lower the risk level of developing many of these diseases.

### **Alkaline Water Benefits for people living with Cancer:**

One of the major health benefits of alkaline ionized water is its ability to destroy and/or inhibit the growth of cancer cells, and inhibit the formation of new cancers in the body. This ability has been demonstrated in a number of studies, not all of them listed here. For instance, one [medical study](#) revealed that alkaline ionized water, or reduced water, contributed toward the death of leukemia cells. There is also evidence that [alkaline ionized water can slow the growth of tumors](#) by preventing the growth of blood vessels that feed the tumors. Another research study discovered that alkaline ionized water can help to [prevent the multiplication of cancer cells](#).

### **Anti-Diabetic Benefits of Alkaline Ionized Water:**

There have also been a number of scientific studies that indicate that alkaline ionized water may be effective in preventing and reversing diabetes. For instance, one medical study found that [alkaline ionized water helped to improve glucose levels](#) and glucose tolerance in both Type 1 diabetic and Type 2 diabetic mice. Another research study credited alkaline ionized water's ability to destroy ROS with helping to [prevent the type of cell damage in the pancreas that can lead to diabetes](#). A third study came to a similar conclusion: [Alkaline ionized water protects the cells in the pancreas](#) from ROS damage that can lead to diabetes. A [fourth scientific study](#) has found that adding alkaline ionized water to one's regular diet can lower not only glucose levels, but also other important indicators of health, such as triglyceride and total cholesterol levels.

**Prevention of Other Diseases** – Because alkaline ionized water acts as an antioxidant and removes ROS from the body, it can also play a role in the prevention of aging. It does so by preventing the cell damage that leads to the physiology of aging. There is also evidence that alkaline water can play a role in the prevention of other diseases and problems caused by free radicals, such as Parkinson's disease, ulcers, arteriosclerosis, and certain degenerative problems affecting the retina of the eye.

**Improved Hydration due to smaller Water Clusters** – Finally, electrolyzed reduced drinking water provides improved hydration for those who drink it. As mentioned earlier, ionized

water consists of smaller groups of molecules than does regular tap water. As a result, these smaller groups of molecules are more quickly and easily absorbed into cells of the body. This water which is ionized and which also contains ionized minerals like calcium and magnesium provides faster and more efficient hydration & nutrient absorption than does regular un-ionized water sources.

This is more than just a better-tasting drinking water. It also provides health benefits and disease-fighting capabilities that you cannot find in ordinary un-ionized types of water.

Adding these [alkaline ionized water benefits](#) to your diet, will help to keep you as healthy and disease-free as possible. By being better hydrated you will sleep more restfully and your body will function more efficiently. The human body is approximately 70% water by weight.

Improving this single most important nutrient benefits every single cell within the human body.

## **4 Locations That Naturally Create A Miracle Water**

- 1. Lourdes, France**
- 2. Tlacote, Mexico**
- 3. Nordenau, Germany**
- 4. Nadana, India**

As big as this world is there are only 7 places in the world that produce this kind of “*miracle water*” that naturally comes from the ground. This is water that has been flowing against underground rocks for hundreds, if not thousands, of years.

## **What Makes This A Miracle Water?**

When thousands of people around the world were getting cured of their disease from drinking water that came from the ground, it really makes you think. Most of these locations had stories of apparitions before being told where to look or where to dig and poof – water appears. After testing the water that came from these locations, scientists revealed that the water was naturally **alkaline** and had natural **antioxidants**.

Dr. Sanetaka Shirahata, Graduate School of Genetic Resources Technology, Kyushu University, says that all so-called miracle or healing water all contain Active Hydrogen (atomic hydrogen) and Hydrogen (molecular hydrogen) in the water. Due to hydrogen being the lightest element, active hydrogen evaporates within 0.3-0.7 seconds after generating it and hydrogen will evaporate soon after, especially in contained in a plastic water bottle.

**In the past, anyone who was sick or had a disease had to physically visit these locations, but thanks to technology, One can have this Miracle Water in the comfort of their own home!**

### **1. Lourdes France**

The most popular of these locations is Lourdes France when in the late 1850s a little girl had a vision and was told to dig in the mud. Under the mud was an abundance of spring water. People in the town started drinking the water and was healing their illnesses. To this day, millions of people have visited this location to get the water, sometimes even 10,000 people a day.

### **2. Tlacote, Mexico**

Aside from Metallica's Black Album coming out in 1991, May of that year brought another miracle. A wealthy man by the name of Jesus Chahin had this miracle water just sitting in his well. It wasn't until he originally noticed it from his dog who was drinking the water, but a Reveran Juan Crespo who suffered from prostate cancer and traveled 175 miles to drink this miracle water.

### **3. Nadana Village, India**

In September 1993 water began gushing out of a deserted tubewell. Local villagers who bathed in the water reported "magical" qualities of the water as it cured their skin disease. The owner of the well, Mr. Mamraj, was offered a large sum of money from people who wanted to buy the well. Mr. Mamraj refected the offer saying that he wanted to use the well water for the people and not for money.

### **4. Nordenau, Germany**

100 km east of Dussldorf a spring of very pure water was discovered in a cave – an old slate mine actually. The mine is on the property of Hotel Tommes in the Winterberg Mountains near Dusseldorf, which happens to be a popular Ski Resort in the district of Schmalenberg.

**There's a reason why people from all over the world.. in every single continent on this planet are getting Kangen Water Machines! Because it is the world's HEALTHIEST Water!**

Did you know that over 40,000 people every single day go to Lourdes, France from all over the world because the water has an abundance of active hydrogen in it?! This is what makes the water so rich in antioxidants! This is what Kangen Water is! That's what all the "jazz" is about folks! You can go to Lourdes, France.. or you can go to your kitchen sink! Kangen Water is actually 10x stronger than that water in France too!

# When Your Health Matters

Lourdes, France OR Kitchen Sink

**Leveluk**  
**SD501**  
**The World's**  
**Healthiest Water.**

**"NO disease** including cancer, can exist in an alkaline environment." - Dr. Otto Warburg, 1931 Nobel Prize Winner for Cancer Discovery.

Some people don't realize how acidic their bodies are. This could be making you sick, causing you to have cancer and/or other health problems/concerns. A lot of people are aware of foods being acidic, but most people don't realize that what they're drinking every single day, including BOTTLED WATER, FILTERED WATER (including Reverse Osmosis), TAP WATER & WELL WATER are not benefiting their health. In fact, it's most likely one of the biggest factors to what is making you sick!

Kangen Water, which is made by Enagic, Inc. a Global company more than 40 years old, that is from Japan. Enagic makes Ionized Alkaline Water machines that give you the type of water that your body needs to be healthy.

Enagic does NOT make claims, or promises that this water will cure or fix you of any health problems you might have but the company does encourage everyone that drinks the water to share their experiences. There are hundreds and thousands of people that will happily give you their testimonies of what Kangen Water has done to better their lives and repair their health.

What Kangen Water does is help restore homeostatic balance within a sick body that lacks oxygen to the body's cells, acid, and dehydration from the quality of water people are drinking! These factors lead to bodily imbalances of our alkaline/acidic pH levels. Drinking Kangen water helps contribute to restore balance of homeostasis in the body, keeping your body in harmony. Once our immune systems are in homeostatic balance and our bodies are properly hydrated, your body will begin to heal itself, The way Nature intended!

There are people that were diagnosed with different types of terminal cancers and tumors that are still living and that can tell you that Kangen Water is what saved their lives.

Others have had Rheumatoid Arthritis, Fibromyalgia, Gout, Psoriasis, Diabetes, Multiple Sclerosis, GERD, other autoimmune diseases, and many other serious health problems, and they can all give their testimony of how Kangen Water has changed their life and how they do not suffer anymore. Nothing worked for these people that had serious health problems/diseases and only after they had started drinking Kangen Water, they noticed a difference and before they knew it, they were feeling better.

Kangen Water gives you true hydration and drinkability, Micro-clustering, free radical scavenging, encourages longevity & detoxification. Kangen Water is very rich in antioxidants, magnesium, potassium, sodium & calcium NATURALLY. The reason for this is because a Kangen Water machine filters the water twice through a double carbon antibacterial filter first, and then enters the electrolysis chamber which ionizes the water. So what the machine produces is ionized alkaline water that is very beneficial to the health of any living creature.

**Dr. Otto Heinrich Warburg**  
**1883-1970**

**Discoveries in**  
**Cancer Metabolism**  
**Cancer Cure & Prevention**

Dr. Warburg understood the relationship between oxygen and the pH of cancer cells and reported that cancer has a low pH (as low as 6.0) and therefore thrives when acid levels are high.

His research proves that cancer cannot live in an oxygen rich and an alkaline rich environment (a pH value greater than 7.0).

## Scientific Demonstration of Kangen Water

### Scientific Demonstration of Kangen Water vs. Bottled Water & Soda

Here we will show you visually and scientifically the health benefits of [Kangen Water](#) vs bottled water & Sodas..

**WARNING:** The info you are about to read WILL BLOW YOUR MIND!

There are 3 healthy properties to Kangen Water

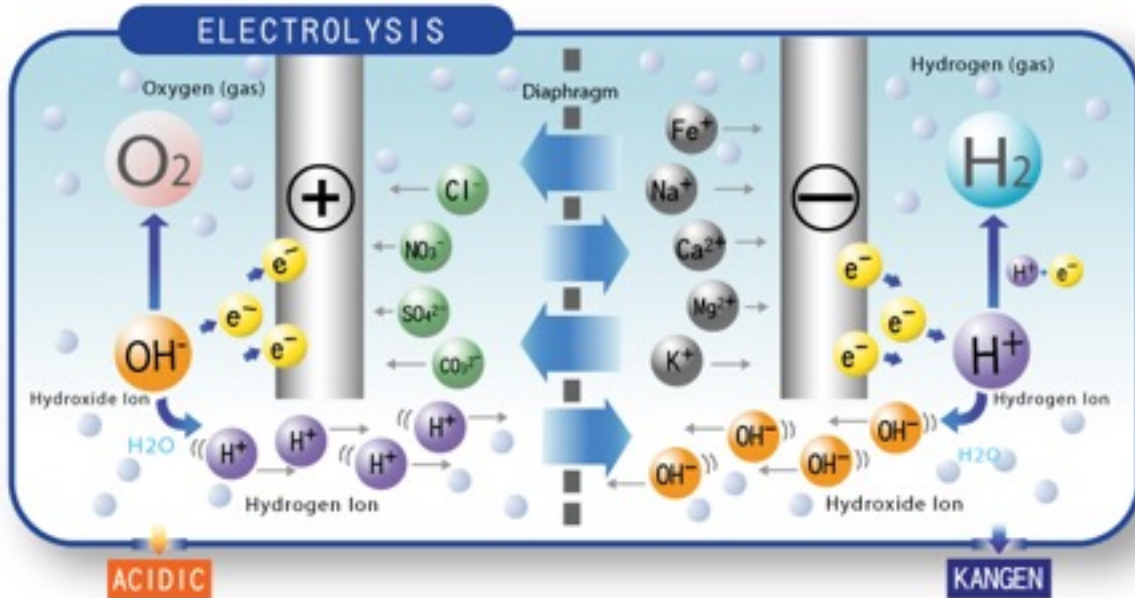

- Alkaline

- Antioxidants
  - [Microclustered molecules \(Hydrate your body 600 times better than any other water!\)](#)
- Ionized Water Through Electrolysis**

Enagic's water ionizers give the water these properties naturally through electrolysis, not by adding anything to the water like other alkaline water machines or filters. There are 2 ways to make your water alkaline through a water ionizer. One is through electrolysis and the other is through a re-mineralization filter.

### Electrolysis

When water passes through an electrolysis chamber in your water ionizer it is naturally giving the water particular properties that have health benefits. It is NOT adding a physical substance to the water (minerals) that alter the water. It is changing the molecular structure of the water naturally.

### Fake Alkaline Water

Ok, it may not be “fake” per se, but it is not what the mass people think they are drinking. A re-mineralization filter isn't technically bad, but it's not quite Kangen Water or ionized water. Granted, this filter adds certain trace minerals (mainly Calcium) to make the water alkaline, the water still has oxidation and is NOT micro-clustered so you will feel full and bloated when drinking the water. This type of water is alkaline by default, but I personally think it's a “cheap” way of being healthy. There are much better and more “natural” ways. I put Natural in quotations

only because it's through technology that we are able to achieve these properties. Though these properties exist in nature, they are only found in 7 places in the entire world.

#### **Active Hydrogen**

See the little bubbles? That's **Active Hydrogen**, which the Enagic Kangen Water Generator naturally does. It raises the pH of the water through electrolysis. Remember, pH means Potential of Hydrogen.

After about 5 seconds it disappears. So don't worry if you see bubbles in your water. This will happen more when you do a slow-pour of 9.5 Kangen Water.

**Important Note:** The Active Hydrogen that you see unfortunately evaporates quickly, but there are 2 types of Hydrogen; Active Hydrogen (atomic hydrogen) and Hydrogen (molecular hydrogen). After much research, this is, in my opinion, the ***most important property*** that has the ***most powerful healing property of Kangen Water***, which is why it is best to drink the water straight from the source – the machine – especially if you have a *serious health condition*.

Keep in mind that the *quality of the water* is based on the *brand of ionizer*, let alone the quality and longevity of the water ionizer. I cannot express how important this is especially if you have a serious health condition.

#### **Kangen Water vs. Bottled Water & Soda**

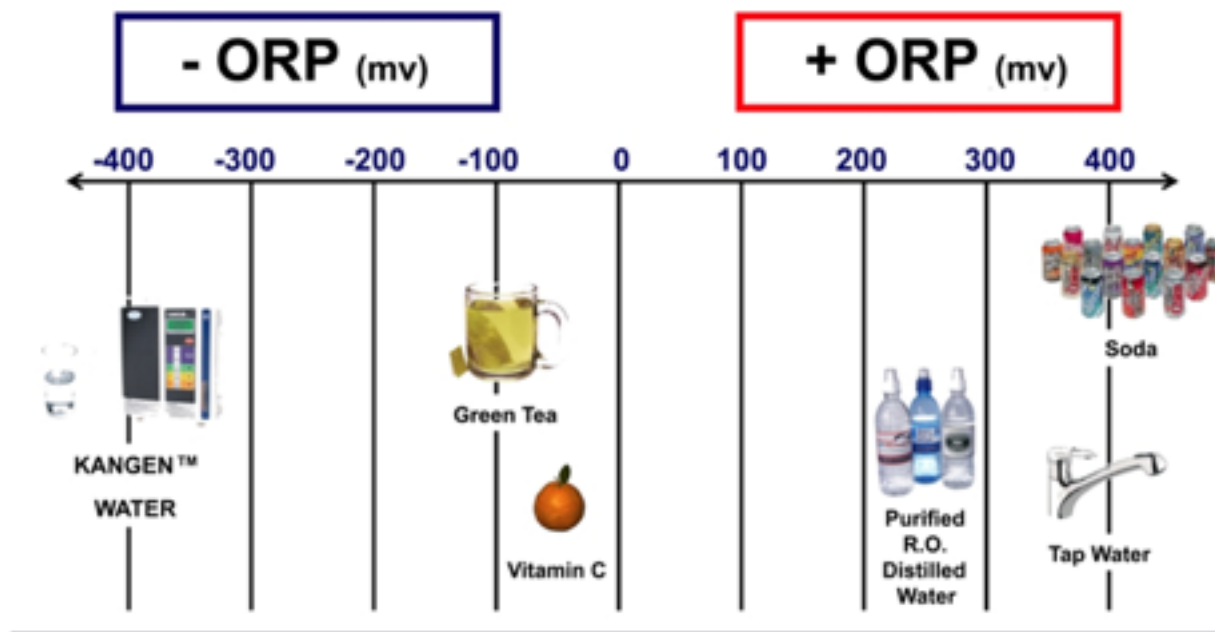

I will visually show you the pH (Potential of Hydrogen) of Kangen Water versus other popular bottled water, sodas and alcohol.

### Antioxidants vs Oxidation

Oxidation is unfortunately a natural substance in all water and sodas. Our ORP (Oxidation Reduction Potential) meter reads in millivolts (MV) whether a drink or a liquid has oxidation or antioxidants. Here is a reminder of the chart so you can see.

Any drink that has a positive number above zero is oxidation. The higher the number, the worse it is.

Any drink that has a negative number below zero has antioxidants. The greater the negative number, the more potent the antioxidants are.

### Kangen Water

Kangen Water has VERY powerful Antioxidants of approximately -730 mV. The most potent form of antioxidants you can get from a liquid.

Kangen Water is also very Alkaline – 9.5 pH.

## Uses & Benefits of Kangen Water

### Uses and Benefits of the different kinds of Kangen Water

This is the basic information of the type of water the Enagic [Kangen Water](#) Generators and what they can be used for – which is kind of a lot. If you want the scientific explanations and health benefits, check out the blog section and other pages on this site.

Make The Water You Want With The Touch Of A Button!

**-Continued to Next Page-**

### Learn more about each water type:

- Strong Kangen Water – 11.5 pH
- Kangen Water® 8.5 pH – 9.5 pH

- Clean Water 7 pH
- Beauty Water 5.5 pH
- Strong Acidic Water 2.5 pH

**Strong Kangen Water – 11.0 pH and up**

*not suitable for drinking*

Strong Kangen Water preserves hygiene in your daily life due to its strong cleaning effect. It has dissolving and heat conducting benefits.

### **Remove Wax & Pesticides From Fruits and Vegetables**

Most people clean their fruits & vegetables with tap water and are putting in more chemicals into their food. Your water NEVER looked like this after cleaning it with tap water. **Cleaning it with 11.5 pH Strong Kangen Water will remove the wax & pesticides from your food.**

### **Food Preparation**

Clean vegetables and fish. Enhance the flavor of broccoli, onions, bamboo etc. by pre-boiling them in Strong Kangen water.

### **Cleaning**

Clean cutting boards and dishcloths. Good for cleaning oil and tough grime from vents, as well as for general cleaning in the kitchen.

### **Stain Removal**

The extra strength will remove coffee, soy sauce and oil stains. Also great for getting out stubborn toilet bowl stains.

### **Dishes**

Use less detergent when washing your dishes. Save on water bills, as only one-third to one-fourth of the usual amount of water is adequate for rinsing of detergent.

**Kangen Water® 8.5 pH – 9.5 H**

### *Suitable for Drinking*

With a pH of 8.5-9.5, this type of water is perfect for drinking and healthy cooking. It works to restore your body to a more alkaline state, which optimizes health.

### **Drinking**

Drink 2-3 cups of water first thing in the morning. Compared to tap water, Kangen Water® has no unpleasant odor, tastes lighter, and has a pleasantly sweet flavor. *Find out how to prevent hangovers completely with Kangen Water*

It is important to include vegetables in your diet, when eating substantial amounts of acidic foods such as egg yolk, white rice, chicken, pork and beef, drinking alkaline Kangen Water® is equally important because it balances the acidic and alkaline effects of these foods.

### **Prevent Hangovers**

Drinking Kangen Water® after drinking will prevent hangovers. With the combination of properties, especially the alkalinity, it will neutralize the acidity of alcohol.

### **Food Preparation**

Use Kangen Water® to remove harsh taste of onions, bamboo shoots or the like. Leave liver and other meats which have a bad odor to soak in Kangen Water® for 20-30 minutes to reduce strong smells.

### **Rice**

Use it for washing and cooking, the result is delicious and fluffy rice.

### **Coffee and Tea**

For which taste and aroma are everything, you will be surprised at the improved color, taste, and aroma. And you can use less coffee or tea and still achieve a full rich taste due to the water's extractable ability.

### **Soups and Stews**

Kangen Water® draws out the flavor of ingredients so they get tender and juicy. Therefore, less seasoning such as salt and soy sauce are needed, so this water is good for people that want to reduce their salt intake.

### **Plants**

Use to water plants and flowers. Kangen Water® for the freshness and life of plants.

### **Animals**

Enagic® Water gives you a wonderful, all-natural alternative to pet products. Make your own pet shampoo with Beauty Water, Kangen Water®, or Neutral Water, depending on the ideal pH level

of your pet's fur. Ask your veterinarian for advice on choosing the right water for your furry friend.

### **Crafts**

Excellent for dyeing cloths, as well as other craft projects. You will love the vibrant colors obtained when using this water.

### **Hydration**

Kangen Water® gives you optimal hydration. Staying hydrated is crucial to living a healthy and well-balanced life.

### **Minerals**

Kangen Water® contains the minerals calcium, sodium, potassium, and magnesium. Unlike reverse osmosis, which strips away even helpful minerals, these are not filtered out of Kangen Water®!

### *Suitable for drinking*

Remove chlorine, rust and cloudiness to create delicious drinking water. The three-layered, high-powered water cleaning filter removes not only chlorine, but also matters such as rust and impurities. You will obtain delicious clean water that contains minerals.

### **Medication**

It's a good idea to use this water when taking medication. Most medication is time released, and if taken with alkaline water, it may pass through the system too quick and you won't get the full benefits of medication.

### **Baby food**

Use Clean water when preparing baby formula.

**NOTE:** Baby's are born 100% alkaline. They don't start developing acid until they start eating solids, which is why you wouldn't give the baby alkaline water.

Not suitable for drinking

This slightly acidic water is recognized for its astringent effects. It's terrific to use for gentle cleaning and beauty care.

### **Face wash**

The astringent properties of acidic water are effective in toning and firming your skin. Pat the skin and leave to dry. Also excellent as a toner after shaving.

### **Hair care**

Use instead of rinse after shampooing. Reduces annoying tangles and brings out a radiant shine.

### **Bath water**

Add Acidic water to your bath to keep your tub free of bathtub rings. Bathing in this water warms the body and keeps skin beautiful.

**Pet care**

Great for grooming your pet, brush with it to obtain soft and shiny fur.

**Rinse cycle**

Soaking in acidic water before the spin cycle will soften your clothes.

**Cooking beans**

Various types of beans, such as kidney beans and green peas, will cook to perfection. Since Acidic water will speed up the cooking time, take care not to overcook.

**Washing vegetables and fruit**

Vibrant colors of strawberries, red cabbage, asparagus and eggplants will not change when washed and prepared with this water.

**Fried food**

Fried food comes out nice and crispy when the batter is made with Acidic water.

**Frozen food**

Spray foods with Acidic water when freezing so that the food, including fish and shrimp, do not lose their flavor when thawed out.

**Stains**

To remove stains, grime and grease, leave to soak in water for 24 hours.

**Dishes**

When washing dishes and glasses in this water, they will come out sparkling clean.

**Polishing**

Polish mirrors, eyeglasses, glass objects and windows to a high sheen.

**Housecleaning**

Remove dirt from hardwood floors, ceramic tiles etc., without leaving a sticky residue.

**Strong Acidic Water 2.5**

***Strong Acidic 2.5 Not suitable for drinking (only gargling)***

This water has disinfecting properties. Use Strong Acidic Water to sanitize kitchen utensils, counter tops, etc. to keep areas safe and clean.

**Disinfecting Properties**

This is JUST water. The 2.5 pH strong acidic water has disinfecting properties that can kill most organisms; **bacteria, e-coli, salmonella, etc.** So people with skin conditions such as: **Eczema, Psoriasis, acne, athletes foot, gangrene, etc.**

### **Cleaning and Sanitizing**

Sanitize knives, cutting boards, dish towels, and kitchen cloths, etc. For a more powerful cleaning effect, clean with Strong Kangen water before using Strong Acidic water. Because of the strong acidity, metal that rusts easily should be wiped with a dry cloth.

### **Hygiene**

Use Strong Acidic Water to wash hands, and clean and sanitize bathroom surfaces.

### **Commercial Operation**

Beauty salons, hair salons, restaurants, agricultural colleges, daycare centers, pet shops, and nursing homes all benefit greatly from the use of Strong Acidic Water.

A photograph of a man in a white lab coat and glasses, operating a Kangen Water machine. He is pouring water from a small container into a larger bottle. The machine is white with a digital display and various buttons. A potted plant is visible on the left side of the machine. The background shows a hospital setting with shelves containing various bottles and containers.

# Japanese Hospitals use Kangen Water®

Find out why...

Enagic began in 1974. The Japanese Ministry of Health and Welfare approved it as a medical equipment manufacturer. They also have ISO-13485 certification. That's why over 250 Japanese hospitals use Kangen water!

Dr. Horst Filtzer

**Enagic is Approved by the  
Japanes Association  
of Preventative Medicine  
for Adult Diseases**

Over 6,500 Doctors have tested Enagic  
Water Life Science Devices in Clinical Applications  
with their patients

"When I first drank Kangen Water I experienced something I had never have before, I liked it, I liked it very much. As I investigated the product, as I investigated the concept of ionized water, as I investigated the concept of alkalization of the body cells, I became more and more convinced that this is a product that is of absolute value to all mankind. That it is a product that should be used in all households if at all possible, because it clearly is superior to any form of water than I ever encountered."

"Personally, I can testify that there is no question that my own life has been markedly enriched by the ingestion of Kangen Water. .. I endorse Kangen Water as a physician, as a surgeon, as a human being, 100%. I feel that it is of great benefit to all mankind, I can only recommend it in the highest way."

~Dr. Horst Filtzer, Vascular Surgeon
